

(SEFSC) [Bonnie Ponwith: Responsible Party], 75 Virginia Beach Drive, Miami, FL 33149, has applied in due form for a permit to take green (*Chelonia mydas*), hawksbill (*Eretmochelys imbricata*), loggerhead (*Caretta caretta*), Kemp's ridley (*Lepidochelys kempii*), olive ridley (*Lepidochelys olivacea*), leatherback (*Dermochelys coriacea*), and unidentified hardshell sea turtles for purposes of scientific research.

DATES: Written, telefaxed, or e-mail comments must be received on or before February 25, 2011.

ADDRESSES: The application and related documents are available for review by selecting "Records Open for Public Comment" from the *Features* box on the Applications and Permits for Protected Species (APPS) home page, <https://apps.nmfs.noaa.gov>, and then selecting File No. 15552 from the list of available applications.

These documents are also available upon written request or by appointment in the following offices:

Permits, Conservation and Education Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301) 713-2289; fax (301) 713-0376; and Southeast Region, NMFS, 263 13th Avenue South, Saint Petersburg, Florida 33701; phone (727) 824-5312; fax (727) 824-5309.

Written comments on this application should be submitted to the Chief, Permits, Conservation and Education Division, at the address listed above. Comments may also be submitted by facsimile to (301) 713-0376, or by e-mail to NMFS.Pr1Comments@noaa.gov. Please include the File No. in the subject line of the email comment.

Those individuals requesting a public hearing should submit a written request to the Chief, Permits, Conservation and Education Division at the address listed above. The request should set forth the specific reasons why a hearing on this application would be appropriate.

FOR FURTHER INFORMATION CONTACT: Colette Cairns or Amy Hapeman, (301) 713-2289.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR 222-226).

The proposed research would allow the applicant to monitor the take of green, loggerhead, hawksbill, leatherback, Kemp's ridley, olive ridley, and unidentified hardshell sea turtles by observed commercial fisheries and

collect data to estimate bycatch and its effects on sea turtle sub-populations. Annually, up to 94 green, 731 loggerhead, 163 Kemp's ridley, 76 hawksbill, 255 leatherback, and 120 olive ridley/unknown hardshell sea turtles would be handled, identified, photographed, measured, weighed, flipper and passive integrated transponder tagged, temporarily marked, skin biopsied, and released. The permit would authorize SEFSC certified observers to collect data on juvenile, sub-adult, and adult sea turtles incidentally captured in commercial fisheries in the Gulf of Mexico and the East coast of the United States. These efforts would aid in the development and refinement of management efforts to recover these species. The sampling would be conducted year-round for five years from the date of issuance of the permit.

Dated: January 21, 2011.

P. Michael Payne,

Chief, Permits, Conservation and Education Division, Office of Protected Resources, National Marine Fisheries Service.

RIN 0648-XA158

Gulf of Mexico Fishery Management Council (Council); Public Meetings; Correction

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of addendum to a meeting notice.

SUMMARY: The Gulf of Mexico Fishery Management Council will convene public meetings. Additional items have been added to the agenda. See **SUPPLEMENTARY INFORMATION.**

DATES: The meetings will be held February 7-10, 2011.

ADDRESSES: The meetings will be held at the Courtyard Marriott, 1600 E. Beach Blvd, Gulfport, MS 39501.

Council address: Gulf of Mexico Fishery Management Council, 2203 North Lois Avenue, Suite 1100, Tampa, FL 33607.

FOR FURTHER INFORMATION CONTACT: Dr. Stephen Bortone, Executive Director, Gulf of Mexico Fishery Management Council; telephone: (813) 348-1630.

SUPPLEMENTARY INFORMATION: The original notice published in the **Federal Register** on January 20, 2011 (76 FR 3616). The agenda for the days that the additional items occur is being republished. All other information that was previously published remains unchanged.

Council

Wednesday, February 9, 2011

4 p.m.-6 p.m.—The Council will receive public testimony on exempted fishing permits (EFPs), if any; Final Action on the Greater Amberjack Regulatory amendment; and hold an open public comment period regarding any fishery issue of concern. People wishing to speak before the Council should complete a public comment card prior to the comment period.

Committees

Tuesday, February 8, 2010

10 a.m.-12 noon & 1:30 p.m.-5:30 p.m.—The Reef Fish Management Committee will receive an update of the 2010 red snapper landings and status of the regulatory amendment; review the mutton snapper and goliath grouper benchmark assessments; review the re-run of the gag update assessment; review the goliath grouper assessment; discuss the impact of observed discard estimates on the red grouper stock assessment; review an options paper for a red snapper regulatory amendment to adjust the fall closing date and allow for weekend openings; receive a report on the Limited Access Privilege Program Advisory Panel meeting; discuss the individual fishing quota finance program; review the Greater Amberjack Regulatory Amendment for final action; and review an individual fishing quota discussion paper.

Although other non-emergency issues not on the agendas may come before the Council and Committees for discussion, in accordance with the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), those issues may not be the subject of formal action during these meetings. Actions of the Council and Committees will be restricted to those issues specifically identified in the agendas and any issues arising after publication of this notice that require emergency action under Section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take action to address the emergency. The established times for addressing items on the agenda may be adjusted as necessary to accommodate the timely completion of discussion relevant to the agenda items. In order to

further allow for such adjustments and completion of all items on the agenda, the meeting may be extended from, or completed prior to the date/time established in this notice.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Trish Kennedy at the Council (*see ADDRESSES*) at least 5 working days prior to the meeting.

