

INTERNATIONAL TRADE COMMISSION

[Investigation No. 337-TA-810]

Certain Navigation Products, Components Thereof, and Related Software; Determination Not To Review an Initial Determination Granting a Joint Motion To Terminate the Investigation on the Basis of a Settlement Agreement; Termination of the Investigation

AGENCY: U.S. International Trade Commission.

ACTION: Notice.

SUMMARY: Notice is hereby given that the U.S. International Trade Commission has determined not to review the presiding administrative law judge's ("ALJ") initial determination ("ID") (Order No. 9) granting a joint motion to terminate the investigation on the basis of a settlement agreement.

FOR FURTHER INFORMATION CONTACT:

Amanda S. Pitcher, Esq., Office of the General Counsel, U.S. International Trade Commission, 500 E Street SW., Washington, DC 20436, telephone (202) 205-2737. Copies of non-confidential documents filed in connection with this investigation are or will be available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 500 E Street SW., Washington, DC 20436, telephone (202) 205-2000. General information concerning the Commission may also be obtained by accessing its Internet server at <http://www.usitc.gov>. The public record for this investigation may be viewed on the Commission's electronic docket (EDIS) at <http://edis.usitc.gov>. Hearing-impaired persons are advised that information on this matter can be obtained by contacting the Commission's TDD terminal on (202) 205-1810.

SUPPLEMENTARY INFORMATION: The Commission instituted this investigation on November 3, 2011, based on a complaint filed by Furuno Electric Co., Ltd. of Hyogo, Japan and Furuno U.S.A., Inc. of Camas, Washington. 76 FR 68209 (Nov. 3, 2011). The complaint alleges violations of section 337 based upon the importation into the United States, the sale for importation, and the sale within the United States after importation of certain navigation products, components thereof, and related software by reason of infringement of certain claims of U.S. Patent Nos. 6,084,565; 7,095,367; 7,089,094; and 7,161,561. The notice of investigation named Honeywell International Inc. of

Morristown, New Jersey; and Skyforce Avionics Ltd. of West Sussex, United Kingdom as respondents.

On February 14, 2012, the ALJ issued the subject ID, granting a joint motion by all of the parties to terminate the investigation. The ALJ found that the settlement agreement complies with the requirements of Commission Rule 210.21(b) (19 CFR 210.21(b)) and that terminating the investigation would not be contrary to the public interest. None of the parties petitioned for review of the ID.

The Commission has determined not to review the ID. Accordingly, this investigation is terminated in its entirety.

The authority for the Commission's determination is contained in section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and in section 210.42 of the Commission's Rules of Practice and Procedure (19 CFR 210.42).

Issued: March 13, 2012.

By order of the Commission.

James R. Holbein,

Secretary to the Commission.

BILLING CODE 7020-02-P

DEPARTMENT OF JUSTICE

National Institute of Corrections

Solicitation for a Cooperative Agreement—Curriculum Development for MET, ECCP, and ICMS Training Project

AGENCY: National Institute of Corrections, U.S. Department of Justice.

ACTION: Solicitation for a cooperative agreement.

SUMMARY: The National Institute of Corrections (NIC) is soliciting proposals from organizations, groups, partnerships of organization and groups, or individuals to enter into a cooperative agreement for a 12-month project period to develop curricula, pilot them, and participate in the planning for the delivery of three closely related training programs. These training programs, together with other training components being developed separately, will ultimately be delivered at the beginning of 2013 as part of the training correctional staff and treatment providers will receive during the Second Chance Act/Demonstration Field Experiment (SCA/DFE). This project is a joint effort being carried out by the Bureau of Justice Assistance (BJA), the National Institute of Justice (NIJ), and NIC. To successfully integrate

the entire project, these three programs will be developed together and piloted during the first 6 months of this award. Also during this six-month period and for the remainder of the project, the awardee will participate in the planning for the delivery of each training component to staff and treatment providers at the DFE sites.

The three training curricula to be developed under this award are as follows:

Training #1

The first training to be developed will be Effective Core Correctional Practices (ECCP), which will be based on similar programs developed in recent years (such as STICS, EPICS, STARR and the like). This competency-based curriculum will be used to train line level staff using an integrated case management approach within a desistance framework in working with parolees.

Training #2

The second training will focus on the basics of Integrated Case Management and Supervision (ICMS), with an additional focus on supervision officers working with community service providers to coordinate and track services received by parolees.

Training #3

The third training will be on the use of Motivational Enhancement Therapy (MET) by treatment providers working with parolees. This revised MET curriculum will be an adaptation of the traditional MET's emphasis on substance abuse to include a broader focus on criminal thinking and behavior.

The SCA/DFE will be a multi-year effort and awardees under this solicitation will also be eligible to continue to participate in the project with additional funding to be awarded in 2013. Tasks under that future award will include training delivery, quality assurance, follow-up coaching, refresher training, monitoring the fidelity of the training, and other technical assistance to the SCA/DFE sites. Because the selection of the SCA/DFE sites is ongoing, the details of these tasks will be defined as part of the planning process which will in turn inform the future work.

DATES: Applications must be received by 4 p.m. EDT on Monday, April 23, 2012.

Submissions: Applicants are strongly encouraged to submit their proposals electronically via <http://www.grants.gov>. Applications may also be submitted to: Director, National
