

instruction from the Department, countervailing duties on all unliquidated entries of OCTG from the PRC entered, or withdrawn from warehouse, for consumption on or after the date of publication of the ITC's

notice of final determination of threat of material injury in the **Federal Register**.

Cash Deposit Requirements

Effective on the date of publication of the ITC's notice of final determination in the **Federal Register**, CBP will require, at the same time as importers

would normally deposit estimated duties, cash deposits for the subject merchandise equal to the net subsidy rates listed below. *See* section 706(a)(3) of the Act. The all-others rate applies to all producers and exporters of subject merchandise not specifically listed.

Exporter/manufacturer	Net subsidy rate (percent)
Jiangsu Changbao Steel Tube Co. and Jiangsu Changbao Precision Steel Tube Co., Ltd.	12.46
Tianjin Pipe (Group) Co., Tianjin Pipe Iron Manufacturing Co., Ltd., Tianguan Yuantong Pipe Product Co., Ltd., Tianjin Pipe International Economic and Trading Co., Ltd., and TPCO Charging Development Co., Ltd.	10.49
Wuxi Seamless Pipe Co, Ltd., Jiangsu Fanli Steel Pipe Co, Ltd., Tuoketuo County Mengfeng Special Steel Co., Ltd.	14.95
Zhejiang Jianli Enterprise Co., Ltd., Zhejiang Jianli Steel Steel Tube Co., Ltd., Zhuji Jiansheng Machinery Co., Ltd., and Zhejiang Jianli Industry Group Co., Ltd.	15.78
All Others	13.41

Termination of the Suspension of Liquidation

The Department will also instruct CBP to terminate the suspension of liquidation for entries of OCTG from the PRC entered, or withdrawn from warehouse, for consumption prior to the publication of the ITC's notice of final determination. The Department will also instruct CBP to refund any cash deposits made and release any bonds posted between September 15, 2009 (*i.e.*, the date of publication of the Department's *Preliminary Determination*) and the date of publication of the ITC's final determination in the **Federal Register**.

This notice constitutes the countervailing duty order with respect to OCTG from the PRC, pursuant to section 706(a) of the Act. Interested parties may contact the Department's Central Records Unit, Room 1117 of the main Commerce Building, for copies of an updated list of countervailing duty orders currently in effect.

This order is issued and published in accordance with section 706(a) of the Act and 19 CFR 351.211(b).

Dated: January 15, 2010.

Ronald K. Lorentzen,

Deputy Assistant Secretary for Import Administration.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XT88

Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and

Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The Pacific Fishery Management Council (Pacific Council) will hold a joint meeting of subcommittees from a number of its advisory bodies, as follows: Enforcement Consultants, Groundfish Advisory Subpanel, Groundfish Management Team, and the Ad Hoc Trawl Individual Quota Committee. The meeting is open to the public.

DATES: The joint subcommittee meeting will be held Thursday, February 4, 2010, from 8 a.m. until business for the day is completed and Friday, February 5, 2010 from 8 a.m. until no later than 3 p.m.

ADDRESSES: The joint subcommittee meeting will be held at the Watertown Hotel, 4242 Roosevelt Way NE, Seattle WA 98105; telephone: (206) 826-4242.

Council address: Pacific Fishery Management Council, 7700 NE Ambassador Place, Suite 101, Portland, OR 97220-1384.

FOR FURTHER INFORMATION CONTACT: Mr. Jim Seger, Staff Officer; telephone: (503) 820-2280.

SUPPLEMENTARY INFORMATION: The purpose of the joint subcommittee meeting is to orient members representing the various advisory panels, and Pacific Council members who will be in attendance, on the organization and content of a preliminary draft of the Amendment 20 (Trawl Rationalization) regulations. This orientation will facilitate Pacific Council review of the draft regulations at the March 2010 Pacific Council meeting. Participants may also provide drafters of the regulations with some initial reactions which the drafters may take into account as they complete the draft package for Pacific Council review.

Although non-emergency issues not contained in the meeting agenda may come before the joint subcommittee for discussion, those issues may not be the subject of formal joint subcommittee action during this meeting. Joint subcommittee action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under Section 305(a) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the joint subcommittee's intent to take final action to address the emergency.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Ms. Carolyn Porter at (503) 820-2280 at least 5 days prior to the meeting date.

Dated: January 14, 2010.

Tracey L. Thompson,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

National Oceanic and Atmospheric Administration

RIN 0648-XT89

Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of a public meeting.

SUMMARY: The Pacific Fishery Management Council's (Council) Highly

Migratory Species Management Team (HMSMT) will hold a work session, which is open to the public.

DATES: The HMSMT work session will start on Tuesday, February 23, 2010, and finish on Thursday, February 25, 2010. The meetings will start each day at 8:30 a.m. and continue to the finish of business each day.

