Proposed Collection; Comment Request; Collection of Customer Service, Demographic, and Smoking/Tobacco Use Information From the National Cancer Institute's Cancer Information Service (CIS) Clients (NCI)

SUMMARY: In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, for opportunity for public comment on proposed data collection projects, the National Cancer Institute (NCI), the National Institutes of Health (NIH) will publish periodic summaries of proposed projects to be submitted to the Office of Management and Budget (OMB) for review and approval.

Proposed Collection: Title: Collection of Customer Service, Demographic, and Smoking/Tobacco Use Information from the National Cancer Institute's Cancer Information Service (CIS) Clients (NCI). **Type of Information Collection Request:** Revision of currently approved collection 0925–0208 (expiration 08/30/2012). **Need and Use of Information Collection:** The National Cancer Institute's Cancer Information Service (CIS) provides the latest information on cancer, clinical trials, and tobacco

cessation in English and Spanish. Clients are served by calling 1–800–4–CANCER for cancer information; 1–877–44U–QUIT for smoking cessations services; using the NCI's LiveHelp, a web-based chat service; using NCI's Contact Us page on *www.cancer.gov*; and using NCI's Facebook page. CIS currently conducts a brief survey of a sample of telephone and LiveHelp clients at the end of usual service—a survey that includes three customer service and twelve demographic questions (age, sex, race, ethnicity, education, household income, number in household, and five questions about health care/coverage). Characterizing clients and how they found out about the CIS is essential to customer service, program planning, and promotion. The NCI also conducts a survey of individuals using the CIS's smoking cessation services—a survey that includes 20 smoking/tobacco use “intake” questions that serve as a needs assessment that addresses smoking history, previous quit attempts, and motivations to quit smoking. An additional question is used with callers who want to receive proactive call-back services. Responses to these questions enable Information Specialists to provide effective individualized counseling. The NCI's CIS also responds to cancer-related inquiries to its Facebook page and its Contact Us form on *www.cancer.gov* but does not collect customer service or demographic questions on these access channels. **Frequency of Response:** Once. **Affected Public:** Individuals or households. **Type of Respondents:** People with cancer; their relatives and friends; and general public, including smokers/tobacco users. Annualized estimates for numbers of respondents and respondent burden are presented in Table 1.

TABLE 1—ESTIMATE OF ANNUAL BURDEN HOURS

Type of respondents	Survey instrument	Number of respondents	Frequency of responses	Average time per response (minutes/hour)	Annual burden hours
