

Opportunity Rule (“Rule”). That clearance expires on January 31, 2021.

DATES: Comments must be submitted by January 19, 2021.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT: Christine M. Todaro, Attorney, Division of Marketing Practices, Bureau of Consumer Protection, Federal Trade Commission, 600 Pennsylvania Avenue NW, CC-8528, Washington, DC 20580, (202) 326-3711.

SUPPLEMENTARY INFORMATION: *Title of Collection:* Disclosure Requirements Concerning Business Opportunities, 16 CFR part 437.

OMB Control Number: 3084-0142.

Type of Review: Extension without change of currently approved collection.

Affected Public: Private Sector: Businesses and other for-profit entities.

Abstract: The Business Opportunity Rule requires business opportunity sellers to furnish prospective purchasers a disclosure document that provides information regarding the seller, the seller’s business, and the nature of the proposed business opportunity, as well as additional information to substantiate any claims about actual or potential sales, income, or profits for a prospective business opportunity purchaser. The seller must also preserve information that forms a reasonable basis for such claims. The Rule is designed to ensure that prospective purchasers receive information to help them evaluate business opportunities. Sellers must disclose five key items of information in a simple, one-page document: (1) The seller’s identifying information; (2) whether the seller makes a claim about the purchaser’s likely earnings (and, if yes, the seller must provide information supporting any such claims); (3) whether the seller, its affiliates, or key personnel have been involved in certain legal actions (and, if yes, the seller must provide a separate list of those actions); (4) whether the seller has a cancellation or refund policy (and, if yes, the seller must provide a separate document stating the material terms of such policies); and (5) a list of persons who have purchased the business opportunity within the previous three years. Misrepresentations and omissions are prohibited under the Rule, and for sales conducted in

languages other than English, all disclosures must be provided in the language in which the sale is conducted.

Estimated Annual Burden Hours: 10,065.

Estimated Annual Labor Costs: \$703,141.

Estimated Annual Non-Labor Costs: \$3,057,203.¹

Request for Comment

On July 28, 2020, the Commission sought comment on the information collection requirements associated with the Privacy Rule. 85 FR 45427 (July 28, 2020). No relevant comments were received. Pursuant to the OMB regulations, 5 CFR part 1320, the FTC is providing this second opportunity for public comment while seeking OMB approval to renew clearance for the Rule’s information collection requirements.

Your comment—including your name and your state—will be placed on the public record of this proceeding. Because your comment will be made public, you are solely responsible for making sure that your comment does not include any sensitive personal information, like anyone’s Social Security number, date of birth, driver’s license number or other state identification number or foreign country equivalent, passport number, financial account number, or credit or debit card number. You are also solely responsible for making sure that your comment does not include any sensitive health information, like medical records or other individually identifiable health information. In addition, do not include any “[t]rade secret or any commercial or financial information which is . . . privileged or confidential” as provided in Section 6(f) of the FTC Act 15 U.S.C. 46(f), and FTC Rule 4.10(a)(2), 16CFR 4.10(a)(2). In particular, do not include competitively sensitive information such as costs, sales statistics, inventories, formulas, patterns devices, manufacturing processes, or customer names.

Josephine Liu,

Assistant General Counsel for Legal Counsel.

BILLING CODE 6750-01-P

¹ This number differs slightly from the annual non-labor cost estimate (\$3,056,503) published in the Commission’s July 28, 2020 **Federal Register** notice due to a transcription error relating to the number of entities marketing business opportunities in a language other than English.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[60Day-21–21AN; Docket No. CDC-2020-0115]

Proposed Data Collection Submitted for Public Comment and Recommendations

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice with comment period.

SUMMARY: The Centers for Disease Control and Prevention (CDC), as part of its continuing effort to reduce public burden and maximize the utility of government information, invites the general public and other Federal agencies the opportunity to comment on a proposed and/or continuing information collection, as required by the Paperwork Reduction Act of 1995. This notice invites comment on a proposed information collection project titled “Examining Safety and Health Among Aviation Industry Workers in Alaska: A Survey.” The goals of this survey are to collect information on injuries and illness; identify the perceived safety and health needs and concerns; develop safety guidance; and assist in generating hypotheses for future research on health and safety topics among Alaska aviation industry workers.

