Submission for OMB Review; Improving Customer Experience (OMB Circular A–11, Section 280 Implementation)

AGENCY: General Services Administration (GSA).

ACTION: Notice; request for comment.

SUMMARY: The General Services Administration (GSA) has under OMB review the following proposed Information Collection Request “Improving Customer Experience (OMB Circular A–11, Section 280 Implementation)” for approval under the Paperwork Reduction Act (PRA).

DATES: Submit comments on or before May 7, 2025.

ADDRESSES: Written comments and recommendations for this information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under Review—Open for Public Comments” or by using the search function.

SUPPLEMENTARY INFORMATION:**A. Purpose**

Title: Improving Customer Experience (OMB Circular A–11, Section 280 Implementation).

Abstract: Under the Government Service Delivery Improvement (GSDI) Act¹ and the 21st Century Integrated Digital Experience Act,² along with OMB guidance, agencies are obligated to continually improve the services they provide the public and to collect

qualitative and quantitative data from the public to do so.

The purpose of this request is to facilitate the General Service Administration’s (hereafter “the Agency’s”) ability to collect feedback from the public to continue to improve its services, thereby facilitating its compliance with statutory requirements and general principles of good governance. GSA will only submit collections if they meet the following criteria.

- The collections are voluntary;
- The collections are low-burden for respondents (based on considerations of total burden hours or burden-hours per respondent) and are low-cost for both the respondents and the Federal Government;
- The collections are non-controversial;
- Any collection is targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the near future;
- Personally identifiable information (PII) is collected only to the extent necessary and is not retained;
- Information gathered is intended to be used for general service improvement and program management purposes
- The agency will follow the procedures specified in any relevant OMB guidance for the required reporting to OMB of data from surveys.
- Outside of the reporting mentioned in the bullet immediately above, if the Agency intends to release journey maps, user personas, reports, or other data-related summaries stemming from this collection, the Agency must include appropriate caveats around those summaries, noting that conclusions should not be generalized beyond the sample, considering the sample size and response rates. The Agency must submit the data summary itself (e.g., the report) and the caveat language mentioned above to OMB before it releases them outside the Agency. OMB will engage in a pass back process with the agency.

Type of Review: Renewal of an existing collection.

Affected Public: Individuals and Households, Businesses and Organizations, State, Local or Tribal Government.

B. Annual Reporting Burden

Estimated Number of Respondents: Below is an estimate of the aggregate burden hours for this new collection.

SUPPLEMENTARY INFORMATION:

A. Purpose

The AIA Program actively seeks to commission works from American artists for public buildings. The GSA Form 7437, Art in Architecture Program National Artist Registry, will be used to collect information from artists across the country to participate and to be considered for commissions.

The AIA Program is the result of a policy decision made in January 1963 by GSA Administrator Bernard L. Boudin, who served on the Ad Hoc Committee on Federal Office Space in 1961–1962.

The program has been modified over the years, most recently in 2022, to align with Executive Order (E.O.) 14029 issued on May 14, 2021 “Revocation of Certain Presidential Actions and Technical Amendment,” and to support E.O. 13985 issued January 2021, titled “Advancing Racial Equity and Support for Underserved Communities Through the Federal Government. E.O. 14029 revoked E.O. 13934 issued July 3, 2020, *Building and Rebuilding Monuments to American Heroes*. E.O. 14189 of January 29, 2025 “Celebrating America’s 250th Birthday, revoked E.O. 14129 and reinstates E.O. 13934. As mandated by

E.O. 13934, the AIA program must prioritize the commissioning of artworks that portray historically significant Americans or events of American historical significance, or that illustrate the ideals upon which the Nation was founded. Priority is to be given to public-facing monuments to former Presidents of the United States, and to individuals and events relating to the discovery of America, the founding of the United States, and the abolition of slavery. Such works of art are to be designed to be appreciated by the general public and by those who use and interact with Federal buildings. When an artwork commissioned by GSA is meant to depict a historically significant American, the artwork is required to be a lifelike or realistic representation of that person, not an abstract or modernist representation.

With the implementation of the 2025 policy, the AIA program seeks to commission works from the American artists that “portray historically significant Americans or events of American historical significance or illustrate the ideals upon which our nation was founded.” In support of the AIA program’s goal to commission the most talented contemporary American artists to create works for the nation’s important new civic buildings, it is necessary to identify those artists. The National Artist Registry (Registry) offers the opportunity for artists across the country to participate and to be considered for commissions.
