Medicare Program; Prospective Payment System and Consolidated Billing for Skilled Nursing Facilities; Correction

AGENCY: Centers for Medicare & Medicaid Services (CMS), HHS.

ACTION: Correction of final rule.

SUMMARY: This document corrects technical errors that appeared in the final rule published in the **Federal Register** on August 4, 2003, entitled

“Medicare Program; Prospective Payment System and Consolidated Billing for Skilled Nursing Facilities.”

EFFECTIVE DATE: This correction is effective October 1, 2003.

FOR FURTHER INFORMATION CONTACT: Jeanette Kranacs, (410) 786–9385, or Sheila Lambowitz, (410) 786–7605.

SUPPLEMENTARY INFORMATION:

I. Background

In FR Doc. 03–19677 of August 4, 2003 (68 FR 46036), there were a number of technical errors that are identified and corrected in the “Correction of Errors” section below. The provisions in this correction document are effective as if they had been included in the document published August 4, 2003. Accordingly, the corrections are effective October 1, 2003.

In previous years, we have issued correction notices with respect to payment rates under the prospective payment system (PPS) for skilled nursing facilities (SNFs), reflecting minor adjustments to the hospital wage index relating to specific Metropolitan

Statistical Areas (MSAs). For example, for fiscal year (FY) 2003, we issued a correction notice (December 27, 2002, 67 FR 79123) to update two MSA wage indexes. We did not recalculate the SNF budget neutrality factor as a result of these minor revisions.

However, it was recently determined that computational errors in the hospital wage index calculation process for FY 2004 were of sufficient magnitude to affect all of the published PPS payment rates for inpatient hospital services. A description of those computational errors will be included in a notice specific to the hospital inpatient PPS. As we explained in the August 4, 2003 final rule, the SNF wage index values reflect the wage data used in the FY 2004 inpatient hospital PPS rates, and therefore, we believe it would be appropriate to incorporate corrections to the inpatient hospital wage index. The scope of the resulting corrections to the hospital wage index will, in turn, necessitate revising the budget neutrality factor for the SNF PPS for FY 2004 as well. We note that correcting these computational errors is a purely

administrative function that does not result in any change of policy or payment methodology.

Accordingly, in this correction document, we are republishing the SNF PPS payment rate tables (that is, Tables 1 through 9, inclusive) that appeared in the August 4, 2003 final rule, in order to show the corrected rates. (We note that we are not republishing Table 10 (FY 2004 Labor-Related Share (68 FR 46057)), as this table solely involves the relative importance of the various components of the labor-related share, and those figures have not changed from those that appeared in the final rule.) Further, we are republishing Table 11, which displays the projected impact of the FY 2004 SNF PPS payment update, including the variation in impact by region and by certain other facility characteristics. We note that the effect of the corrections being made in this notice is solely distributional in nature and, accordingly, that there is no change in the estimated aggregate expenditures for FY 2004 as set forth in the August 4, 2003 final rule. A further discussion of the projected impact of the FY 2004

SNF PPS payment update can be found in the August 4, 2003 final rule (68 FR 46067). In addition, the FY 2004 budget neutrality factor of 1.005 that appeared in the final rule (68 FR 46047) is hereby revised to 1.0016.

Finally, in the August 4, 2003 final rule (68 FR 46060), we added two radiopharmaceuticals, Zevalin and Bexxar, to the list of chemotherapy drugs that are excluded from consolidated billing (and, thus, are separately billable to Part B when furnished to a SNF resident during a covered Part A stay). We note that Healthcare Common Procedure Coding System (HCPCS) coding for Bexxar is currently in the process of being developed. Further, while the final rule identified HCPCS codes A9522 and A9523 for Zevalin, we note that the outpatient hospital PPS currently uses HCPCS codes G0273 and G0274 for Zevalin instead, and that further revision of these particular codes is possible in the near future. As we stated in the final rule, the consolidated billing exclusions will appear in a Consolidated Billing Annual Update

Program Memorandum that we will issue at the end of CY 2003, and will be effective as of January 1, 2004 (68 FR 46059). Accordingly, we are clarifying as an interpretive matter that the HCPCS codes to be utilized in connection with Bexxar and Zevalin include any successor codes that may replace the codes currently listed in the regulation. Such successor codes would be disseminated through program instructions. Once HCPCS coding has been developed for Bexxar (and has been definitively established for Zevalin), we will make revisions, as appropriate, to the particular codes that appear in the regulations text at § 411.15(p)(2)(xii) and § 489.20(s)(12).

II. Correction of Errors

III. Waiver of Proposed Rulemaking and Delayed Effective Date

We ordinarily publish a notice of proposed rulemaking in the **Federal Register** to provide a period for public comment before the provisions of a notice take effect. We can waive this procedure, however, if we find good cause that notice-and-comment procedure is impracticable, unnecessary, or contrary to the public interest and incorporate a statement of the finding and the reasons for it into the notice issued. We can also waive the 30-day delayed effective date of the Administrative Procedure Act (5 U.S.C. 553(d)) when there is good cause to do so and we publish in the rule an explanation of our good cause.

We find it unnecessary to undertake notice-and-comment rulemaking because this notice merely provides technical corrections to the regulations. We are not changing our payment methodology, but rather, are simply implementing correctly the payment methodology that we previously proposed, received comment on, and subsequently finalized. Thus, because the public has already had the opportunity to comment on the payment methodology being used to calculate wage indexes, additional comment would be unnecessary.

Further, it would be impracticable at this point in time either to solicit additional comments or to delay the effective date of these changes beyond October 1, 2003. The Social Security Act, in subparagraphs (G) and (H) of section 1888(e)(4), requires the updated SNF PPS rates to be in place at the beginning of each Federal fiscal year. Since the fiscal year begins on October 1, 2003, it is imperative that we ensure that the correct rates are in place and effective by October 1, 2003, and it would not have been possible to publish a notice and receive comments on it in the brief period of time between discovering our error and the October 1, 2003 effective date for the updated SNF PPS rates.

Finally, we believe that engaging in notice and comment prior to making these corrections or delaying the effective date beyond October 1, 2003 would be contrary to the public interest. As a matter of good public policy, the rates used in the SNF PPS should not be based on wage indexes that we now know were miscalculated. The public interest is served by ensuring that the rates used in the SNF PPS are correct and that such rates are in effect for the entire fiscal year. Thus, it would be contrary to the public interest to delay implementing such corrected rates in

order either to engage in notice-and-comment rulemaking or to provide for a 30-day delay in the effective date. Therefore, we find good cause to waive notice-and-comment procedures, as well as the 30-day delay in effective date.
