A. What action is the agency taking?

Pursuant to 40 CFR 155.58(c), this notice announces the availability of EPA's final registration review decision for propetamphos, case no. 2550. Propetamphos is an organophosphate insecticide used for non-residential indoor crack and crevice treatment to control crawling insects, primarily, ants, cockroaches, and fleas. EPA has considered propetamphos in light of the FIFRA standard for registration. The Propetamphos Registration Final Review Decision document in the docket describes the Agency's rationale for issuing a registration review final decision for this pesticide.

In addition to the final registration review final decision document, the registration review docket for propetamphos also includes other relevant documents related to the registration review of this case. The proposed registration review decision was posted to the docket and the public was invited to submit any comments or new information. During the 60-day comment period, no public comments were received.
