

insurance purposes as specified in the Special Provisions.

2. Unit Division.

In addition to the requirements of section 34(b) of the Basic Provisions, optional units may be established if each optional unit is located on non-contiguous land. Optional units may also be established by varietal group in accordance with section 14 of these provisions.

3. Insurance Guarantees, Coverage Levels, and Prices for Determining Indemnities.

* * * * *

(a) You may select only one price election for all the apples in the county insured under this policy unless the Special Provisions provide different price elections by type or varietal group, in which case you may select one price election for each apple type or varietal group designated in the Special Provisions. The price elections you choose for each type or varietal group must have the same percentage relationship to the maximum price offered by us for each type or varietal group. For example, if you choose 100 percent of the maximum price election for one type or varietal group, you must also choose 100 percent of the maximum price election for all other types or varietal group.

(b) You must report, by the production reporting date contained in section 3 of the Basic Provisions, by type or varietal group if applicable:

* * * * *

(4) The separate acreage for each varietal group of apples intended for fresh-market or processing, for each varietal group as shown on the actuarial documents; and

* * * * *

(c) You may not increase your elected or assigned coverage level or the ratio of your price election to the maximum price election if a cause of loss that could or would reduce the yield of the insured crop has occurred prior to the time that you request the increase.

* * * * *

8. Insurance Period.

* * * * *

(c) Notwithstanding paragraph (a)(1) of this section, for each subsequent crop year that the policy remains continuously in force, coverage begins on the day immediately following the end of the insurance period for the prior crop year. Policy cancellation that results solely from transferring to a different insurance provider for a subsequent crop year will not be considered a break in continuous coverage.

(d) If your apple policy is canceled or terminated for any crop year, in accordance with the terms of the policy, after insurance attached for that crop year but on or before the cancellation and termination dates whichever is later, insurance will not be considered to have attached for that crop year and no premium, administrative fee, or indemnity will be due for such crop year.

14. Option C—Prices and Units by Varietal Group.

(a) Exclusive of other options, optional units and price elections by varietal group apply only if the following conditions are met:

(1) You have not elected to insure your apples under the Catastrophic Risk Protection (CAT) Endorsement;

(2) You or we did not cancel the option in writing on or before the cancellation date. Your election of CAT coverage for any crop year after this endorsement is effective will be considered notice of cancellation of the option by you; and

(3) You have maintained separate records of production for each varietal group and you can identify the acreage upon which each varietal group is produced.

(b) If you select the Fresh Fruit Option A for all insurable acreage, Option C is not available.

11. Amend 457.159 to:

a. Revise the first sentence of the introductory text;

b. In the crop provisions revise definition of “grading standards” in section 1;

c. In the crop provisions add section 3(c);

d. In the crop provisions revise sections 4, 5 and 6(e);

e. In the crop provisions in section 8 revise paragraphs (a)(1) and (a)(2)(ii) and add paragraphs (a)(2)(iii), (c) and (d); all to read as follows:

§ 457.159 Stonefruit crop insurance provisions.

The Stonefruit Crop Insurance Provisions for the 2001 and succeeding crop years are as follows:

* * * * *

1. Definitions.

* * * * *

Grading standards—As specified in the Special Provisions.

* * * * *

3. Insurance Guarantees, Coverage Levels, and Prices for Determining Indemnities.

* * * * *

(c) You may not increase your elected or assigned coverage level or the ratio of your price election to the maximum price election we offer if a cause of loss that could or would reduce the yield of the insured crop is evident prior to the time that you request the increase.

4. Contract Changes.

In accordance with section 4 of the Basic Provisions, the contract change date is October 31 for California and August 31 preceding the cancellation date for all other states.

5. Cancellation and Termination Dates.

In accordance with section 2 of the Basic Provisions, the cancellation and termination dates are January 31 for California and November 20 for all other states.

6. Insured Crop.

* * * * *

(e) That are regulated by the applicable state's Tree Fruit Agreement or related crop advisory board for the state (for applicable crop or type);

* * * * *

8. Insurance Period.

(a) * * *

(1) Coverage begins on February 1 in California and November 21 for all other states of each crop year, except that for the year of application, if your application is received after January 22 but prior to February 1 in California or after November 11 but prior to November 21 in all other states, insurance will attach on the 10th day after your properly completed application is received in our local office, unless we inspect the acreage during the 10 day period and determine that it does not meet insurability requirements. You must provide any information that we require for the crop or to determine the condition of the orchard.

(2) * * *

(ii) September 30 for all nectarines and peaches; and

(iii) As otherwise provided for specific counties or types in the Special Provisions.

* * * * *

(c) Notwithstanding paragraph (a)(1) of this section, for each subsequent crop year that the policy remains continuously in force, coverage begins on the day immediately following the end of the insurance period for the prior crop year. Policy cancellation that results solely from transferring to a different insurance provider for a subsequent crop year will not be considered a break in continuous coverage.

