

U.S.C. 4022, prohibits flood insurance coverage unless an appropriate public body adopts adequate floodplain management measures with effective enforcement measures. The communities listed no longer comply with the statutory requirements, and after the effective date, flood insurance will no longer be available in the communities unless remedial action takes place.

Regulatory Classification. This final rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30,

1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 13132, Federalism. This rule involves no policies that have federalism implications under Executive Order 13132.

Executive Order 12988, Civil Justice Reform. This rule meets the applicable standards of Executive Order 12988.

Paperwork Reduction Act. This rule does not involve any collection of information for purposes of the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.*

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[FCC 20–58; FRS 17002]

Media Bureau Reorganization

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: In this document, the Commission eliminates the Engineering Division of the Media Bureau and folds it into the Bureau's Industry Analysis Division. We take this step to account for changes in the Engineering Division's duties and in the organizational structure of the Commission. Incorporating the work and staff of the Engineering Division into the Industry Analysis Division is

meant to ensure that the Bureau's technical expertise is integrated more fully into the Bureau's adjudicatory matters and policy proceedings. The intended effect of this action is to streamline the Media Bureau's operations by simplifying its organizational structure, reduce management redundancies by improving the supervisor-to-employee ratio, and encourage more interaction and collaboration within the Bureau.

DATES: Effective September 18, 2020.

FOR FURTHER INFORMATION CONTACT:

Holly Saurer, *Holly.Saurer@fcc.gov*, Deputy Bureau Chief, Media Bureau, (202) 418-7283.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's *Order*, FCC 20-58, adopted and released on April 29, 2020. The full text of this document is available for public inspection online at <https://www.fcc.gov/document/fcc-adopts-media-bureau-reorganization>.

Alternative formats are available for people with disabilities (Braille, large print, electronic files, audio format) by sending an email to fcc504@fcc.gov or calling the Commission's Consumer and Governmental Affairs Bureau at (202) 418-0530 (voice), (202) 418-0432 (TTY).

Synopsis

In this *Order*, we conclude that it will serve the public interest and improve the Commission's operations to streamline the organization of the Media Bureau. Specifically, we eliminate the Engineering Division and fold the work and staff of the Engineering Division into the Media Bureau's Industry Analysis Division (IAD). We take this action to account for changes in the Engineering Division's duties and in the organizational structure of the Commission. By incorporating the work and staff of the Engineering Division into IAD, we can better ensure that the Bureau's technical expertise is integrated more fully into the Bureau's adjudicatory matters and policy proceedings. We therefore conclude that this organizational change is warranted and amend the Commission's rules accordingly to reflect this new structure.

Background. The current composition of the Engineering Division and the IAD stem back to the creation of the Media Bureau in 2002. The Engineering Division was established to conduct technical reviews of media related matters, including essential work overseeing technical compliance of multichannel video programming distributors, as well as television and radio broadcast licensees, with

Commission rules. The IAD was established to conduct and participate in proceedings regarding media ownership and the economic aspects of existing and proposed rules and policies, to review license transfers that implicate significant policy issues, and to develop reports on relevant industry and market data and information.

More specifically, the Engineering Division processed cable industry regulatory filings (such as registrations and their updates, and signal leakage and proof of performance results), Cable Television Relay Service (CARS) applications, and requests for rulings on technical matters. As the industry has transitioned from analog to digital and from paper to electronic filing processes, and as the Commission has engaged in dozens of proceedings to modernize its rules, the Engineering Division's tasks have diminished. For example, many of the tasks that the Engineering Division used to perform, such as monitoring and enforcing proof-of-performance testing requirements and collecting FCC Form 325 (Annual Report of Cable Television Systems), are no longer necessary given updates to our rules. The Division's work is now primarily focused on consulting with other Bureaus and Offices and the Media Bureau's other divisions in all aspects of media-related technical rulemakings and enforcement and providing analysis of the Commission's cable industry data, as well as maintaining the Cable Operations and Licensing System (COALS) database, which includes the CARS licensing process.

