### I. Introduction

The mission of DOE's Office of Environment, Health, Safety and Security (EHSS) is to provide organizational leadership and strategic approaches for protecting DOE's workers, the public, the environment and national security assets. This objective is accomplished through developing organizational policies and standards and providing guidance on their implementation; sharing operating experience, lessons learned, and best practices; and providing assistance and supporting services to line management with the goal of mission success as DOE's environment, health, safety and security advocate.

On February 10, 2022, DOE updated its organizational structure which changed certain titles and reporting duties within EHSS. Certain of the EHSS's functions are subject to regulations in title 10 of the Code of Federal Regulations (CFR). As a result of the changes, title 10 of the CFR contains references to DOE organizational names and positions that are no longer current. This final rule amends certain regulations in title 10 of the CFR to reflect new organizational names and titles.

Specifically, DOE has changed the title of the Associate Under Secretary for Environment, Health, Safety and Security to the Director of the Office of Environment, Health, Safety and Security and amendments have been made to 10 CFR parts 602, 710, 712, 835, 850, 851, 1016, 1045, and 1046 to reflect that change. In 10 CFR part 725, the reference to "Chief Health, Safety and Security Officer" has been changed to the "Director, Office of Environment, Health, Safety and Security". The

Director of EHSS now reports directly to the Deputy Secretary of Energy rather than a DOE Under Secretary. In addition, the reference in 10 CFR part 1017 to the "Office of Health, Safety and Security" has been changed to the "Office of Environment, Health, Safety and Security". This final rule also updates the routing symbols of DOE's Office of Environment, Health, Safety and Security from AU to EHSS.

References in 10 CFR part 710 to the Deputy Associate Under Secretary for Environment, Health, Safety and Security have been changed to the Deputy Director for Security, Office of Environment, Health, Safety and Security. A previous reorganization in the Office of Environment, Health, Safety and Security divided the position of the Deputy Associate Under Secretary for Environment, Health, Safety and Security into the Deputy Associate Under Secretary for Environment, Health and Safety and the Deputy Associate Under Secretary for Security. Accordingly, in recognition of that reorganization and the change in titles, references to the Deputy Associate Under Secretary for Environment, Health, Safety and Security in 10 CFR part 710 are being changed to the Deputy Director for Security, Office of Environment, Health, Safety and Security.

Changes are also being made in 10 CFR part 851 to avoid confusion between references to the Director of the Office of Environment, Health, Safety and Security and the Director of the Office of Enforcement, who has been, until now, referred to as "Director" in 10 CFR part 851.

In addition, in 10 CFR part 851 DOE is deleting references to subpart G of 10 CFR part 1003, Office of Hearings and Appeals Procedural Regulations, because part 1003 has been amended and the references to subpart G are no longer correct.

This final rule also updates the titles of two of its Under Secretaries. In 10 CFR part 851, a reference to the "Under Secretary for Science and Energy, or Under Secretary for Management and Performance" is being changed to the "Under Secretary for Science and Innovation, or Under Secretary for Infrastructure". In 10 CFR part 1046, a reference to the "Under Secretary for Science" is being changed to the "Under Secretary for Science and Innovation".

None of the regulatory amendments in this notice of final rule alter substantive rights or obligations under current law.

## II. Procedural Issues and Regulatory Review

### A. Review Under Executive Order 12866

This regulatory action has been determined not to be significant for purposes of Executive Order 12866, “Regulatory Planning and Review,” 58 FR 51735 (October 4, 1993). As a result, the Office of Information and Regulatory Affairs (OIRA) within the Office of Management and Budget (OMB) did not review this rule.

### B. Review Under the Regulatory Flexibility Act

The Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) requires preparation of an initial regulatory flexibility analysis for any rule that by law must be proposed for public comment, unless the agency certifies that the rule, if promulgated, will not have a significant economic impact on a substantial number of small entities. As required by Executive Order 13272, “Proper Consideration of Small Entities in Agency Rulemaking,” 67 FR 53461 (August 16, 2002), DOE published procedures and policies to ensure that the potential impacts of its draft rules on small entities are properly considered during the rulemaking process (68 FR 7990, February 19, 2003), and has made them available on the Office of General Counsel’s website: [www.energy.gov/gc/office-general-counsel](http://www.energy.gov/gc/office-general-counsel). Because there was no requirement to first publish this regulation for comment, as discussed above, no analysis is required for purposes of the Regulatory Flexibility Act.

