Title: NSPS for Wool Fiberglass Insulation Manufacturing Plants and NESHAP for Wool Fiberglass Manufacturing (Renewal).

ICR Numbers: EPA ICR Number 1160.09, OMB Control Number 2060-0114.

ICR Status: This ICR is scheduled to expire on May 31, 2010. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for the EPA regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9,

and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The NSPS for Wool Fiberglass Insulation Manufacturing Plants, published at 40 CFR part 60, subpart PPP, were proposed on February 7, 1984 and promulgated on February 25, 1985, and the NESHAP for Wool Fiberglass Manufacturing, published at 40 CFR part 63, subpart NNN, were proposed on March 31, 1997 and promulgated on June 14, 1999.

Owners or operators of the affected facilities must make an initial notification, performance tests, periodic reports, and maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports, at a minimum, are required semiannually.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 103 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Wool fiberglass insulation manufacturing plants.

Estimated Number of Respondents: 61.

Frequency of Response: Initially, occasionally, and semiannually.

Estimated Total Annual Hour Burden: 18,599.

Estimated Total Annual Cost: \$2,233,940, which includes \$1,745,440 in labor costs, no capital/startup costs, and \$488,500 in operation and maintenance (O&M) costs.

Changes in the Estimates: There is a small increase in the total labor hours for this ICR, due to an adjustment. The

previous ICR did not include managerial and clerical hours for 40 CFR part 60, subpart PPP. This adjustment also results in a slight increase in the per respondent labor hours, from 101 to 103 hours per response.

Although these adjustments resulted in an increase in calculated burden hours, the regulations have not changed over the past three years and are not anticipated to change over the next three years. Additionally, the growth rate for the respondents is very low, negative or non-existent.

There is an increase in both respondent and Agency costs resulting from labor rate increases. This ICR has been updated to present the most recent available labor rates.

Dated: March 26, 2010.

Title: NESHP for Plastic Parts and Products Surface Coating (Renewal).

ICR Numbers: EPA ICR Number 2044.04, OMB Control Number 2060-0537.

ICR Status: This ICR is scheduled to expire on April 30, 2010. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: Entities potentially affected by this action are the owners or operators of plastic parts and products surface coating facilities. The affected entities are subject to the General Provisions of the NESHP at 40 CFR part 63, subpart A, and any changes, or additions to the Provisions specified at 40 CFR part 63, subpart PPPP. Owners or operators of the affected facilities must submit a one-time-only report of any physical or operational changes, initial performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports, at a minimum, are required semiannually.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 91 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information;

and transmit or otherwise disclose the information.

Respondents/Affected Entities: Plastic parts and products surface coating facilities.

Estimated Number of Respondents: 828.

Frequency of Response: Initially, occasionally, and semiannually.

Estimated Total Annual Hour Burden: 320,917.

Estimated Total Annual Cost: \$27,444,633, which includes \$27,180,233 in labor costs, \$16,000 in capital/startup costs, and \$248,400 in operation and maintenance (O&M) costs.

Changes in the Estimates: There is a small decrease in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This change in burden from the most recently approved ICR is due to an adjustment. Minor calculation errors in the previous ICR were corrected.

Dated: March 22, 2010.

Draft Document Related to the Review of the National Ambient Air Quality Standards for Particulate Matter

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of Extension of Comment Period.

SUMMARY: The EPA is announcing an extension of the public comment period for a draft assessment document titled, *Policy Assessment for the Review of the Particulate Matter National Ambient Air Quality Standards—First External Review Draft* (75 FR 4067; January 26, 2010). The EPA is extending the comment period that originally was scheduled to end on April 12, 2010. The extended comment period will close on April 26, 2010. The EPA recognizes that this document was released for public comment nine days later than originally anticipated. As a result, the Agency is extending the comment period by two weeks to provide stakeholders and the public with adequate time to conduct appropriate analysis and prepare meaningful comments.

DATES: Comments on the above report must be received on or before April 26, 2010.