Among other things, the IAD collects, compiles, analyzes and develops reports on relevant industry and market data and information, including conducting rulemakings and preparing reports to Congress on the status of competition in the media industry. With the recent creation of the Office of Economics and Analytics (OEA), the IAD's economists and a portion of its responsibilities were relocated to the new OEA.

Discussion. We find that there are notable benefits to bringing the Engineering Division team within the larger IAD. Simplifying the organizational structure of the Bureau will streamline its operations, improve the supervisor-to-employee ratio thereby reducing redundancies in management, and encourage more extensive staff interaction and collaboration. The IAD staff has extensive experience analyzing the media industry and incorporating such analysis into the Bureau's rulemaking and regulation. Therefore, they are well positioned to effectively utilize the technical resources of the

Engineering Division. Further, IAD manages the Bureau's collection of data pertaining to media ownership issues. Combining this extensive experience and responsibility for information technology with the Engineering Division's COALS database expertise would be beneficial to the Bureau's management and would coalesce much-needed technical resources. In addition, the mission of both divisions involves providing technical support and subject matter expertise to the Media Bureau's other divisions, as well as consultation and coordination with other Bureaus and Offices related to various policy proceedings, adjudications, and enforcement matters.

For these reasons, we believe that combining the Engineering Division and the IAD will promote more effective use of Commission resources. Accordingly, we find that Engineering Division personnel and responsibilities should be moved into the IAD, and the Engineering Division should be eliminated as a separate Media Bureau division. The key objectives of this organizational change are to more efficiently deploy Commission resources, enhance the Bureau's understanding and analysis of the media industry, and rationalize and modernize our organizational structure. We believe that we can best accomplish these objectives through organizational change. In order to effectuate this change, we modify our rules to account for the reorganization.

The amendments adopted herein pertain to agency organization, procedure, and practice. Consequently, the notice and comment and effective date provisions of the Administrative Procedure Act contained in 5 U.S.C. 553(b) and (d) do not apply.

This document does not contain information collection requirements subject to the Paperwork Reduction Act of 1995 (PRA), Public Law 104-13. In addition, therefore, it does not contain any new or modified information collection burden for small business concerns with fewer than 25 employees, pursuant to the Small Business Paperwork Relief Act of 2002, Public Law 107-198, see 44 U.S.C. 3506(c)(4).

The Commission will not send a copy of this Order pursuant to the Congressional Review Act, see 5 U.S.C. 801(a)(1)(A), because the adopted rules exclusively relate to agency management or personnel.

It is ordered that, pursuant to sections 1, 4, 5(b), 5(c), and 303(r) of the Communications Act of 1934, as amended, 47 U.S.C. 151, 154, 155(b), 155(c), and 303(r) this Order *is adopted*.

It is further ordered that part 73 of the Commission Rules *is amended*.

It is further ordered that consistent with the Consolidated Appropriations Act, 2020, this Order *will become effective* when the appropriate clearance has been obtained and upon the date set forth in the **Federal Register** publication of this Order.

Reporting and recordkeeping requirements.

Federal Communications Commission.

Cecilia Sigmund,

Federal Register Liaison Officer.

Final Rules

For the reasons discussed in the preamble, the Federal Communications Commission amends 47 CFR part 73 as follows:

PART 73—RADIO BROADCAST SERVICES

- 1. The authority citation for part 73 continues to read as follows:

Authority: 47 U.S.C. 154, 155, 301, 303, 307, 309, 310, 334, 336, 339.

- 2. Revise § 73.3617 to read as follows:

§ 73.3617 Information available on the internet.

