BILLING CODE 6717–01–P

ENVIRONMENTAL PROTECTION AGENCY

[EPA–HQ–OPP–2023–0597; FRL–11634–01]

Clothianidin; Receipt of Application for Emergency Exemption, Solicitation of Public Comment

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has received a specific exemption request from the Florida Department of Agriculture and Consumer Services (FDACS) to use the insecticide clothianidin (CAS No. 210–880–92–5) as a soil drench application to treat up to 125,376 acres of immature (3–5 years old) citrus trees to control the transmission of Huanglongbing (HLB) disease vectored by the Asian Citrus Psyllid (ACP). The applicant proposes a use that has been requested in 5 or more previous years. Therefore, EPA is soliciting public comment before making the decision whether or not to grant the exemption.

DATES: Comments must be received on or before January 16, 2024.

ADDRESSES: Submit your comments, identified by docket identification (ID)

number EPA–HQ–OPP–2023–0597, through the *Federal eRulemaking Portal* at <https://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Additional instructions on commenting and visiting the docket, along with more information about dockets generally, is available at <https://www.epa.gov/dockets>.

FOR FURTHER INFORMATION CONTACT:

Charles Smith, Director, Registration Division (7505T), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460–0001; main telephone number: (202) 566–1030; email address: *RDfRNotices@epa.gov*.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. The following list of North American Industrial Classification System (NAICS) codes is not intended to be exhaustive, but rather provides a guide to help readers determine whether this document applies to them. Potentially affected entities may include:

- Crop production (NAICS code 111).
- Animal production (NAICS code 112).
- Food manufacturing (NAICS code 311).
- Pesticide manufacturing (NAICS code 32532).

B. What should I consider as I prepare my comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through www.regulations.gov or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD–ROM that you mail to EPA, mark the outside of the disk or CD–ROM as CBI and then identify electronically within the disk or CD–ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When preparing and submitting your

comments, see the commenting tips at <https://www.epa.gov/dockets/comments.html>.

3. *Environmental justice.* EPA seeks to achieve environmental justice, the fair treatment and meaningful involvement of any group, including minority and/or low-income populations, in the development, implementation, and enforcement of environmental laws, regulations, and policies. To help address potential environmental justice issues, the Agency seeks information on any groups or segments of the population who, as a result of their location, cultural practices, or other factors, may have atypical or disproportionately high and adverse human health impacts or environmental effects from exposure to the pesticide(s) discussed in this document, compared to the general population.

II. What action is the Agency taking?

Under section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) (7 U.S.C. 136p), at the discretion of the EPA Administrator, a Federal or State agency may be exempted from any provision of FIFRA if the EPA Administrator determines that emergency conditions exist which require the exemption. The FDACS has requested the EPA Administrator to issue a specific exemption for the use of clothianidin as a soil drench application on immature (3–5 years old) citrus trees to control the transmission of HLB disease vectored by ACP. Information in accordance with 40 CFR part 166 was submitted as part of this request.

As part of this request, the applicant asserts that clothianidin is needed to suppress the transmission of HLB disease vectored by ACP due to the lack of available alternative pesticides and effective control practices. Without this tool, Florida citrus growers are expected to experience significant economic losses due to the severity of this invasive disease and vector complex.

The Applicant proposes to make no more than two applications of clothianidin at a maximum rate of 0.4 lb. a.i./A (24.0 fl. oz per acre) per 12-month period on up to 125,376 acres of immature (3–5 years old) citrus grown in Florida from February 1, 2024, to February 1, 2025. A total of 25,037 lbs. active ingredient of clothianidin may be used on the maximum acreage 125,376 at the highest application rate.

This notice does not constitute a decision by EPA on the application itself. The regulations governing FIFRA section 18 require publication of a notice of receipt of an application for a specific exemption proposing a use which is supported by the Inter-