ADDRESSES: The work sessions will be held in the Green Room at the La Jolla Shores Building, National Marine Fisheries Service Southwest Fisheries Science Center, 8604 La Jolla Shores Drive, La Jolla, CA 92037; telephone: (858) 334-2800.

Council address: Pacific Fishery Management Council, 7700 NE Ambassador Place, Suite 101, Portland, OR 97220-1384.

FOR FURTHER INFORMATION CONTACT: Dr. Kit Dahl, Pacific Fishery Management Council; telephone: (503) 820-2280.

SUPPLEMENTARY INFORMATION: At their work session the HMSMT will discuss: Development of an amendment to the Fishery Management Plan for West Coast Fisheries for Highly Migratory Species to address new guidelines for National Standard 1 in the Magnuson-Stevens Conservation and Management Act, as amended; management options for limiting effort in the west coast albacore troll/baitboat fishery; and preparation of the HMS Stock Assessment and Fishery Evaluation (SAFE) report. The HMSMT will also hear reports on an electronic logbook feasibility study and current west coast Marine Recreational Information Program funded projects.

Although non-emergency issues not contained in the meeting agenda may be discussed, those issues may not be the subject of formal action during these meetings. Action will be restricted to those issues specifically listed in this document and any issues arising after publication of this document that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

DEPARTMENT OF COMMERCE

International Trade Administration

Mission Statement; Middle East Public Health Mission, June 5-10, 2010

AGENCY: International Trade Commission, Department of Commerce.
ACTION: Notice.

Mission Description

The United States Department of Commerce, International Trade Administration, U.S. and Foreign Commercial Service (CS), is organizing a Public Health Trade Mission to Riyadh and Jeddah, Saudi Arabia and Doha, Qatar, from June 5-10, 2010. Led by a senior Department of Commerce official, the mission will focus on two important public health issues: (1) Patient healthcare and (2) water and waste management. The mission will provide an excellent venue for U.S. companies to promote equipment, services, and technologies in a range of public health sectors, including hospital and clinical laboratory equipment; pharmaceuticals; health care technologies; public health education; hospital construction and design; IT software; and waste management including medical waste; incinerators, bio-mass technology, recycling and integrated solid waste management services, water and sewage treatment plants; water desalinization and water distribution.

Commercial Setting

Saudi Arabia and Qatar offer solid business opportunities in this region for the public health sectors. Increasing populations and rapid urbanization in recent years are creating strong demand for healthcare and water and waste management. Authorities are constantly at work meeting growing demands for basic public health concerns.

Both countries are upgrading and expanding hospitals and increasing the focus on healthcare for the population. Public and private sector healthcare systems are seeking a wide range of new equipment, technologies, and solutions. Concurrently, water resources are in critical demand in a region where water tables are decreasing, creating need for more effective water treatment and management. Waste management, from sewage to medical waste, is also a

concern as the countries are looking for solutions.

Saudi Arabia and Qatar rely heavily on imports in these key public health sectors. U.S. equipment, technology, and know how enjoy an excellent reputation here. Business is done on the basis of contacts and U.S. exporters will need to travel to the region to develop strong working relationships with locally based agents or distributors.

Saudi Arabia

The Saudi economy is growing rapidly. Since 2002, Saudi Arabia has enjoyed budget surpluses every year and the country carried large cash reserves of \$452 billion in 2009. Saudi Arabia is the largest free market economy in the region with a nominal GDP expected at \$460 billion in 2009.

Medical Equipment and Healthcare Sector

Between now and 2016, the population of Saudi Arabia is expected to grow by more than 20%, from 23 million to 30 million, which, in turn, will create an unprecedented demand for healthcare services. Saudi Arabia remains the Gulf region's largest and most developed market for medical products and services, valued at \$13.1 billion. The introduction of compulsory healthcare insurance, the gradually aging population, and greater material wealth along with an upsurge in lifestyle diseases all combine to boost demand for healthcare services.

From 2009 to 2016 health expenditures are expected to increase dramatically, even faster than the 20% rate of population growth. Over the same period, demand for hospital beds is likely to grow from 51,000 to 70,000, demand for physicians is likely to rise from 40,000 to 54,000 and the number of hospitals is likely to rise from 364 to 502. The government allocated \$13.9 billion for the healthcare sector in the 2009 budget, 17% more than in 2008. The funds were used to finance 86 new hospitals with 11,750 beds and additional Primary Healthcare Centers (PHC). Government spending on the healthcare sector is expected to grow to over \$20 billion by 2016 annually.

Water Resources

Saudi Arabia is the third largest consumer of water per capita in the world, but has limited groundwater to tap. The country has been plagued by shortages in recent years, and with consumption from a rising population and economic growth set to soar. Desalination forms the backbone of the government's water strategy. Some 30 desalination plants have already been
