TENNESSEE VALLEY AUTHORITY**Environmental Assessment or Environmental Impact Statement for Purchase of Renewable Energy From CPV Ashley Wind Power Project in North Dakota**

AGENCY: Tennessee Valley Authority.

ACTION: Notice of intent.

SUMMARY: This notice of intent is provided in accordance with the Council on Environmental Quality's regulations (40 CFR parts 1500-1508) and Tennessee Valley Authority's (TVA) procedures for implementing the National Environmental Policy Act (NEPA). TVA will prepare either an environmental assessment (EA) or an environmental impact statement (EIS) in

order to address the potential environmental impacts associated with its proposal to execute a 20-year power purchase agreement (PPA) for the purchase of up to 200 megawatts (MW) of renewable energy from CPV Ashley Renewable Energy Company LLC (CPV), a direct subsidiary of CPV Renewable Energy Company LLC (CPV REC). In order to supply this renewable energy, CPV is proposing to construct and operate a wind-powered generating facility in McIntosh County, North Dakota, known as the Ashley Wind Energy Project (the proposed Project). The proposed Project would interconnect to the Midwest Independent Transmission System Operator (MISO) electric grid via a 230-kilovolt (kV) Montana Dakota Utility Company transmission line.

TVA's Strategic Plan includes the objective to reduce its environmental footprint through demand reduction and by increasing clean energy resources in its generation mix. The TVA Board of Directors (TVA Board) recently authorized the purchase of as much as 2,000 MW of renewable and clean energy by 2011 as part of TVA's plan to have half of its power supply from clean and renewable energy sources by 2020. Accomplishing this goal will require increasing the availability of clean generation such as wind power to TVA. Achieving these goals would also assist TVA in meeting potential renewable portfolio standards (RPS), broadening its generation mix, sustaining grid reliability, and meeting future consumer demand for electricity through low or no carbon-emitting facilities.

DATES: Public comments on the scope of the review are invited. In order to ensure their consideration, scoping comments must be received on or before March 8, 2010. It is anticipated that a draft EA or EIS will be available in late spring or early summer 2010. If TVA decides that preparation of an EIS is warranted, a notice of availability of the draft EIS will be published in the **Federal Register**, as well as announced in local news media.

ADDRESSES: Information about the environmental review may be obtained by contacting Bruce Yeager, NEPA Program Manager, Tennessee Valley Authority, 400 West Summit Hill Drive, Mail Stop WT 11D, Knoxville, Tennessee 37902; by e-mailing to blyeager@tva.gov; or by visiting the TVA Web site <http://www.tva.gov>.