### C. Review Under the Paperwork Reduction Act of 1995

This rule does not impose a collection of information requirement subject to review and approval by OMB under the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*).

### D. Review Under the National Environmental Policy Act of 1969

Pursuant to the National Environmental Policy Act of 1969 (NEPA), DOE has analyzed this proposed action in accordance with NEPA and DOE’s NEPA implementing regulations (10 CFR part 1021). DOE’s regulations include a categorical exclusion (CX) for rulemakings interpreting or amending an existing rule or regulation that does not change the environmental effect of the rule or regulation being amended. *See* 10 CFR

part 1021, subpart D, appendix A5. DOE has determined that this rule is covered under the CX found in DOE’s NEPA regulations at paragraph A.5 of appendix A to subpart D, 10 CFR part 1021, because it amends existing regulations without changing the environmental effect of the rules and meets the requirements for the application of a CX. *See* 10 CFR 1021.410. Therefore, DOE has determined that this final rule is not a major Federal action significantly affecting the quality of the human environment within the meaning of NEPA, and does not require an Environmental Assessment or an Environmental Impact Statement.

### E. Review Under Executive Order 12988

With respect to the review of existing regulations and the promulgation of new regulations, Section 3(a) of Executive Order 12988, “Civil Justice Reform,” 61 FR 4729 (February 7, 1996), imposes on Federal agencies the general duty to adhere to the following requirements: (1) eliminate drafting errors and ambiguity; (2) write regulations to minimize litigation; (3) provide a clear legal standard for affected conduct rather than a general standard; and (4) promote simplification and burden reduction. Section 3(b) of Executive Order 12988 specifically requires that executive agencies make every reasonable effort to ensure that the regulation: (1) clearly specifies the preemptive effect, if any; (2) clearly specifies any effect on existing Federal law or regulation; (3) provides a clear legal standard for affected conduct while promoting simplification and burden reduction; (4) specifies the retroactive effect, if any; (5) adequately defines key terms; (6) specifies whether administrative proceedings are to be required before parties may file suit in court and, if so, describes those proceedings and requires the exhaustion of administrative remedies; and (7) addresses other important issues affecting clarity and general draftsmanship under any guidelines issued by the Attorney General. Section 3(c) of Executive Order 12988 requires executive agencies to review regulations in light of applicable standards in section 3(a) and section 3(b) to determine whether they are met or it is unreasonable to meet one or more of them. DOE has completed the required review and determined that, to the extent permitted by law, this final rule meets the relevant standards of Executive Order 12988.

### F. Review Under Executive Order 13132

Executive Order 13132, “Federalism” (64 FR 43255 (August 4, 1999)), imposes certain requirements on agencies formulating and implementing policies or regulations that preempt State law or that have federalism implications. Agencies are required to examine the constitutional and statutory authority supporting any action that would limit the policymaking discretion of the States and carefully assess the necessity for such actions. The Executive order also requires agencies to have an accountable process to ensure meaningful and timely input by State and local officials in the development of regulatory policies that have federalism implications. On March 14, 2000, DOE published a statement of policy describing the intergovernmental consultation process it will follow in the development of such regulations. 65 FR 13735. DOE has examined this final rule and has determined that it would not preempt State law and would not have a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. No further action is required by Executive Order 13132.

### G. Review Under Executive Order 13175

Under Executive Order 13175 (65 FR 67249, November 6, 2000) on “Consultation and Coordination with Indian Tribal Governments,” DOE may not issue a discretionary rule that has “Tribal” implications and imposes substantial direct compliance costs on Indian Tribal governments. DOE has determined that the final rule will not have such effects and concluded that Executive Order 13175 does not apply to this final rule.

