

data is collected, market centers could either program their systems to generate the statistics and reports, or transfer the data to a service provider (such as an independent company in the business of preparing such reports or a self-regulatory organization ("SRO") that would generate the statistics and reports.

The collection of information obligations of Rule 605 apply to all market centers that receive covered orders in national market system securities. The Commission estimates that approximately 408 market centers are subject to the collection of information obligations of Rule 605. Each of these respondents is required to respond to the collection of information on a monthly basis.

The Commission staff estimates that, on average, Rule 605 causes respondents to spend 6 hours per month in additional time to collect the data necessary to generate the reports, or 72 hours per year. With an estimated 408 market centers subject to Rule 605, the total data collection cost to comply with the monthly reporting requirement is estimated to be 29,376 hours per year.

Rule 606 of Regulation NMS ("Rule 606") (17 CFR 242.606), formerly known as Rule 11Ac1-6, requires broker-dealers to prepare and disseminate quarterly order routing reports. Much of the information needed to generate these reports already should be collected by broker-dealers in connection with their periodic evaluations of their order routing practices. Broker-dealers must conduct such evaluations to fulfill the duty of best execution that they owe their customers.

The collection of information obligations of Rule 606 apply to broker-dealers that route non-directed customer orders in covered securities. The Commission estimates that out of the currently 5178 broker-dealers that are subject to the collection of information obligations of Rule 606, clearing brokers bear a substantial portion of the burden of complying with the reporting and recordkeeping requirements of Rule 606 on behalf of small to mid-sized introducing firms. There currently are approximately 527 clearing brokers. In addition, there are approximately 2426 introducing brokers that receive funds or securities from their customers. Because at least some of these firms also may have greater involvement in determining where customer orders are routed for execution, they have been included, along with clearing brokers, in estimating the total burden of Rule 606.

The Commission staff estimates that each firm significantly involved in order

routing practices incurs an average burden of 40 hours to prepare and disseminate a quarterly report required by Rule 606, or a burden of 160 hours per year. With an estimated 2953<sup>2</sup> broker-dealers significantly involved in order routing practices, the total burden per year to comply with the quarterly reporting requirement in Rule 606 is estimated to be 472,480 hours.

Rule 606 also requires broker-dealers to respond to individual customer requests for information on orders handled by the broker-dealer for that customer. Clearing brokers generally bear the burden of responding to these requests. The Commission staff estimates that an average clearing broker incurs an annual burden of 400 hours (2000 responses × 0.2 hours/response) to prepare, disseminate, and retain responses to customers required by Rule 606. With an estimated 527 clearing brokers subject to Rule 606, the total burden per year to comply with the customer response requirement in Rule 606 is estimated to be 210,800 hours.
