Thermalito Afterbay Hydro, LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions to Intervene, and Competing Applications

June 16, 2010.

On May 21, 2010, Thermalito Afterbay Hydro, LLC filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act, proposing to study the feasibility of the Thermalito Afterbay Small Hydroelectric Project, located at the California Department of Resources' Thermalito afterbay dam on the Feather River, in Butte County, California. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following:

(1) A total of 5 to 6 generation sets installed at Thermalito afterbay dam and Thermalito afterbay outlet, with a total capacity of about 10 megawatts; (2) a switchyard and about 5 miles of 69 kilovolt (kV) transmission line to connect to PG&E's existing 69-kV transmission line at Thermalito pumping-generating plant; (3) a maintenance crane installed on top of each dam; and (4) a control station within 300 feet of the Thermalito

afterbay dam. The proposed project would have a total average annual generation of 57 gigawatt-hours.
