

V. Quantitative Analysis of Economic Impacts of the MSGP

EPA has determined, in consideration of the discussion in section IV above, that the issuance of the MSGP potentially could affect a substantial number of small entities. Therefore, to determine what, if any, economic impact this permit may have on small businesses, EPA conducted an economic assessment of this general permit. Based on this assessment, EPA concludes that this permit will not have a significant economic impact on a substantial number of businesses, including small businesses. The estimated increased compliance cost per permittee ranges from a low of \$8.37 per year to a high of \$28.27 per year. All cost estimates are presented in 2005 dollars. As a percentage of annual sales, the expected incremental burden of these estimated costs is small. The cost-to-sales ratios are small across all MSGP sectors, with the largest impacts observed in Sectors I (0.003 percent) and P (0.003 percent).

These cost estimates reflect the incremental monitoring, documentation and reporting costs imposed by this permit, relative to the comparable costs for compliance with MSGP 2000. They do not include the costs of additional control measures that may be required as a result of more rigorous documentation and reporting requirements (e.g., for corrective action). EPA recognizes that these costs may be significant for some facilities, but believes that relatively few facilities will have significantly increased costs relative to MSGP 2000 because in most cases the underlying standards of control have not changed. EPA was unable to quantify these costs because EPA is not able to predict what site-specific additional control measures may be necessary in these limited cases.

Based on EPA's analysis, the Agency concludes that this permit will not result in a significant economic impact on a substantial number of small businesses. The factual basis for this conclusion is included in the economic analysis for the permit, available as part of the docket for this permit, and summarized above.

1. Authority: Clean Water Act, 33 U.S.C. 1251 *et seq.*

Enforcement and Fairness Act, was issued in November 2006 and is available on EPA's Web site: <http://www.epa.gov/sbrefa/documents/rfafinalguidance06.pdf>. After considering the Guidance and the purpose of CWA general permits, EPA concludes that general permits affecting less than 100 small entities do not have a significant economic impact on a substantial number of small entities.

Dated: September 17, 2008.

Robert W. Varney,

Regional Administrator, EPA Region 1.

2. Authority: Clean Water Act, 33 U.S.C. 1251 *et seq.*

Dated: September 17, 2008.

Carl-Axel P. Soderberg,

Division Director, Caribbean Environmental Protection Division, EPA Region 2.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-8722-6]

Science Advisory Board Staff Office; Notification of a Public Teleconference of the Homeland Security Advisory Committee

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA or Agency) Science Advisory Board (SAB) Staff Office announces a public teleconference for the Agency and its federal partners to brief the Homeland Security Advisory Committee (HSAC) on their progress in developing the *Environmental Response Technical Assistance Document for Bacillus anthracis Terrorism Incidents (ERTAD)*.

DATES: The public teleconference will be held on Wednesday, October 15, 2008, from 1 p.m. to 3 p.m. (Eastern time).

Location: The public teleconference will be conducted by telephone only.

FOR FURTHER INFORMATION CONTACT:

Members of the public who wish to obtain further information regarding this public teleconference meeting should contact Ms. Vivian Turner, Designated Federal Officer, by telephone: (202) 343-9697 or e-mail at turner.vivian@epa.gov. The SAB mailing address is U.S. EPA Science Advisory Board (1400F), U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20460. General information about the SAB as well as any updates concerning this request for nominations may be found on the SAB Web site at <http://www.epa.gov/sab>.

SUPPLEMENTARY INFORMATION: The SAB was established by 42 U.S.C. 4365 to provide independent scientific and technical advice to the EPA Administrator on the technical basis for Agency policies and regulations. The SAB is a Federal Advisory Committee chartered under the Federal Advisory Committee Act (FACA), as amended, 5 U.S.C., App. The SAB will comply with the provisions of FACA and all appropriate SAB Staff Office procedural policies. The SAB HSAC provides scientific and technical advice to the EPA Administrator through the chartered SAB on scientific matters pertaining to EPA's mission in protecting against the environmental and health consequences of terrorism.