The Media Bureau and each of its Divisions provide information on the internet regarding rules and policies, pending and completed rulemakings, and pending applications. These sites also include copies of public notices and texts of recent decisions. The Media Bureau's address is <http://www.fcc.gov/mb/>; the Audio Division's address is <http://www.fcc.gov/mb/audio/>; the Video Division's address is <http://www.fcc.gov/mb/video/>; the Policy Division's address is <http://www.fcc.gov/mb/policy/>; and the Industry Analysis Division's address is http://www.fcc.gov/mb/industry_analysis/.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Parts 216 and 300

[Docket No. 200910–0236]

RIN 0648–BH48

International Fisheries; Pacific Tuna Fisheries; Procedures for the Active and Inactive Vessel Register

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule; date of effectiveness for collection-of-information requirements.

SUMMARY: NMFS announces approval by the Office of Management and Budget (OMB) of collection-of-information requirements contained in regulations published in a final rule on December 20, 2019. The final rule implements International Maritime Organization (IMO) requirements in Inter-American Tropical Tuna Commission (IATTC) Resolution C–18–06 (*Resolution (Amended) on a Regional Vessel Register*) and amendments to existing regulations governing inclusion on the IATTC Regional Vessel Register (Vessel Register) by purse seine vessels fishing in the eastern Pacific Ocean (EPO). The intent of this final rule is to inform the public of the effectiveness of the collection-of-information requirements associated with the final rule.

DATES: This final rule is effective September 18, 2020. The amendments in amendatory instructions 2 and 6, published at 84 FR 70040 (December 20, 2019), are effective on September 18, 2020.

ADDRESSES: Copies of supporting documents are available via the Federal eRulemaking Portal: <http://www.regulations.gov>, docket NOAA–NMFS–2018–0030, or by contacting Daniel Studt, NMFS West Coast Region, 501 W Ocean Blvd., Suite 4200, Long Beach, CA 90802, or emailing WCR.HMS@noaa.gov.

Written comments regarding the burden-hour estimates or other aspects of the collection-of-information requirements contained in this rule may be submitted to the NMFS West Coast Region Long Beach Office at the address listed above, and to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by using the search function.

FOR FURTHER INFORMATION CONTACT:

Daniel Studt, NMFS, West Coast Region, 562–980–4073.

SUPPLEMENTARY INFORMATION:

Background

On December 20, 2019, NMFS published a final rule in the **Federal Register** (84 FR 70040) under the Tuna Conventions Act of 1950, as amended, and the Marine Mammal Protection Act, as amended, to implement IMO requirements in IATTC Resolution C–18–06 (*Resolution (Amended) on a Regional Vessel Register*) and amendments to existing regulations governing inclusion on the Vessel Register by purse seine vessels fishing in the EPO. That final rule became effective January 21, 2020, except for amendatory instructions that included new or revised information collections, which were delayed until publication of a document in the **Federal Register** announcing the effective date. OMB has approved these collection-of-information requirements under control number 0648–0387. Accordingly, this final rule announces effectiveness of the collection-of-information requirements at 50 CFR 216.24 and 50 CFR 300.22 that were published in the December 20, 2019 final rule. On June 10, 2020, a final rule was published in the **Federal Register** announcing the effectiveness of these collection-of-information requirements and a correcting amendment (85 FR 35379). However, that final rule did not result in the effectiveness of these collection-of-information requirements due to an error in the **DATES** section, which is corrected in this final rule.

Classification

This final rule has been determined to be not significant for the purposes of Executive Order 12866. This rule is not an Executive Order 13771 regulatory action because this rule is not significant under Executive Order 12866.

This final rule announces the date of effectiveness of new and revised collection-of-information requirements approved by OMB under PRA control number 0648–0387 that were published in the **Federal Register** (84 FR 70040) on December 20, 2019. Comments regarding the burden estimates, or any other aspects of the collection of information may be sent to the NMFS West Coast Region Long Beach Office (see **ADDRESSES** above) and to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by using the search function and entering the title of the collection or the OMB Control Number (0648–0387).
