III. Review Under the Regulatory Flexibility Act

The Regulatory Flexibility Act, 5 U.S.C. 601–621 (Act), requires Federal agencies to perform a regulatory flexibility analysis if a proposed regulation is likely to have a significant economic impact on a substantial number of small entities. Western has determined that (1) this rulemaking relates to services offered by Western, and, therefore, is not a rule within the purview of the Act, and (2) the impacts of an allocation from Western would not cause an adverse economic impact on a substantial number of such entities. The requirements of this Act can be waived if the head of the agency certifies that the rule will not, if promulgated, have a significant economic impact on a substantial number of small entities. By the execution of this **Federal Register** notice, Western's Administrator certifies that no significant economic impact on a substantial number of small entities will occur.

IV. Review Under the Paperwork Reduction Act

In accordance with the Paperwork Reduction Act of 1980, 44 U.S.C. 3501–3520, Western has received approval from the Office of Management and Budget (OMB) to collect customer

information in this rule, under control number 1910–1200.

V. Review Under the National Environmental Policy Act

Western has completed an environmental impact statement on the Program, pursuant to the National Environmental Policy Act of 1969 (NEPA). The Record of Decision was published in the **Federal Register** on October 12, 1995 (60 FR 53181). Western's NEPA review assured all environmental effects related to these procedures have been analyzed.

VI. Determination Under Executive Order 12866

DOE has determined that this is not a significant regulatory action because it does not meet the criteria of Executive Order 12866, 58 FR 51735. Western has an exemption from centralized regulatory review under Executive Order 12866; accordingly, no clearance of this notice by OMB is required.

Administrator.
