Total Annual Burden: 3,475 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality:

Pursuant to section 0.457(g) of the Commission's rules, the information in the CALEA system security filings and petitions will not be made routinely available for public inspection. Section 107(c) and 109(b) filings are entitled to confidential treatment under the Freedom of Information Act (FOIA). The Commission has directed respondents to file their petitions under a general claim of confidential or proprietary protection, subject only to scrutiny by the Commission and the Attorney General who is consulted in section 107(c) adjudications and is a party to all section 109(b) adjudications.

Needs and Uses: The Commission will submit this expiring information collection (IC) to the OMB during this comment period. The Commission is seeking OMB approval for a revision to this existing IC. The Commission is reporting a decrease of 2,800 total annual burden hours for this IC. The decrease is due to removal of a recordkeeping burden estimate associated in 47 CFR 1.20004. This estimate has been eliminated by 1,655 hours because the nature and extent of the requirement is usual and customary. Telecommunications carriers must keep such records to demonstrate that they are in compliance with Federal and State wiretapping laws and regulations that have existing for the past 40 years.

The Communications Assistance for Law Enforcement Act (CALEA) requires: (a) telecommunications carriers to protect against unlawful interception of communications of their facilities by establishing policies and procedures to ensure security and integrity of those facilities and to maintain records of all interceptions of unlawful electronic surveillance, and (b) the FCC to prescribe CALEA implementing rules and to review the carriers' filings under

section 301(b) and to order any deficiencies to be corrected. Information collections include mandatory system security filings, and voluntary extension of time and cost reimbursement petitions.

Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality:

In accordance with 47 CFR 4.2 of the Commission's rules, reports under Part 4 are presumed confidential.

Needs and Uses: The Commission will submit this expiring information collection (IC) to the OMB during this comment period. The Commission is seeking OMB approval for an extension (there are no changes to the reporting requirement). The Commission is reporting a significant increase of 10,100 total annual burden hours. This is due to a recalculation of our burden estimates and fewer respondents reporting information. The estimated number of respondents fluctuates because of the type of event to be reported and the location where it occurred.

In recognition of the critical need for rapid, full, and accurate information on service disruptions that could affect homeland security, public health and safety, as well as the economic well-being of our Nation, and in view of the increasing importance of non-wireline communications in the Nation's communications networks, and critical infrastructure, the Commission adopted rules requiring mandatory service disruptions reporting from all communications providers (cable, satellite, wireline and wireless) that provide voice and/or paging communications. As envisioned, the information collected pursuant to these rules has helped improve network reliability.

OMB Control Number: 3060–1139.

The 16 ISP partners participating in the study is estimated at 200 hours per respondent per partner for all participation activities.

Frequency of Response: Biennial reporting requirement and third party disclosure requirement.

personally identifying information. At point of registration, individuals will be given full disclosure in a "privacy statement" highlighting what information will be collected. ISP Partners will receive personally identifying information about volunteers to confirm the validity of the information against their subscription records, but will be bound by a non-disclosure agreement that will maintain various administrative, technical and physical safeguards to protect the information and limit its use. ISP Partners will provide support to the testing program will likewise be bound to the same series of administrative, technical and physical safeguards developed by SamKnows. In addition, all third parties supporting the program directly will be bound by a "Code of Conduct" to ensure that all participate and act in good faith.

Needs and Uses: The Commission will submit this expiring information collection (IC) to the OMB during this comment period. The Commission is requesting OMB approval for an extension (no change in the reporting and/or third party disclosure requirements).
