Approval and Promulgation of Air Quality Implementation Plans; Maryland; Reasonable Further Progress Plan, 2002 Base Year Emission Inventory, Contingency Measures, Reasonably Available Control Measures, and Transportation Conformity Budgets for the Philadelphia 1997 8-Hour Moderate Ozone Nonattainment Area

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is approving a revision to the Maryland State Implementation Plan (SIP) to meet the reasonable further progress (RFP) plan, the 2002 base year emissions inventory, RFP contingency measure, and reasonably available control measure (RACM) requirements of the Clean Air Act (CAA) for the Maryland portion of the Philadelphia moderate 1997 8-hour ozone nonattainment area. EPA is also approving the transportation conformity motor vehicle emissions budgets (MVEBs) associated with this revision. EPA is approving the SIP revision because it satisfies the emission inventory, RFP, RACM, RFP contingency measures, and transportation conformity requirements for areas classified as moderate nonattainment for the 1997 8-hour ozone national ambient air quality standard (NAAQS) and demonstrates further progress in reducing ozone precursors. EPA is approving the SIP revision pursuant to the CAA and EPA’s regulations.

DATES: *Effective Date:* This final rule is effective on July 12, 2010.

SUPPLEMENTARY INFORMATION:

I. Background

On January 7, 2010 (75 FR 953), EPA published a notice of proposed rulemaking (NPR) for a SIP revision submitted by the State of Maryland. The NPR proposed approval of Maryland’s 2002 base year emissions inventory, RFP plan, RFP contingency measures, RACM, and MVEBs for the Maryland portion of the Philadelphia moderate 1997 8-hour ozone nonattainment area. EPA is approving the SIP revision because it satisfies the emission inventory, RFP, RACM, RFP contingency measure, and transportation conformity requirements of the section 110 and part D of the CAA and EPA’s regulations. The formal SIP revision was submitted by the State of Maryland on June 4, 2007.

II. Summary of SIP Revision

The SIP revision addresses emissions inventory, RACM, RFP and contingency measures requirements for the 1997 8-hour ozone NAAQS for the Maryland portion of the Philadelphia 8-hour ozone moderate nonattainment area. The SIP revision also establishes MVEBs for 2008. Other specific requirements of Maryland’s June 4, 2007 SIP revision for the Philadelphia 8-hour ozone nonattainment area and the rationale for EPA’s proposed action are explained in the NPR and will not be restated here.

The following public comment was received on the NPR.

Comment: An anonymous commenter submitted the comment: “We do not need tighter regulations on ozone. Ragweed is more of problem than smog.”

Response: The comment, while vaguely expressing a general uncertainty about the rule, does not identify any particular defects in the rule substance or adoption. Importantly, the comment does not oppose EPA’s proposed full approval of the rule. Moreover, while the commenter expresses a general dislike for regulations addressing ozone pollution, the commenter does not question the legal obligation for the states to adopt and submit SIP revisions

addressing these specific obligations for the 1997 8-hour ozone NAAQS. *See generally* CAA section 182(b) and 40 CFR part 51 subpart X. EPA, therefore, believes that the commenter has not provided a basis for EPA to not move forward and approve the submitted SIP.

III. Final Action

EPA is approving the 2002 base year emissions inventory; the 2008 ozone projected emission inventory; the 2008 RFP plan; RFP contingency measures; RACM analysis; and 2008 transportation conformity budgets for the Maryland portion of the Philadelphia 8-hour ozone nonattainment area, contained in Maryland's June 4, 2007 SIP revision submittal for the Maryland portion of the Philadelphia 8-hour ozone nonattainment area. The SIP revision satisfies these requirements for 1997 8-hour ozone NAAQS nonattainment areas classified as moderate and demonstrates further progress in reducing ozone precursors.

IV. Statutory and Executive Order Reviews

A. General Requirements

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a "significant regulatory action" subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described

in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);

- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
 - Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
 - Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
 - Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act; and
 - Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).
- In addition, this rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the state, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

B. Submission to Congress and the Comptroller General

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

C. Petitions for Judicial Review

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of

this action must be filed in the United States Court of Appeals for the appropriate circuit by August 10, 2010. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action pertaining to the Maryland portion of the Philadelphia moderate 1997 8-hour ozone nonattainment area's 2002 base year emissions inventory, 2008 ozone projected emission inventory, 2008 RFP plan, RFP contingency measures, RACM analysis, and 2008 transportation conformity budgets may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

Approval and Promulgation of Implementation Plans; New Mexico; Interstate Transport of Pollution

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is approving a portion of a State Implementation Plan (SIP) submitted by the State of New Mexico for the purpose of addressing the “good neighbor” provisions of the Clean Air Act (CAA) section 110(a)(2)(D)(i) for the 1997 ozone National Ambient Air Quality Standard (NAAQS) and the 1997 PM_{2.5} NAAQS. This SIP revision satisfies a portion of the State of New Mexico’s obligation to submit a SIP that

demonstrates that adequate provisions are in place to prohibit air emissions from adversely affecting another state’s air quality through interstate transport. This rulemaking action is being taken under section 110 of the CAA and addresses one element of CAA section 110(a)(2)(D)(i), which pertains to prohibiting air pollutant emissions from within New Mexico from contributing significantly to nonattainment of the 1997 8-hour ozone and PM_{2.5} NAAQS in any other state.

DATES: This final rule will be effective July 12, 2010.
