RIN 0648-XA010

Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of a public meeting.

SUMMARY: The Pacific Fishery Management Council's (Pacific Council) Tule Chinook Workgroup (TCW) will hold a meeting to review initial work products and revise future work plans relative to developing an abundance-based harvest management approach for Columbia River natural tule Chinook. This meeting of the TCW is open to the public.

DATES: The meeting will be held Thursday, December 9, 2010, from 9 a.m. to 4 p.m.

ADDRESSES: The meeting will be held at the Pacific Council Office, Large Conference Room, 7700 NE Ambassador Place, Suite 101, Portland, OR 97220-1384; telephone: (503) 820-2280.

FOR FURTHER INFORMATION CONTACT: Mr. Chuck Tracy, Salmon Management Staff Officer, Pacific Fishery Management Council; telephone: (503) 820-2280.

SUPPLEMENTARY INFORMATION: This meeting of the TCW will involve review of initial work products and refining future work plans. Eventually, TCW work products will be reviewed by the Council, and if approved, would be submitted to NMFS for possible consideration in the next Lower Columbia River tule biological opinion for ocean salmon seasons in 2012 and beyond, and distributed to State and Federal recovery planning processes. In the event a usable approach emerges from this process, the Council may consider a fishery management plan (FMP) amendment process beginning after November 2011 to adopt the approach as a formal conservation objective in the Salmon FMP.

Although non-emergency issues not contained in the meeting agenda may come before the TCW for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under Section 305(c) of the Magnuson-Stevens Fishery Conservation and

Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Ms. Carolyn Porter at (503) 820-2280 at least 5 days prior to the meeting date.

Dated: October 26, 2010.

Tracey L. Thompson,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE**National Institute of Standards and Technology****National Fire Protection Association (NFPA) Proposes To Revise Codes and Standards**

AGENCY: National Institute of Standards and Technology, Commerce.

ACTION: Notice.

SUMMARY: The National Fire Protection Association (NFPA) proposes to revise some of its safety codes and standards and requests proposals from the public to amend existing or begin the process of developing new NFPA safety codes and standards. The purpose of this request is to increase public participation in the system used by NFPA to develop its codes and standards. The publication of this notice of request for proposals by the National Institute of Standards and Technology (NIST) on behalf of NFPA is being undertaken as a public service; NIST does not necessarily endorse, approve, or recommend any of the standards referenced in the notice.

The NFPA process provides ample opportunity for public participation in the development of its codes and standards. All NFPA codes and standards are revised and updated every three to five years in Revision Cycles that begin twice each year and take approximately two years to complete. Each Revision Cycle proceeds according to a published schedule that includes final dates for all major events in the process. The code revision Process contains five basic steps that are followed for developing new documents as well as revising existing documents: Call for Proposals; Publishing the Report on Proposals (ROP); Call for Comments on the Committee's disposition of the Proposals and publication of these

Comments in the Report on Comments (ROC); the Association Technical Meeting at the NFPA Conference & Expo; and finally, the Standards Council Consideration and Issuance of documents.

Note: Anyone wishing to make Amending Motions on the Technical Committee Reports (ROP and ROC) must signal his or her intention by submitting a Notice of Intent to Make a Motion by the Deadline stated in the ROC. Certified motions will then be posted on the NFPA Web site. Documents that receive notice of proper Amending Motions (Certified Amending Motions) will be presented for action at the annual June Association Technical Meeting. Documents that receive no motions will be forwarded directly to the Standards Council for action on issuance.

For more information on these new rules and for up-to-date information on schedules and deadlines for processing NFPA Documents, check the NFPA Web site at <http://www.nfpa.org>, or contact NFPA Codes and Standards Administration.

DATES: Interested persons may submit proposals on or before the dates listed with the standards.

ADDRESSES: Amy Beasley Cronin, Secretary, Standards Council, NFPA, 1 Batterymarch Park, Quincy, Massachusetts 02169-7471.

FOR FURTHER INFORMATION CONTACT: Amy Beasley Cronin, Secretary, Standards Council, at above address, (617) 770-3000.

SUPPLEMENTARY INFORMATION:**Background**

The National Fire Protection Association (NFPA) develops building, fire, and electrical safety codes and standards. Federal agencies frequently use these codes and standards as the basis for developing Federal regulations concerning safety. Often, the Office of the Federal Register approves the incorporation by reference of these standards under 5 U.S.C. 552(a) and 1 CFR Part 51.

When a Technical Committee begins the development of a new or revised NFPA code or standard, it enters one of two Revision Cycles available each year. The Revision Cycle begins with the Call for Proposals, that is, a public notice asking for any interested persons to submit specific written proposals for developing or revising a code or standard. The Call for Proposals is published in a variety of publications. Interested parties have approximately twenty weeks to respond to the Call for Proposals.

Following the Call for Proposals period, the Technical Committee holds