### H. Review Under the Unfunded Mandates Reform Act of 1995

Title II of the Unfunded Mandates Reform Act of 1995 (UMRA) (Pub. L. 104–4)) requires each Federal agency to prepare a written assessment of the effects of any Federal mandate in a proposed or final agency regulation that may result in the expenditure by State, Tribal, or local governments, on the aggregate, or by the private sector, of \$100 million in any one year (adjusted annually for inflation). For a regulatory action likely to result in a rule that may cause this expenditure, section 202 of UMRA requires a Federal agency to publish a written statement that estimates the resulting costs, benefits, and other effects on the national economy (2 U.S.C. 1532(a), (b)). The Act

also requires a Federal agency to develop an effective process to permit timely input by elected officials of State, Tribal, or local governments on a proposed “significant intergovernmental mandate,” and requires an agency plan for giving notice and opportunity to provide timely input to potentially affected small governments before establishing any requirements that might significantly or uniquely affect small governments. On March 18, 1997, DOE published a statement of policy on its process for intergovernmental consultation under UMRA. (62 FR 12820) (This policy is also available at: [www.energy.gov/gc/office-general-counsel](http://www.energy.gov/gc/office-general-counsel) under “Guidance & Opinions” (Rulemaking)). DOE examined this final rule according to UMRA and its statement of policy and has determined that the rule contains neither an intergovernmental mandate, nor a mandate that may result in the expenditure by State, local, and Tribal governments, in the aggregate, or by the private sector, of \$100 million or more in any year. Accordingly, no further assessment or analysis is required under UMRA.

#### *I. Review Under Executive Order 13211*

Executive Order 13211, “Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use,” 66 FR 28355 (May 22, 2001), requires Federal agencies to prepare and submit to the OMB a Statement of Energy Effects for any proposed significant energy action. A “significant energy action” is defined as any action by an agency that promulgated or is expected to lead to promulgation of a final rule, and that: (1)(i) is a significant regulatory action under Executive Order 12866, or any successor order; and (ii) is likely to have a significant adverse effect on the supply, distribution, or use of energy, or (2) is designated by the Administrator of OIRA as a significant energy action. For any proposed significant energy action, the agency must give a detailed statement of any adverse effects on energy supply, distribution, or use should the proposal be implemented, and of reasonable alternatives to the action and their expected benefits on energy supply, distribution, and use. DOE has concluded that this regulatory action will not have a significant adverse effect on the supply, distribution, or use of energy and is therefore not a significant energy action. Accordingly, DOE has not prepared a Statement of Energy Effects.

#### *J. Review Under the Treasury and General Government Appropriations Act, 1999*

Section 654 of the Treasury and General Government Appropriations Act, 1999 (Pub. L. 105–277), requires Federal agencies to issue a Family Policymaking Assessment for any proposed rule that may affect family well-being. The final rule will not have any impact on the autonomy or integrity of the family as an institution. Accordingly, DOE has concluded that it is not necessary to prepare a Family Policymaking Assessment.

#### *K. Review Under the Treasury and General Government Appropriations Act, 2001*

Section 515 of the Treasury and General Government Appropriations Act, 2001 (44 U.S.C. 3516 note) provides for Federal agencies to review most disseminations of information to the public under guidelines established by each agency pursuant to general guidelines issued by OMB. OMB’s guidelines were published at 67 FR 8452 (February 22, 2002), and DOE’s guidelines were published at 67 FR 62446 (October 7, 2002). Pursuant to OMB Memorandum M–19–15, Improving Implementation of the Information Quality Act (April 24, 2019), DOE published updated guidelines which are available at: [www.energy.gov/sites/prod/files/2019/12/f70/DOE%20Final%20Updated%20IQA%20Guidelines%20Dec%202019.pdf](http://www.energy.gov/sites/prod/files/2019/12/f70/DOE%20Final%20Updated%20IQA%20Guidelines%20Dec%202019.pdf).

DOE has reviewed this final rule under the OMB and DOE guidelines and has concluded that it is consistent with applicable policies in those guidelines.

#### *L. Administrative Procedure Act*

The regulatory amendments in this notice of final rulemaking reflecting changes related solely to internal agency organization, management or personnel, and as such, are not subject to the requirement for a general notice of proposed rulemaking under the Administrative Procedure Act (APA). (See 5 U.S.C. 553(a)(2)). There is no requirement under the APA or any other law that this rule be proposed for public comment. For these same reasons, DOE finds good cause to waive the 30-day delay in effective date provided for in 5 U.S.C. 553(d).

#### *M. Congressional Notification*

As required by 5 U.S.C. 801(a)(1)(A), DOE will submit to Congress a report regarding the issuance of this final rule prior to the effective date set forth at the outset of this rulemaking. The report will state it has been determined that

the rule is not a “major rule” as defined by 5 U.S.C. 804(2).
