b. New Enrollees Survey, VA Form 10-21034h(NR).

OMB Control Number: 2900-0609.

Type of Review: Revision of a currently approved collection.

Abstract: Pub. L. 104-262, The Veterans Health Care Eligibility Reform Act of 1996, mandated VA to implement eligibility reforms with an annual enrollment. VA must enroll veterans by specified priorities as far down the priorities as the available resources permit. There is no valid, recent information available in administrative databases on all enrollees' health status, income, and their reliance upon the VA system. The magnitude of changes each year in enrollees, their characteristics, and system policies make annual surveys necessary to capture this critical information for input into VHA's Health Care Services Demand Model. Data will be used to analyze the main reasons veterans enroll in the VA Health Care System and how long they waited for initial appointments.

An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.
