As part of our commitment to ensuring the effectiveness of the Integrated Licensing Process (ILP), Federal Energy Regulatory Commission (FERC) is undertaking a second effectiveness evaluation. To facilitate this review, FERC has contracted with Kearns & West to conduct the 2010 ILP Effectiveness Evaluation. This effort includes conducting interviews and teleconferences with a cross-section of stakeholders, four regional workshops, and a multi-stakeholder effectiveness technical conference in Washington, DC. We invite stakeholders to provide lessons learned from their experience as a participant in the ILP.

Interviews and Teleconferences

Over the next few weeks, members of Kearns & West will be conducting phone interviews with a number of representatives of agencies, tribes, non-governmental organizations, licensees, Commission staff, and others involved in the above-identified hydropower licensing proceedings. Applicants in these proceedings have completed the pre-filing efforts and filed license applications using the ILP. Other participants in these or other ILP proceedings are encouraged to share their thoughts at the workshops and technical conference. Following the completion of the interviews, three teleconferences by sectors (*i.e.* applicants, resource agencies and tribes, and non-governmental organizations) will be held between July 19 and July 30, 2010.

Regional Effectiveness Workshops

Commission staff will hold four regional workshops on the ILP in September 2010. The purpose of the regional workshops is to seek further feedback on experiences in the ILP and to explore ideas to better implement the

ILP. Because of ex parte concerns, discussions will be limited to process rather than the merits of any proceeding before the Commission.

FERC is exploring hosting the Regional Effectiveness Workshops in the following locations: New York, California, Virginia or North Carolina, and Washington State.

The workshops are open to the public and all interested parties are invited to attend and participate. Meeting details and logistics will be noticed and posted on the Commission's Web page and calendar (<http://www.ferc.gov/>).

Multi-Stakeholder ILP Effectiveness Technical Conference

A one-day, multi-stakeholder technical conference will be held on Wednesday, November 3, 2010, from 11 a.m. (EST) to 3 p.m., in the Commission Meeting Room at the Federal Energy Regulatory Commission, 888 First Street, NW., Washington, DC. The technical conference will focus on gathering information to evaluate the effectiveness of the ILP and refining ideas to better implement the ILP. The technical conference is open to the public and all interested parties are invited to attend and participate.

We are exploring opportunities for remote listening, participating, and viewing the Technical Conference. Final details will be noticed and posted no later than October 1, 2010.

For additional information, please contact David Turner at 202-502-6091 or david.turner@ferc.gov.

[Docket No. PR10-24-000]

American Midstream (Alabama Intrastate), LLC ; Notice of Petition for Rate Approval

May 18, 2010.

Take notice that on May 14, 2010, American Midstream (Alabama Intrastate), LLC (Alabama Intrastate) filed a petition for rate approval pursuant to section 284.123(b)(2) of the Commission's regulations. Alabama Intrastate states it is filing for approval of the continuation of its currently effective maximum transportation rate of \$0.1621 per MMBtu, plus reimbursement of actual fuel and lost and unaccounted-for quantities up to three percent for interruptible transportation service provided pursuant to Section 311 of the NGPA.

Any person desiring to participate in this rate proceeding must file a motion to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the date as indicated below. Anyone filing an intervention or protest must serve a copy of that document on the Applicant. Anyone filing an intervention or protest on or before the intervention or protest date need not serve motions to intervene

or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Comment Date: 5 p.m. Eastern Time on Tuesday, May 25, 2010.

Energy Efficiency of Natural Gas Infrastructure and Operations Conference; Final Notice of Public Conference

May 18, 2010.

As announced in the "Notice of Public Conference" issued on March 31, 2010, a public conference will be held on May 25, 2010, from 9 a.m. to 3 p.m. (EST) in the Commission Meeting Room at the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426. The conference will be open for the public to attend and advance registration is not required. Members of the Commission are expected to attend and participate in the conference.

The purpose of this conference is to explore issues related to efficiency measures on the interstate natural gas grid as well as waste heat recovery opportunities. This conference will also provide an opportunity for interested parties to express their views and suggestions regarding ongoing efforts at the Commission to promote efficiency

measures. Attached to this notice is the agenda of conference.

A free Webcast of this event is available through <http://www.ferc.gov>. Anyone with Internet access who desires to listen to this event can do so by navigating to the Calendar of Events at <http://www.ferc.gov> and locating this event in the Calendar. The event will contain a link to its Webcast. The Capitol Connection provides technical support for webcasts and offers the option of listening to the conference via phone-bridge for a fee. If you have any questions, visit <http://www.CapitolConnection.org> or call (703) 993-3100.
