

and new companies remains unchanged from its preceding estimate.

Estimated labor costs: \$36,902,000 (rounded to the nearest thousand).

Using the burden hours estimated above, the total labor cost associated with the HSR Rules, based on a conservative estimated average of \$425/hour for executives' and attorneys' wages, would be approximately \$36.9 million (86,828 hours × \$425/hour).

Estimated annual non-labor cost burden: \$0 or minimal.

The applicable requirements impose minimal start-up costs, as businesses subject to the HSR Rules generally have or obtain necessary equipment for other business purposes. Staff believes that the above requirements necessitate ongoing, regular training so that covered entities stay current and have a clear understanding of federal mandates, but that this would be a small portion of and subsumed within the ordinary training that employees receive apart from that associated with the information collected under the HSR Rules.

John D. Graubert,

Acting General Counsel.
