B. Need and Uses

This clearance covers the information that offerors must submit to comply with the following Federal Acquisition Regulation (FAR) requirement:

- FAR 52.237–10, Identification of Uncompensated Overtime. This provision requires offerors, when professional or technical services are acquired on the basis of the number of hours to be provided, to identify uncompensated overtime hours in excess of 40 hours per week, whether at the prime or subcontract level. This includes uncompensated overtime hours that are in indirect cost pools for personnel whose regular hours are normally charged direct.

The contracting officer will use the collected information to perform an adequate cost realism analysis of the offerors' proposed labor rates. Proposals which include unrealistically low labor rates, or which do not otherwise demonstrate cost realism, will be considered by the contracting officer in a risk assessment and evaluated appropriately. The primary purpose for obtaining the information and using it during the source selection process is to discourage the use of uncompensated overtime.

C. Annual Burden

Respondents: 19,738.

Total Annual Responses: 19,738.

Total Burden Hours: 9,869.

B. Need and Uses

This clearance covers the information that a contractor must submit to comply with the following Federal Acquisition Regulation (FAR) requirements:

1. FAR 31.205–46(a)(3)—In special or unusual situations, costs incurred by a contractor for lodging, meals, and incidental expenses, may exceed the per diem rates in effect as set forth in the Federal Travel Regulation (FTR) for travel in the contiguous 48 United States. The actual costs may be allowed only if the contractor provides the following:

a. FAR 31.205–46(a)(3)(ii)—A written justification for use of the higher amounts approved by an officer of the contractor's organization or designee to ensure that the authority is properly administered and controlled to prevent abuse.

b. FAR 31.205–46(a)(3)(iii)—Advance approval from the contracting officer if it becomes necessary to exercise the authority to use the higher actual expense method repetitively or on a continuing basis in a particular area.

c. FAR 31.205–46(a)(3)(iv)—Documentation to support actual costs incurred including a receipt for each expenditure of \$75.00 or more.

2. FAR 31.205–46(c) requires firms to maintain and make available manifest/logs for all flights on company aircraft. As a minimum, the manifest/log must indicate:

a. Date, time, and points of departure;
b. Destination, date, and time of arrival;

c. Name of each passenger and relationship to the contractor

d. Authorization for trip; and

e. Purpose of trip.

The information required by (2)(a) and (b) and the name of each passenger (required by (2)(c)) are recordkeeping requirements already established by Federal Aviation Administration regulations. This information, plus the additional required information, is needed to ensure that costs of owned, chartered, or leased aircraft are properly charged against Government contracts and that directly associated costs of

unallowable activities are not charged to Government contracts.

The contracting officer will use the information to ensure that the Government does not reimburse contractors for excessive travel costs. Also, the information is used by Government auditors to identify allowable and unallowable costs under Government contracts.

C. Annual Burden

Respondents/Recordkeepers: 3,743.

Total Annual Responses: 33,202.

Total Burden Hours: 11,472. (7,848 reporting hours + 3,624 recordkeeping hours).

B. Need and Uses

DoD, GSA, and NASA are combining OMB Control Nos. for the Federal Acquisition Regulation (FAR) by FAR part. This consolidation is expected to improve industry's ability to easily and efficiently identify burdens associated with a given FAR part. The review of the information collections by FAR part allows improved oversight to ensure there is no redundant or unaccounted for burden placed on industry. Lastly, combining information collections in a given FAR part is also expected to reduce the administrative burden associated with processing multiple information collections.

This justification supports the revision of the expiration date of OMB Control No. 9000–0198 and combines it with the previously approved information collections under OMB Control Nos. 9000–0083 and 9000–0193, with the new title “Certain Federal Acquisition Regulation Part 9 Requirements”. Upon approval of this