(d) If your stonefruit policy is canceled or terminated for any crop year, in accordance with the terms of the policy, after insurance attached for that crop year but on or before the cancellation and termination dates whichever is the later, insurance will not be considered to have attached for that crop year and no premium, administrative fee, or indemnity will be due for such crop year.

Federal Aviation Administration

14 CFR Part 25

[Docket No. NM173; Special Conditions No. 25-163-SC]

Special Conditions: Boeing Model 747-2G4B Series Airplanes; High-Intensity Radiated Fields (HIRF)

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final special conditions; request for comments.

SUMMARY: These special conditions are issued for Boeing Model 747-2G4B series airplanes modified by Boeing Airplane Services. These modified airplanes will have novel or unusual design features when compared to the state of technology envisioned in the airworthiness standards for transport category airplanes. The modification incorporates the installation of new

Electronic Flight Instrument System (EFIS) displays. The EFIS displays will utilize electrical and electronic systems that perform critical functions. The applicable airworthiness regulations do not contain adequate or appropriate safety standards for the protection of these systems from the effects of high-intensity-radiated fields (HIRF). These special conditions contain the additional safety standards that the Administrator considers necessary to establish a level of safety equivalent to that established by the existing airworthiness standards.

DATES: The effective date of these special conditions is July 27, 2000.

Comments must be received on or before September 5, 2000.

ADDRESSES: Comments on these special conditions may be mailed in duplicate to: Federal Aviation Administration, Transport Airplane Directorate, Attention: Rules Docket (ANM-114), Docket No. NM173, 1601 Lind Avenue SW., Renton, Washington 98055-4056; or delivered in duplicate to the Transport Airplane Directorate at the above address. All comments must be marked: Docket No. NM173. Comments may be inspected in the Rules Docket weekdays, except Federal holidays, between 7:30 a.m. and 4 p.m.

FOR FURTHER INFORMATION CONTACT: Mark Quam, FAA, Standardization Branch, ANM-113, Transport Airplane Directorate, Aircraft Certification Service, 1601 Lind Avenue SW., Renton, Washington 98055-4056; telephone (425) 227-2145; facsimile (425) 227-1149.

SUPPLEMENTARY INFORMATION:

Comments Invited

The FAA has determined that good cause exists for making these special conditions effective upon issuance; however, interested persons are invited to submit such written data, views, or arguments, as they may desire. Communications should identify the regulatory docket or notice number and be submitted in duplicate to the address specified above. All communications received on or before the closing date for comments will be considered by the Administrator. These special conditions may be changed in light of the comments received. All comments received will be available in the Rules Docket for examination by interested persons, both before and after the closing date for comments. A report summarizing each substantive public contact with FAA personnel concerning this rulemaking will be filed in the docket. Commenters wishing the FAA to acknowledge receipt of their comments

submitted in response to this notice must include a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. NM173." The postcard will be date stamped and returned to the commenter.

Background

On August 25, 1997, Boeing Airplane Services, Wichita Division, P.O. Box 7730, Wichita, KS 67277-7730, applied for a Supplemental Type Certificate (STC) for the Boeing Model 747-2G4B series airplanes. The Boeing Model 747-2G4B is a Model 747-200 series airplane with four CF6-80C2B1 engines. The Model 747-200 series airplanes are an extended range passenger version of the Model 747-100 airplanes with changes to increase its strength and fuel capacity. The Model 747-2G4B will incorporate an Electronic Flight Instrument System (EFIS), which displays attitude and heading information and is manufactured by Astronautics. The modified airplanes are scheduled for certification in November 2000.

The Astronautics EFIS is a critical function that displays attitude and heading information. The EFIS must be designed and installed to ensure that their operations are not adversely affected by high intensity radiated fields (HIRF). These functions can be susceptible to disruption of both command and response signals as a result of electrical and magnetic interference caused by HIRF external to the airplane. This disruption of signals could result in loss of critical flight displays and annunciations, or could present misleading information to the pilot.

Type Certification Basis

Under the provisions of 14 CFR 21.101, Boeing Airplane Services must show that the Boeing Model 747-2G4B series airplanes, as changed, continue to meet the applicable provisions of the regulations incorporated by reference in Type Certificate No. A20WE or the applicable regulations in effect on the date of application for the change. The regulations incorporated by reference in the type certificate are commonly referred to as the "original type certification basis." The regulations included in the certification basis for the Boeing Model 747-2G4B series airplanes include Title 14, Code of Federal Regulations (14 CFR) part 25, as amended by Amendments 25-1 through 25-8, plus additional requirements in Type Certificate Data Sheet (TCDS) A20WE.
