

security, resulting from a suspected or confirmed breach.

G. To another agency or agent of a Government jurisdiction within or under the control of the U.S., lawfully engaged in national security or homeland defense when disclosure is undertaken for intelligence, counterintelligence activities (as defined by 50 U.S.C. 3003(3)), counterterrorism, homeland security, or related law enforcement purposes, as authorized by U.S. law or Executive Order.

H. To SBA contractors, grantees, volunteers, interns, and experts who have been engaged by SBA to assist in the performance and performance improvement of a servicerelevant to this system of records and who need access to the records to perform this activity. Recipients of these records shall be required to comply with the requirements of the Privacy Act of 1974, as amended, 5 U.S.C. Sec. 552a.

Policies and Practices for Storage of Records: Information is stored electronically and is protected through the implementation of multi-factor access controls, user permissions, event logging, and monitoring. External media are further protected using encryption.

Policies and Practices for Retrieval of Records: Records are retrieved by name of individual, business name, and Unique Entity Identifier (UEI).

Policies and Practices for Retention and Disposal of Records: Records are maintained in accordance with latest edition SBA Standard Operating Procedure (SOP) series 00 41, schedules Records Management Records 4.1 and Agency Accountability Records 5.7. Records maintained as part of the General Records Schedules (GRS) are disposed of in accordance with applicable SBA policies.

Administrative, Technical, and Physical Safeguards: Access and use are limited to persons with official need to know. Users are evaluated on a recurring basis to ensure need-to-know still exists. Safeguards are implemented in accordance with the Federal Information Security Modernization Act of 2014 (FISMA) and are evaluated on a recurring basis to ensure desired operation.

Record Access Procedures: Individuals wishing to request access to records about them should submit a Privacy Act request to the SBA Chief, Freedom of Information and Privacy Act Office, U.S. Small Business Administration, 409 Third St. SW, Eighth Floor, Washington, DC 20416 or FOIA@sba.gov. Individuals must provide their full name, mailing address, personal email address, telephone number, and a detailed

description of the records being requested. Individuals requesting access must also follow SBA's Privacy Act regulations regarding verification of identity and access to records (13 CFR part 102 subpart B).

Contesting Record Procedures: Individuals wishing to contest information contained in records about them should submit a Privacy Act request to the SBA Chief, Freedom of Information and Privacy Act Office, U.S. Small Business Administration, 409 Third St. SW, Eighth Floor, Washington, DC 20416 or FOIA@sba.gov. Individuals must provide their full name, mailing address, personal email address, telephone number, and a detailed description of the records being requested. Requesting individuals must follow SBA's Privacy Act regulations regarding verification of identity and access to records (13 CFR part 102 subpart B).

Notification Procedures: Individuals may make record inquiries in person or in writing to the Systems Manager through the SBA Chief, Freedom of Information and Privacy Act Office, U.S. Small Business Administration, 409 Third St. SW, Eighth Floor, Washington, DC 20416 or FOIA@sba.gov.

Exemptions Promulgated for the System: None.

History: [FR Doc. 2004–54823, Vol. 69, No. 175]; and [FR Doc. 2021–07363, Vol. 86, No. 68]

Federal Aviation Administration

[Docket No. FAA–2022–0828]

Agency Information Collection Activities: Requests for Comments; Clearance of Renewed Approval of Information Collection: Small Unmanned Aircraft Registration System

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request the Office of Management and Budget (OMB) approval to renew an information

collection. The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on June 22, 2022. Aircraft registration is necessary to ensure personal accountability among all users of the National Airspace System (NAS). Aircraft registration also allows the FAA and law enforcement agencies to address non-compliance by providing the means for identifying an aircraft's owner and operator. This collection also permits individuals to de-register or update their record in the registration database.

DATES: Written comments should be submitted by February 16, 2023.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT:

Bonnie Lefko by email at: Bonnie.Lefko@FAA.gov; phone: 405–954–7461.

SUPPLEMENTARY INFORMATION:

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA's performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information.

OMB Control Number: 2120–0765.

Title: Small Unmanned Aircraft Registration System.

Form Numbers: None.

Type of Review: Renewal of an information collection.

Background: The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on June 22, 2022 (87 FR 37373). The Secretary of the Department of Transportation (DOT) and the Administrator of the Federal Aviation Administration (FAA) affirmed that all unmanned aircraft, including model aircraft, are aircraft. As such, in accordance with 49 U.S.C. 44101(a) and as further prescribed in 14 CFR part 48, registration is required prior to operation. See 80 FR 63912, 63913 (October 22, 2015). Registration allows the FAA to provide respondents with educational materials regarding safety of

flight in the NAS to promote greater accountability and responsibility of these new users. Registration also allows the FAA and law enforcement agencies to address non-compliance by providing the means for identifying an aircraft's owner and operator.

Subject to certain exceptions discussed below, aircraft must be registered prior to operation. See 49 U.S.C. 44101–44103. Upon registration, the Administrator must issue a certificate of registration to the aircraft owner. See 49 U.S.C. 44103.

