SUPPLEMENTARY INFORMATION:

Background

Notice of these meetings is provided in accordance with the Federal Advisory Committee Act, 5 U.S.C. App. 10(a)(2) through implementing regulations at 41 CFR 102–3.150. The MHCC was established by the National Manufactured Housing Construction and Safety Standards Act of 1974, 42 U.S.C. 5403(a)(3), as amended by the Manufactured Housing Improvement Act of 2000 (Pub. L. 106–569). According to 42 U.S.C. 5403, as amended, the purposes of the MHCC are to:

- Provide periodic recommendations to the Secretary to adopt, revise, and interpret the Federal manufactured housing construction and safety standards in accordance with this section;
- Provide periodic recommendations to the Secretary to adopt, revise, and interpret the procedural and enforcement regulations, including regulations specifying the permissible scope and conduct of monitoring in accordance with subsection (b);

Public Comment

Citizens wishing to make comments on the business of the MHCC are encouraged to register by or before Monday, October 3, 2022, for the October session and October 31, 2022, for the November session, by contacting the Administering Organization (AO), Home Innovation Research Labs; *Attention:* Kevin Kauffman, 400 Prince Georges Blvd., Upper Marlboro, MD 20774, or email to mhcc@homeinnovation.com or call 1–888–602–4663. Written comments are encouraged. The MHCC strives to accommodate citizen comments to the extent possible within the time constraints of the meeting agendas. Advance registration for both meetings is strongly encouraged. The MHCC will also provide an opportunity for public comment on specific matters before the MHCC.

The Department of Energy’s Energy Conservation Standards for Manufactured Housing (87 FR 32728 (May 31, 2022)), which have a compliance date of May 31, 2023, do not fully align with the current Manufactured Housing Construction and Safety Standards (MHCSS). Given that manufacturers have to comply with the Department of Energy’s Energy Conservation Standards for Manufactured Housing and the MHCSS, and HUD’s role in regulating the manufactured housing industry, HUD considers it imperative to promptly proceed with rulemaking to align the MHCSS with the Department of Energy’s Energy Conservation Standards for Manufactured Housing. To this end, HUD is scheduling two sets of meetings of the MHCC to allow discussion, analysis, and recommendation to HUD of such alignment. These meetings are scheduled for three days each to provide

sufficient time for thorough consideration. HUD, therefore, strongly encourages active participation by committee members, stakeholders, and other interested parties. The Secretary’s requested outcome of the meetings will be for the MHCC to propose recommended changes to the Manufactured Home Construction and Safety Standards that align with the Department of Energy’s Energy Conservation Standards for Manufactured Housing. Due to the impending May 31, 2023, date for compliance with the Department of Energy’s Energy Conservation Standards for Manufactured Housing, HUD requests an expeditious review timeframe ending on or about December 31, 2022, for receipt of a response to the Secretary’s request and proposed revisions to the MHCSS.

SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service, invite the public to comment on applications for permits under section 10(a)(1)(A) of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*). The requested permits would allow the applicants to conduct activities intended to promote recovery of species that are listed as endangered under the ESA.

Background

With some exceptions, the ESA prohibits activities that constitute take of listed species unless a Federal permit is issued that allows such activity. The ESA’s definition of “take” includes such activities as pursuing, harassing, trapping, capturing, or collecting, in addition to hunting, shooting, harming, wounding, or killing.

A recovery permit issued by us under section 10(a)(1)(A) of the ESA authorizes the permittee to conduct activities with endangered or threatened species for scientific purposes that promote recovery or for enhancement of propagation or survival of the species. These activities often include such prohibited actions as capture and collection. Our regulations
