II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled, “U.S. NRC Acquisition Regulation.” The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on April 2, 2024, 89 FR 22756.

1. *The title of the information collection:* U.S. NRC Acquisition Regulation.
2. *OMB approval number:* 3150-0169.
3. *Type of submission:* Extension.
4. *The form number, if applicable:* Not applicable.

5. *How often the collection is required or requested:* Monthly, once (at time of award), and on occasion (when changes occur).

6. *Who will be required or asked to respond:* Contractors and bidders.

7. *The estimated number of annual responses:* 6,258 (6,112 reporting responses + 146 recordkeepers).

8. *The estimated number of annual respondents:* 428.

9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 17,412 (14,834 reporting + 2,578 recordkeeping).

10. *Abstract:* The mandatory requirements of the Nuclear Regulatory

Commission Acquisition Regulation (NRCAR) implement and supplement the government-wide Federal Acquisition Regulation (FAR) and ensure that the regulations governing the procurement of goods and services with the NRC satisfy the needs of the agency. This includes reports and recordkeeping requirements for certain contractors or offerors to submit a monthly progress report that summarizes work performed during the previous month, and/or retain records of equipment, payroll, inspection and quality control records, as applicable. Because of differing statutory authorities among Federal agencies, the FAR permits agencies to issue a regulation to implement FAR policies and procedures internally to satisfy the specific need of the agency. The NRCAR includes policies, procedures, solicitation provisions and contract clauses needed to ensure effective and efficient evaluation, negotiation, and administration of agency acquisitions. Certain reports, such as reports of contractor organizational conflicts of interest or changes in key personnel are collected from contractors on as needed basis as changes occur whether at the time award or throughout the life of the contract. Some reports are required to be submitted monthly such as the Financial Status report and Technical Progress report. There are also some reports that bidders are required to submit upon request, such as responses to pre-award questions that demonstrate their ability to meet minimum standards set forth in the FAR.