DATES: CDC must receive written comments on or before February 16, 2021.

ADDRESSES: You may submit comments, identified by Docket No. CDC-2021-0115 by any of the following methods:

- *Federal eRulemaking Portal:* [Regulations.gov](https://www.regulations.gov). Follow the instructions for submitting comments.

- *Mail:* Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road, NE, MS-D74, Atlanta, Georgia 30329.

Instructions: All submissions received must include the agency name and Docket Number. CDC will post, without change, all relevant comments to [Regulations.gov](https://www.regulations.gov).

Please note: Submit all comments through the Federal eRulemaking portal ([regulations.gov](https://www.regulations.gov)) or by U.S. mail to the address listed above.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the information collection plan and instruments, contact Jeffrey M. Zirger,

Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS-D74, Atlanta, Georgia 30329; phone: 404-639-7570; Email: omb@cdc.gov.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501–3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. In addition, the PRA also requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each new proposed collection, each proposed extension of existing collection of information, and each reinstatement of previously approved information collection before submitting the collection to the OMB for approval. To comply with this requirement, we are publishing this notice of a proposed data collection as described below.

The OMB is particularly interested in comments that will help:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
3. Enhance the quality, utility, and clarity of the information to be collected; and
4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submissions of responses.
5. Assess information collection costs.

Proposed Project

Examining Safety and Health Among Aviation Industry Workers in Alaska: A

Survey—New—National Institute for Occupational Safety and Health (NIOSH), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The mission of the National Institute for Occupational Safety and Health (NIOSH) is to promote safety and health at work for all people through research and prevention. The Occupational Safety and Health Act, 91 (section 20[a] [1]), authorizes NIOSH to conduct research to advance the health and safety of workers.

The Alaska Department of Labor and Workforce Development received over 320,000 reports of occupational injury or illness which cost more than \$3 billion in workers' compensation benefits from 2000–2013. Maintenance technicians and ramp/baggage/cargo/dock agents made up the largest number of claims from the aviation industry. Among these workers, the most frequently observed injury event was overexertion/bodily reaction, which most often led to sprains, strains, and tears.

NIOSH is proposing to update findings from a NIOSH-funded survey conducted in Alaska during 2001–2002 on attitudes and practices of pilots and aviation operators. This project is part of a larger National Occupational Research Agenda project “Improving Safety in the Commercial Aviation Industry in Alaska” which includes a survey of aviation workers in Alaska using workers' compensation claims data to guide the selection of employee groups to target for survey participation.

The goals of this study are (1) To better understand work practices and the work environment where injuries occur in the aviation industry, (2) To identify and quantify the characteristics, attitudes, practices, and observations of workers to determine potential risk factors, and (3) To provide a snapshot of workers' perceived safety and health needs and concerns. The results of the study will be used to develop denominators for each occupation; identify statistically significant

correlations between attitudes, behaviors, company policies, and accident rates; guide the development of prioritized evidence-based interventions and safety solutions for these workers and potentially other workers with similar tasks and in similar environments; and generate hypotheses for future research on health and safety topics in the aviation industry.

NIOSH has contracted with the University of Alaska Anchorage's Institute of Social and Economic Research (ISER) to develop and conduct the surveys. ISER conducted the previous survey of Alaska operators and pilots in 2001 and 2002 and has extensive experience in survey research in Alaska. The statewide survey questionnaire will be administered to air taxi and commuter airline operators (including the subset of single-pilot operators), commercial pilots, ramp/baggage/cargo/dock agents, customer service agents, and maintenance technicians.

The questionnaire for operators requests the number of employed pilots, ramp/baggage/cargo/dock agents, customer service agents, and maintenance technicians. This second element in the sample design will allow for the determination of the number of employees in each occupational group needed to complete the survey. The operator questionnaire requests the number of employees in the four occupational groups—pilots, mechanics, customer service agents, and ramp/baggage/cargo/dock agents, and their names and contact information.

