II. Background

A. Purpose of the Meeting

In April 2000, the EPA, Office of Pesticide Programs (OPP), met with the SAP to present a progress report on its initiative to revise the ecological assessment process for pesticides. This included an update regarding the progress of the initiative and corresponding Panel recommendations on the approach. A key component of the April 2000 meeting was an overview of the conceptual risk assessment model proposed by OPP. Since the meeting, OPP has conducted a generic case study, which incorporated many of the comments and recommendations by the SAP. OPP is meeting with the SAP again to review this generic case study and is seeking their suggestions for improvement.

B. Panel Report

The Agency anticipates that the Panel's report of their recommendations will be available approximately 60 days after the meeting. The Panel's report will be posted on the FIFRA SAP web site or may be obtained by contacting the Public Information and Records Integrity Branch at the address or telephone number listed in Unit I. of this document.

Atrazine; Availability of Preliminary Risk Assessment

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the availability of documents that were developed as part of EPA's pilot public participation process for making reregistration eligibility decisions for the organophosphate and certain other, non-organophosphate pesticides and for tolerance reassessments consistent with the Federal Food, Drug, and Cosmetic Act (FFDCA), as amended by the Food Quality Protection Act of 1996 (FQPA). These documents are the preliminary human health risk assessment and

related documents for atrazine. This notice also starts a 60-day public comment period for the preliminary risk assessment. Comments are to be limited to issues directly associated with the one pesticide that has risk assessment documents placed in the docket and should be limited to issues raised in those documents. By allowing access and opportunity for comment on the preliminary risk assessment, EPA is seeking to strengthen stakeholder involvement and help ensure our decisions under FQPA are transparent and based on the best available information. The tolerance reassessment process will ensure that the United States continues to have the safest and most abundant food supply. The Agency cautions that risk assessments at this stage are preliminary assessments only and that further refinements of the risk assessments may be appropriate for this pesticide. These documents reflect only the work and analysis conducted as of the time they were produced and it is appropriate that, as new information becomes available and/or additional analyses are performed, the conclusions they contain may change.

DATES: Comments, identified by docket control number OPP-34237 for Atrazine must be received on or before April 16, 2001.

ADDRESSES: Comments may be submitted by mail, electronically, or in person. Please follow the detailed instructions for each method as provided in Unit I. of the

SUPPLEMENTARY INFORMATION. To ensure proper receipt by EPA, it is imperative that you identify the docket control number for atrazine, OPP-34237, in the subject line on the first page of your response.
