

Need and Use of Information Collection: The OPEN Workforce Tracker database will gather and store information on neuroscience research trainees who have received NINDS support. The NINDS OPEN will use this information to analyze diversity-targeted career development program outcomes, to make improvements to these programs, and to build and foster a user-friendly community that will allow NINDS to communicate information and opportunities to current and former awardees, including those from groups that may be underrepresented and underserved within federal programs and awards. The OPEN Workforce Tracker will help NINDS collect structured information that is specific to the requirements of NINDS programs and that reflects

outcome metrics used to assess program effectiveness. This information includes career stage, position, publications, degrees, and information related to NIH funding and external funding received, as well as protected class identifiers (race and ethnicity, sexual identification, gender, and disability) important for understanding program participation and outcomes across diverse groups.

The tracker follows minimization principles: it only collects relevant and necessary information to accomplish the purposes of program evaluation and communication, and it will interface with and pull in relevant information from existing NIH database systems database systems to minimize reporting burden. The database grants NINDS awardees the right to access their data

held by NINDS and the ability to copy and correct any information errors. The information collection is consistent with NINDS’s mission and mandate to conduct and support training in neuroscience (Public Health Service Act, 42 U.S.C. 285(j)). Also, this database aligns with the NIH-wide strategic plan to advance diversity, equity, inclusion, and accessibility (DEIA) through research and support analyses to identify and remove potential barriers to the implementation and expansion of promising and effective DEIA practices, policies, and procedures (Objective 3).

OMB approval is requested for 3 years. There are no costs to respondents other than their time. The total estimated annualized burden hours are 167.

ESTIMATED ANNUALIZED BURDEN HOURS

Form name	Type of respondent	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total annual burden hour
Trainee database	Individuals (“trainees”)	500	1	20/60	167
Total	500	167

Dated: January 10, 2024.

Submission for OMB Review; 30-Day Comment Request; National Institute on Drug Abuse Adolescent Brain & Cognitive Development (ABCD) StudySM—Audience Feedback Teams

AGENCY: National Institutes of Health, HHS.
ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995, the National Institutes of Health (NIH) has submitted to the Office of Management and Budget (OMB) a request for review and approval of the information collection listed below.

DATES: Comments regarding this information collection are best assured of having their full effect if received within 30-days of the date of this publication.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the data collection plans and instruments, contact: Dr. Kimberly LeBlanc, Scientific Program Manager, Division of Extramural Research, National Institute on Drug Abuse, C/O NIH Mail Center/Dock 11, 3WFN Room 09C77, MSC 6021, Gaithersburg, MD 20877 (20892 for USPS), or call non-toll-free number (301) 827–4102, or Email your request, including your address, to: kimberly.leblanc@nih.gov.

SUPPLEMENTARY INFORMATION: This proposed information collection was previously published in the **Federal Register** on October 2, 2023, page 67775–67776 (88 FR 67775) and allowed 60 days for public comment. No public comments were received. The purpose of this notice is to allow an additional 30 days for public comment. The National Institute on Drug Abuse (NIDA), National Institutes of Health,

may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number.

In compliance with section 3507(a)(1)(D) of the Paperwork Reduction Act of 1995, the National Institutes of Health (NIH) has submitted to the Office of Management and Budget (OMB) a request for review and approval of the information collection listed below.

Proposed Collection: Adolescent Brain & Cognitive Development (ABCD) StudySM—Audience Feedback Teams, 0925—NEW, exp., date XX/XX/XXXX, National Institute on Drug Abuse (NIDA), National Institutes of Health (NIH).

Need and Use of Information Collection: The purpose of this information collection request is to solicit audience feedback to improve the data collection process for the Adolescent Brain Cognitive Development (ABCD) Study. Started in 2015, the ABCD Study[®] follows a cohort of over 10,000 young people from pre-adolescence into adulthood to understand how growing brains are shaped by experiences and biology. To prepare for each year’s Study data

collection, the National Institute of Health is collecting audience feedback on a selection of survey questions and research protocols. Parents/caregivers and teens who are the same age as the study cohort members but who are not Study participants will review proposed questions and give feedback on questions' clarity and acceptability. Recommendations from these findings help the ABCD Study team improve

their protocol for a more-successful data collection.

