ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:

Access to the restricted portions of the database system requires certain levels of authorization through USDA eAuthentication, which is a system that enables individuals to obtain user-identification accounts with password-protected access to certain USDA Web-based applications and services through the internet. APHIS personnel who input data must have a high-level eAuthentication account. Persons who apply for a license, registration, or permit or are licensed, registered or permitted pursuant to the AWA have a

lower level eAuthentication account and will only have access to their own records to input certain information. These individuals can also apply for, pay, or check the status of their applications, and their license, registration, or permit status. HIOs and persons qualified to detect and diagnose a horse that is sore or otherwise inspect horses for purposes of enforcing the HPA will only have access to input certain information in their own records, such as but not limited to information entered in the system by HIOs regarding disciplinary actions taken and information on sore horses that were disqualified or prohibited by management from participating in shows, exhibitions, sales, or auctions. The general public will have read-only access to system generated reports through APHIS' website and will require eAuthentication.

RECORD ACCESS PROCEDURES:

An individual who is the subject of a record in this system may seek access to those records that are not exempt from the access provisions. Exemptions apply only to the extent that the information in the system is subject to exemption pursuant to 5 U.S.C. 552a(k)(2), if applicable. SUPPLEMENTARY INFORMATION:

Description of Information Collection
Title: Application for Payment of Amounts Due Persons Who Have Died, Disappeared, or Have Been Declared Incompetent.

OMB Number: 0560–0226.

OMB Expiration Date of Approval: 02/29/2020.

Type of Request: Extension.

Abstract: Persons desiring to claim payments earned, but not yet paid to a person who has died, disappeared, or has been declared incompetent must complete form FSA–325, Application for Payment of Amounts Due Persons Who Have Died, Disappeared, or Have Been Declared Incompetent. This information required by form FSA–325 is used by FSA county office employees to document the relationship of heirs, beneficiaries, or others who claim that a payment was earned, but not yet paid to the person who died, disappeared, or who has been declared incompetent, and to determine the share and order of precedence for disbursing payments to such persons.

Information is obtained only when a person claims that they are due a payment that was earned, but not paid to a producer that has died, disappeared, or has been declared incompetent, and documentation is needed to determine if any individuals are entitled to receive such payments or disbursements.

The burden hours decreased by 2,000 hours since the last OMB approval. The reason for the decrease is due to the removal of travel times from the request. The respondents may submit applications by mail and many respondents go to the county offices to do regular and customary business with FSA for other FSA programs and can complete and submit the form FSA–325 during this time; this means no travel time is required specifically for the information collection and therefore, it is no longer included in the burden hour reporting.

For the following estimated total annual burden on respondents, the formula used to calculate the total burden hour is the estimated average time per responses multiplied by the estimated total annual responses.

Estimate of Annual Burden: Public reporting burden for this collection of information is estimated to average 0.50 hours per response.

Type of Respondents: Producers.

Estimated Number of Respondents: 2,000.

Estimated Annual Number of Responses per Respondent: 1.

Estimated Total Annual of Responses: 2,000.

Estimated Average Time per Responses: 0.50 hours.

Estimated Total Annual Burden on Respondents: 1,000.

We are requesting comments on all aspects of this information collection to help us to:

- (1) Evaluate whether the collection of information is necessary for the proper performance of the functions of FSA, including whether the information will have practical utility;

- (2) Evaluate the accuracy of FSA's estimate of burden including the validity of the methodology and assumptions used;

- (3) Enhance the quality, utility, and clarity of the information to be collected;

- (4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All responses to this notice, including names and addresses when provided,

will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Robert Stephenson.

Executive Vice President, Commodity Credit Corporation.

Administrator, Farm Service Agency.