Dated: January 20, 2011.

Tracey L. Thompson,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

RIN 0648-XA040

Taking and Importing Marine Mammals; U.S. Navy's Atlantic Fleet Active Sonar Training

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of issuance of a Letter of Authorization; request for comments on Integrated Comprehensive Management Program Plan.

SUMMARY: In accordance with the Marine Mammal Protection Act (MMPA), as amended, and implementing regulations, notice is hereby given that NMFS has issued a letter of authorization (LOA) to the U.S. Navy (Navy) to take marine mammals incidental to Navy training, maintenance, and research, development, testing, and evaluation (RDT&E) activities to be conducted within the Atlantic Fleet Active Sonar Training (AFAST) Study Area for the period of January 22, 2011, through January 21, 2012. NMFS also provides notice that the Integrated Comprehensive Management Program (ICMP) Plan, which is intended for use as a planning tool to focus Navy monitoring priorities pursuant to the MMPA and Endangered Species Act (ESA), has been updated for 2010. NMFS encourages the public to review this document and provide comments, information, and suggestions on the ICMP Plan.

DATES: This authorization is effective from January 22, 2011, through January

21, 2012. Comments and information on the ICMP Plan must be received no later than February 28, 2011.

ADDRESSES: The LOA and supporting documentation may be obtained by writing to P. Michael Payne, Office of Protected Resources, NMFS, 1315 East-West Highway, Silver Spring, MD 20910, or by telephoning one of the contacts listed here. The mailbox address for providing e-mail comments on the ICMP Plan is ITP.Hopper@noaa.gov. Comments sent via e-mail, including all attachments, must not exceed a 10-megabyte file size.

FOR FURTHER INFORMATION CONTACT: Jolie Harrison or Brian D. Hopper, Office of Protected Resources, NMFS, (301) 713-2289.

SUPPLEMENTARY INFORMATION: Section 101(a)(5)(A) of the MMPA (16 U.S.C. 1361 *et seq.*) directs NMFS to allow, upon request, the incidental taking of marine mammals by U.S. citizens who engage in a specified activity (other than commercial fishing), if certain findings are made by NMFS and regulations are issued. Under the MMPA, the term "take" means to harass, hunt, capture, or kill or to attempt to harass, hunt, capture, or kill marine mammals.

Regulations governing the taking of marine mammals by the Navy incidental to AFAST training, maintenance, and RDT&E became effective on January 22, 2009 (74 FR 4844, January 27, 2009), and remain in effect through January 22, 2014. The AFAST study area extends east from the Atlantic Coast of the U.S. to 45° W. long. and south from the Atlantic and Gulf of Mexico Coasts to approximately 23° N. lat., but not encompassing the Bahamas (*see* Figure 1-1 in the Navy's Application). For detailed information on this action, please refer to the January 2009 final rule. These regulations include mitigation, monitoring, and reporting requirements and establish a framework to authorize incidental take through the issuance of LOAs.

Summary of Request

On August 31, 2010, NMFS received a request from the Navy for a renewal of an LOA issued on January 22, 2010, for the taking of marine mammals incidental to training and research activities conducted within the AFAST Study Area under regulations issued on January 22, 2009 (74 FR 4844, January 27, 2009). The Navy has complied with the measures required in 50 CFR 216.244 and 216.245, as well as the associated 2010 LOA, and submitted the reports and other documentation required in the final rule and the 2010 LOA.

Summary of Activity Under the 2010 LOA

As described in the Navy's exercise reports (both classified and unclassified), in 2010, the training activities conducted by the Navy were within the scope and amounts authorized by the 2010 LOA and the levels of take remain within the scope and amounts contemplated by the final rule. The Navy conducted eight major anti-submarine warfare strike group training exercises in 2010, including one Integrated Anti-Submarine Warfare Course (IAC II), one Joint Task Force Exercise (JTFEX), three Composite Training Unit Exercises (COMPTUEX), and three Southeastern Anti-Submarine Warfare Integrated Training Initiative exercises (SEASWITI).

Planned Activities and Estimated Take for 2011

In 2011, the Navy expects to conduct the same type and amount of training identified in the 2010 LOA. Therefore, for 2011, NMFS authorizes the same amount of take that was authorized in 2010.

Summary of Monitoring, Reporting, and Other Requirements Under the 2010 LOA

Annual Exercise Reports

The Navy submitted their classified and unclassified 2010 exercise reports within the required timeframes and the unclassified report is posted on NMFS' Web site: <http://www.nmfs.noaa.gov/pr/permits/incidental.htm>. NMFS has reviewed both reports and they contain the information required by the 2010 LOA. The reports indicate the amounts of different types of training that occurred from August 2, 2009, through August 1, 2010. As mentioned above, the Navy conducted 8 major anti-submarine warfare training exercises addressed in the rule (the rule analyzed the likely impacts from 39 coordinated unit level training exercises and 7 strike group training exercises).

The reports also list specific information gathered when marine mammals were detected by Navy watchstanders, such as how far an animal was from the vessel, whether sonar was in use, and whether it was powered or shut down. This information indicates that the Navy implemented the safety zone mitigation measures as required. No instances of obvious behavioral disturbance were reported by the Navy watchstanders in their 64 marine mammal sightings totaling 329 animals. Furthermore, safety zones were adhered to, and vessels and aircraft applied mitigation