Registration, however, does not provide the authority to operate. Persons intending to operate a small unmanned aircraft must operate in accordance with the exception for limited recreational operations (49 U.S.C. 44809), part 107 or part 91, in accordance with a waiver issued under part 107, in accordance with an exemption issued under 14 CFR part 11 (including those persons operating under an exemption issued pursuant to 49 U.S.C. 44807), or in conjunction with the issuance of a special airworthiness certificate, and are required to register.

Respondents: 283,761 registrants and 21,910 de-registrants based on CY 2021 data.

Frequency: Information is collected on occasion.

Estimated Average Burden per Response: 6 minutes per response to register and 3 minutes per response to de-register.

Estimated Total Annual Burden: Approximately 28,376 hours to register and 1,096 to de-register.

Issued in Oklahoma City, OK on January 11, 2023.

Bonnie Lefko,

Program Analyst, FAA, Civil Aviation Registry, AFB-700.

BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Approval of Teterboro Airport (TEB) Noise Compatibility Program

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of approval of the Teterboro Airport (TEB) noise compatibility program.

SUMMARY: The Federal Aviation Administration (FAA) announces its findings for the noise compatibility program submitted by LGA, see supplementary information for details. On June 15, 2017, the FAA determined

that the noise exposure maps submitted by TEB were in compliance with applicable requirements. On July 15, 2022, the FAA determined that the noise compatibility program submitted by TEB would be initiating final review for approval or disapproval. On January 10, 2023, the FAA approved the TEB noise compatibility program. The noise compatibility program contained 33 recommended measures, including 16 noise abatement measures, four land use measures, and 13 program management measures. Of the measures proposed, 23 were approved, four were approved as voluntary, three were disapproved, and three were determined to have no FAA action as continuations of existing mandatory practices at TEB. Six of the 16 noise abatement procedures proposed at LGA are related to new or revised flight procedures.

DATES: The effective date of the FAA's approval of the LGA noise compatibility program is January 10, 2023.

FOR FURTHER INFORMATION CONTACT:

Andrew Brooks, Regional Environmental Program Manager, Airports Division, Federal Aviation Administration, 1 Aviation Plaza, Room 516, Jamaica, NY 11434. Phone Number: 718-553-2511.

SUPPLEMENTARY INFORMATION: This notice announces FAA's approval of the noise compatibility program (NCP) for TEB, effective on January 10, 2023. Per United States Code section 47504 (49 U.S.C. 47504) and Title 14, Code of Federal Regulations (CFR) part 150, an airport sponsor who previously submitted a noise exposure map (NEM) may submit to the FAA a noise compatibility program which sets forth the measures taken or proposed by the airport sponsor for the reduction of existing non-compatible land uses and prevention of additional non-compatible land uses within the area covered by the NEMs. As required by 49 U.S.C. 47504, such programs must be developed in consultation with interested and affected parties including local communities, government agencies, airport users, and the FAA. The FAA does not substitute its judgment for that of the airport sponsor with respect to which measures should be recommended for action. The FAA approval or disapproval of an airports recommendations in their noise compatibility program are made in accordance with the requirements and standards pursuant to 49 U.S.C. 47504 and 14 CFR part 150, which is limited to the following determinations:

a. The noise compatibility program was developed in accordance with the

provisions and procedures of 14 CFR 150.23;

b. Program measures are reasonably consistent with achieving the goals of reducing existing non-compatible land uses around the airport and preventing the introduction of additional non-compatible land uses;

c. Program measures would not create an undue burden on interstate or foreign commerce, unjustly discriminate against types or classes of aeronautical uses, violate the terms of airport grant agreements, or intrude into areas preempted by the Federal Government; and

d. Program measures relating to the use of flight procedures can be implemented within the period covered by the program without derogating safety, adversely affecting the efficient use and management of the navigable airspace and air traffic control systems, or adversely affecting other powers and responsibilities of the Administrator prescribed by law.

Specific limitations of FAA's approval of NCPs are delineated in 14 CFR 150.5. Approval is not a determination concerning the acceptability of land uses under Federal, state, or local law. Approval does not by itself constitute an FAA implementing action. A request for Federal action or approval to implement specific noise compatibility measures may be required, and an FAA decision on the request may require an environmental assessment of the proposed action. Approval does not constitute a commitment by the FAA to financially assist in the implementation of the noise compatibility program nor a determination that all measures covered by the NCP are eligible for grant-in-aid funding from the FAA. Where federal funding is sought, requests must be submitted to the FAA New York Airports District Office at 1 Aviation Plaza, Room 111, Jamaica, New York 11434.

TEB submitted the noise exposure maps, descriptions, and other documentation produced during the noise compatibility planning study to the FAA and the FAA determined that the NEMs for TEB were in compliance with applicable requirements under 14 CFR 150, effective June 15, 2017 (Noise Exposure Map Notice for Teterboro Airport, Teterboro, New Jersey, volume 82, **Federal Register**, pages 28545–6, June 22, 2017). The FAA formally received the NCP based on the accepted NEMs for TEB on July 7, 2022. The airport operator requested that the FAA review the submitted material and that the noise mitigation measures, to be implemented jointly by the airport and surrounding communities, be approved