EPA's Office of Solid Waste and Emergency Response (OSWER) is charged with preserving and restoring the land by using innovative waste management practices and cleaning up contaminated properties to reduce risks posed by harmful substances. EPA has a major role in reducing the risk to human health and the environment posed by accidental or intentional releases of harmful substances. For emergency preparedness, response and homeland security, EPA works closely with sixteen other federal agencies on the Federal Government National Response Team (NRT). The NRT has asked OSWER to request consultative advice from the SAB HSAC on the *Environmental Response Technical Assistance Document for Bacillus anthracis Terrorism Incidents (ERTAD)* (Formerly known as the *Draft Federal Inter-Agency Anthrax Technical Assistance Document (TAD)*). The TAD was initially an interim technical resource document developed in

response to the 2001 anthrax incidents (Draft Federal Inter-Agency Anthrax Technical Assistance Document). The NRT requested the Weapons of Mass Destruction (WMD) Subcommittee to the Science and Technology Committee to revise the TAD based on consultative advice from the SAB. In response to OSWER's request, the SAB Staff Office solicited public nominations (73 FR no 61, page 16679–80) of experts with specific experience in the microbiology of anthrax to augment the SAB Homeland Security Advisory Committee (HSAC), who will conduct the consultation. The purpose of the teleconference is for the NRT to brief the HSAC on the ERTAD.

Availability of Meeting Materials: EPA's background materials for this briefing will be posted on a link on the front page of National Response Team Web site at <http://www.nrt.org>—under the Hot Topics Section.

The EPA technical contact for the ERTAD is Captain Colleen F. Petullo, USPHS, detailed to EPA's Office of Solid Waste and Emergency Response. Captain Petullo may be contacted by telephone at (702) 784–8004 or via e-mail at petullo.colleen@epa.gov. The agenda and other briefing materials for the upcoming public meeting will be posted on the SAB Web site at <http://www.epa.gov/sab>.

Procedures for Providing Public Input: Interested members of the public may submit relevant written or oral information for the SAB Committee to consider on the topics under review.

Oral Statements: In general, individuals or groups requesting an oral presentation at a public conference call will be limited to three minutes per speaker, with no more than a total of one half hour for all speakers. Interested parties should contact Ms. Turner, DFO,

in writing (preferably via e-mail) at the contact information noted above, by October 10, 2008 to be placed on a list of public speakers for the meeting.

Written Statements: Written statements should be received in the SAB Staff Office by October 10, 2008 so that the information may be made available to the SAB Panel members for their consideration. Written statements should be supplied to the DFO in the following formats: one hard copy with original signature, and one electronic copy via e-mail (acceptable file format: Adobe Acrobat PDF, WordPerfect, MS Word, MS PowerPoint, or Rich Text files in IBM-PC/Windows 98/2000/XP format).

Accessibility: For information on access or services for individuals with disabilities, please contact Ms. Turner at the phone number or e-mail address noted above, preferably at least ten days prior to the meeting to give EPA as much time as possible to process your request.

Dated: September 24, 2008.

Vanessa T. Vu,

Director, EPA Science Advisory Board Staff Office.

Prevention of Significant Deterioration of Air Quality (PSD) Final Determinations in New Jersey, New York, Puerto Rico and the Virgin Islands

AGENCY: Environmental Protection Agency.

ACTION: Notice of final actions.

SUMMARY: The purpose of this notice is to announce that between December 1, 2004 and June 30, 2008, the Region 2 Office of the Environmental Protection Agency (EPA), issued 11 final determinations, the New Jersey Department of Environmental Protection (NJDEP) issued 2 final determinations and the New York State Department of Environmental Conservation (NYSDEC) issued 3 final determinations pursuant to the Prevention of Significant Deterioration of Air Quality (PSD) regulations codified at 40 CFR 52.21.

DATES: The effective dates for the above determinations are delineated in the chart at the end of this notice (see **SUPPLEMENTARY INFORMATION**).

FOR FURTHER INFORMATION CONTACT: Mr. Frank Jon, Environmental Engineer of the Permitting Section, Air Programs Branch, Division of Environmental Planning and Protection, Environmental Protection Agency, Region 2 Office, 290 Broadway, 25th Floor, New York, NY 10007–1866, at (212) 637–4085.

SUPPLEMENTARY INFORMATION: Pursuant to the PSD regulations, the Region 2 Office of the USEPA, the NJDEP, and the NYSDEC have made final PSD determinations relative to the facilities listed below:

Name	Location	Project	Agency	Final action	Date
Ecoelectrica, L.P.	Peñuelas, Puerto Rico.	Revision of existing PSD permit to include an updated ammonia slip monitoring method, some requirements related to auxiliary diesel generators, New Source Performance Standards (NSPS) related monitoring changes and a change affecting the timeline for reporting violations. These changes did not result in any increase in emissions or cause any adverse air quality impacts.	EPA ...	PSD Administrative Amendment.	February 11, 2005.
Amerada Hess Corp.	Port Reading, New Jersey.	Modifications to increase Fluid Catalytic Cracking Unit capacity by 4% from 62,500 barrels/day to 65,000 barrels/day. Additionally, Hess proposed a number of other projects and changes to provide for this increase in capacity and improve efficiency of operation and product quality.	NJDEP	PSD Permit Revision.	March 1, 2005.