The burden table lists the estimated population size of 306 operators; 820 commercial pilots; 1,400 maintenance technicians; 1,100 ramp/baggage/cargo/dock agents; and 1,600 customer service agents based on data from the Alaska Department of Labor and Workforce Development (2016). The total burden for all surveys, is estimated to be 1,547 hours. CDC is requesting a one-year approval. There are no costs to respondents other than their time.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondents	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total burden (in hours)
Operators	Operator_Survey	306	1	25/60	128
Pilots	Pilot_Survey	820	1	25/60	342
Maintenance technicians	Maintenance Technician_Survey	1400	1	15/60	350
Ramp/baggage/cargo/dock agents ...	RBCD_Survey	1100	1	15/60	275
Customer Service Agents	CSA_Survey	1600	1	15/60	400
All non-respondents	Non-respondent Questionnaire	1045	1	3/50	52

ESTIMATED ANNUALIZED BURDEN HOURS—Continued

Type of respondents	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total burden (in hours)
Total	1,547

Jeffrey M. Zirger,

Lead, Information Collection Review Office,
Office of Scientific Integrity, Office of Science,
Centers for Disease Control and Prevention.

BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[60Day-21-21BG; Docket No. CDC-2020-0118]

Proposed Data Collection Submitted for Public Comment and Recommendations

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice with comment period.

SUMMARY: The Centers for Disease Control and Prevention (CDC), as part of its continuing effort to reduce public burden and maximize the utility of government information, invites the general public and other Federal agencies the opportunity to comment on a proposed and/or continuing information collection, as required by the Paperwork Reduction Act of 1995. This notice invites comment on a proposed information collection project titled the Prevention Research Centers (PRC) National Program Evaluation Reporting System (PERS). The purposes of the information collection system are to monitor progress on PRC program inputs, activities, outputs, and outcomes; support program management, evaluation, and improvement; facilitate internal and external reporting; and demonstrate accountability for Congressional funding. CDC has received and incorporated feedback from PRCs on the current version of PERS.

DATES: CDC must receive written comments on or before February 16, 2021.

ADDRESSES: You may submit comments, identified by Docket No. CDC-2020-0118 by any of the following methods:

- **Federal eRulemaking Portal:** *Regulations.gov*. Follow the instructions for submitting comments.

- **Mail:** Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS-D74, Atlanta, Georgia 30329.

Instructions: All submissions received must include the agency name and Docket Number. CDC will post, without change, all relevant comments to *Regulations.gov*.

Please note: Submit all comments through the Federal eRulemaking portal (*regulations.gov*) or by U.S. mail to the address listed above.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the information collection plan and instruments, contact Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS-D74, Atlanta, Georgia 30329; phone: 404-639-7118; Email: omb@cdc.gov.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. In addition, the PRA also requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each new proposed collection, each proposed extension of existing collection of information, and each reinstatement of previously approved information collection before submitting the collection to the OMB for approval. To comply with this requirement, we are publishing this notice of a proposed data collection as described below.

The OMB is particularly interested in comments that will help:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information,

including the validity of the methodology and assumptions used;

3. Enhance the quality, utility, and clarity of the information to be collected; and

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

5. Assess information collection costs.

Proposed Project

Prevention Research Centers National Program Evaluation Reporting System (PERS)—NEW—National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

In 1984, Congress passed Public Law 98-551 directing the Department of Health and Human Services (DHHS) to establish Centers for Research and Development of Health Promotion and

Disease Prevention. Beginning in 1986, the CDC received funding to lead the Prevention Research Centers (PRC) Program. Each PRC receives funding from the CDC to establish its core infrastructure and functions and conduct a core research project. Core research projects reflect each PRC's area of expertise and community needs. PRC core research projects align with the health disparities and goals outlined in Healthy People 2020 and Healthy People 2030. PRCs also have the opportunity to apply for additional competitive CDC funding to complete special interest projects (SIPs) to focus on a topic of interest or a gap in scientific evidence.

In 2018, the CDC published program announcement DP19-001 for the current PRC Program funding cycle (September 30, 2019—September 29, 2024). Twenty-six PRCs were selected through a competitive, external, peer-review process. The program is now in its second year of the current five-year funding cycle. Each PRC is housed within an accredited school of public health or an accredited school of