Audience feedback activities will include a mix of asynchronous and scheduled, live data collection: web-based survey activities, virtual discussion boards, individual interviews, and discussions groups. Assembling a cohort of audience feedback participants who are familiar with the ABCD Study and participate in

multiple data collection activities minimizes the burden required to familiarize new participants with the purpose of the Study and the expectations for audience feedback.

OMB approval is requested for 3 years. There are no costs to respondents other than their time. The total estimated annualized burden hours are 172.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondent	Number of respondents	Number of responses per respondent	Average time per response (in hours)	Total annual burden hour
Individuals (Parent/Caregiver Phone Screener)	72	1	5/60	6
Individuals (Parent/Caregiver Consent)	15	1	5/60	1
Individuals (Parent/Caregiver Permission for Teen Participation)	36	1	5/60	3
Individuals (Teen Phone Screener)	72	1	5/60	6
Individuals (Teen Assent or Consent)	36	1	10/60	6
Individuals (Teen Web Survey)	36	2	30/60	36
Individuals (Parent/Caregiver Web Survey)	15	2	30/60	15
Individuals (Teen Virtual Group Discussion or Online Bulletin Board)	36	2	1	72
Individuals (Parent/Caregiver Virtual Interview)	15	1	30/60	8
Individuals (Parent/Caregiver Online Bulletin Board)	15	1	1	15
Individuals (Parent/Caregiver "At-Home" Materials Review)	15	1	15/60	4
Total	450	172

National Institute of Allergy and Infectious Diseases; Notice of Closed Meetings

Pursuant to section 1009 of the Federal Advisory Committee Act, as amended, notice is hereby given of the following meetings.

The meetings will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C., as amended. The contract proposals and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the contract proposals, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: National Institute of Allergy and Infectious Diseases Special Emphasis Panel; HHS-NIH-CDC-SBIR PHS 2024-1 Phase I: Novel Diagnostic Biomarker Discovery and Validation for Malaria and

Select Neglected Tropical Diseases (NTDs) (Topic 132).

Date: February 15, 2024.

Time: 9:00 a.m. to 5:00 p.m.

Agenda: To review and evaluate contract proposals.

Place: National Institute of Allergy and Infectious Diseases, National Institutes of Health, 5601 Fishers Lane, Room 3G13A, Rockville, MD 20892 (Virtual Meeting).

Contact Person: Mairi Noverr, Ph.D., Scientific Review Officer, Scientific Review Program, Division of Extramural Activities, National Institute of Allergy and Infectious Diseases, National Institutes of Health, 5601 Fishers Lane, Room 3G13A, Rockville, MD 20852, (240) 747-7530, mairi.noverr@nih.gov.

Name of Committee: National Institute of Allergy and Infectious Diseases Special Emphasis Panel; Small Business Innovation Research (SBIR) Phase II Program Contract Solicitation (PHS 2022-1) Topic 108—Development of Rapid POC Diagnostics for *Treponema pallidum* (N01).

Date: February 16, 2024.

Time: 9:00 a.m. to 5:00 p.m.

Agenda: To review and evaluate contract proposals.

Place: National Institute of Allergy and Infectious Diseases, National Institutes of Health, 5601 Fishers Lane, Room 3G13A, Rockville, MD 20892 (Virtual Meeting).

Contact Person: Mairi Noverr, Ph.D., Scientific Review Officer, Scientific Review Program, Division of Extramural Activities, National Institute of Allergy and Infectious Diseases, National Institutes of Health, 5601 Fishers Lane, Room 3G13A, Rockville, MD 20852, (240) 747-7530, mairi.noverr@nih.gov.
