Approval and Promulgation of Air Quality Implementation Plans; Maryland; Adoption of Control Techniques Guidelines for Flat Wood Paneling Coatings**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Proposed rule.

SUMMARY: EPA proposes to approve the State Implementation Plan (SIP) revision submitted by the State of Maryland. This SIP revision includes amendments to Maryland's regulation for Volatile Organic Compounds from Specific Processes, and meets the requirement to adopt Reasonably Available Control Technology (RACT) for sources covered by EPA's Control Techniques Guidelines (CTG) for flat wood paneling coatings. These amendments will reduce emissions of volatile organic compound (VOC) from flat wood coating facilities. In the Final Rules section of this **Federal Register**, EPA is approving the State's SIP submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this action, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time.

Approval and Promulgation of Air Quality Implementation Plan; New Jersey and New York; Disapproval of Interstate Transport State Implementation Plan Revision for the 2006 24-Hour PM_{2.5} NAAQS

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: Pursuant to our authority under the Clean Air Act (CAA), EPA is proposing to disapprove the New Jersey and the New York State Implementation Plan (SIP) revisions submitted to address significant contribution to nonattainment or interference with

maintenance in another State with respect to the 2006 24-hour fine particle (PM_{2.5}) national ambient air quality standards (NAAQS). On January 20, 2010, New Jersey submitted a SIP revision to address section 110(a)(2)(D)(i) of the CAA concerning interstate transport requirements, and sections 110(a)(1) and (2) of the CAA concerning infrastructure requirements. On March 23, 2010, New York submitted a SIP revision to address the section 110(a)(2)(D)(i) of the CAA concerning interstate transport, and sections 110(a)(1) and (2) of the CAA concerning infrastructure SIP requirements. In this action, EPA is proposing to disapprove the portion of the New Jersey and the New York SIP revisions that addresses the section 110(a)(2)(D)(i)(I) requirement prohibiting a State's emissions from significantly contributing to nonattainment or interfering with maintenance of the NAAQS in any other State. The rationale for the disapproval action of the SIP revision is described in this proposal.
