SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a multi-step process including: (1) Data Workshop, (2) a series of assessment webinars, and (3) a Review Workshop. The product of the Data Workshop is a report that compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The assessment webinars produce a report that describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and

monitoring needs. The product of the Review Workshop is an Assessment Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, HMS Management Division, and Southeast Fisheries Science Center. Participants include data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and NGO's; International experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion during the Workshop are as follows:

- Panelists will review the data sets being considered for the assessment and discuss initial modeling efforts.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during these meetings. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration****Review of Nomination for Lake Erie Quadrangle National Marine Sanctuary**

AGENCY: Office of National Marine Sanctuaries (ONMS), National Ocean Service (NOS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce (DOC).

ACTION: Notice; request for written comments.

SUMMARY: The Office of National Marine Sanctuaries of the National Oceanic and Atmospheric Administration is requesting written comments to facilitate ONMS' five year review of the nomination for the Lake Erie Quadrangle National Marine Sanctuary (NMS). In particular, NOAA is requesting relevant information as it pertains to its evaluation criteria for inclusion in the inventory (these criteria are detailed at <https://nominate.noaa.gov/guide.html>). In this five year review, NOAA will pay particular attention to any new information about the nomination's resources, changes to any threats towards these resources, and any updates to the management framework of the area. NOAA will also assess the continuity and breadth of community-based support for the nomination. NOAA has provided the original nominating party an opportunity to share its views on these same questions. Following this information gathering and internal analysis, NOAA will make a final determination on whether or not the Lake Erie Quadrangle NMS nomination will remain in the inventory for another five year period.

DATES: Written comments must be received by February 11, 2021.

ADDRESSES: Comments may be submitted by the following method:

Federal eRulemaking Portal: <https://www.regulations.gov>. Submit electronic comments via the Federal eRulemaking Portal with Docket Number NOAA–NOS–2020–0167.
