Title: 30 CFR parts 202, 204, 206, and 210, Federal Oil and Gas Valuation.

OMB Control Number: 1010–0136.

Bureau Form Number: Forms MMS–4377 and MMS–4393.

Abstract: The Secretary of the U.S. Department of the Interior is responsible for mineral resource development on Federal and Indian lands and the Outer Continental Shelf (OCS). The Secretary is required by various laws to manage mineral resource production from Federal and Indian lands and the OCS, collect the royalties and other mineral revenues due, and distribute the funds collected in accordance with applicable laws. Public laws pertaining to mineral leases on Federal and Indian lands are posted on our Web site at http://www.mrm.mms.gov/Laws_R_D/PublicLawsAMR.htm.

General Information

When a company or an individual enters into a lease to explore, develop, produce, and dispose of minerals from Federal or Indian lands, that company or individual agrees to pay the lessor a share in an amount or value of production from the leased lands. The lessee is required to report various kinds of information to the lessor relative to the disposition of the leased minerals. Such information is generally available

within the records of the lessee or others involved in developing, transporting, processing, purchasing, or selling of such minerals.

We use the information collected in this ICR to ensure that royalty is accurately valued and appropriately paid on oil and gas produced from Federal onshore and offshore leases. Please refer to the Respondents' Estimated Annual Burden Hours table for all reporting requirements and associated burden hours. All data submitted is subject to subsequent audit and adjustment.

Federal Oil and Gas Valuation Regulations

The valuation regulations at 30 CFR part 206, subparts C and D, mandate that companies collect and/or submit information used to value their Federal oil and gas, including (1) transportation and processing allowances; and (2) regulatory allowance limitation information. Companies report certain data on Form MMS-2014, Report of Sales and Royalty Remittance (OMB Control Number 1010-0139). The information requested is the minimum necessary to carry out our mission and places the least possible burden on respondents. If MMS does not collect this information, both Federal and State governments may incur a loss of royalties.

Transportation and Processing Regulatory Allowance Limits

Lessees may deduct the reasonable, actual costs of transportation and processing from Federal royalties. Lessees who request approval to exceed the regulatory allowance limits are required to provide information in order to obtain these benefits.

Request To Exceed Regulatory Allowance Limitation, Form MMS-4393

Lessees may request to exceed regulatory limitations. Upon proper application from the lessee, we may approve an oil or gas transportation allowance in excess of 50 percent or a gas processing allowance in excess of 66⅔ percent on Federal leases. Form MMS-4393 is used for both Federal and Indian leases to request to exceed allowance limitations. This ICR includes only Federal leases; therefore burden hours for Form MMS-4393 for Indian leases are not included in this ICR. Burden hours for Form MMS-4393 for Indian leases are included in OMB Control Number 1010-0103.

Accounting and Auditing Relief for Marginal Properties

In 2004, we amended our regulations to comply with section 7 of the Federal Oil and Gas Royalty Simplification and Fairness Act of 1996. The regulations provide guidance for lessees and designees seeking accounting and auditing relief for qualifying Federal marginal properties. Under the regulations, both MMS and the state concerned must approve any relief granted for a marginal property.

Stripper Oil Royalty Rate Reduction Program

Under 43 CFR 3103.4-2, the Stripper Oil Royalty Rate Reduction Program (Stripper Oil Program) was established by the Bureau of Land Management (BLM), the surface management agency for Federal onshore leases. As a benefit under this program, MMS, who administered the Stripper Oil Program for BLM, approved royalty rate reductions for operators of stripper oil properties for applicable sales periods from October 1, 1992, through January 31, 2006. Effective February 1, 2006, the benefits of reduced royalty rates under

this program were terminated. This change is not currently reflected in the CFR; however, BLM is processing a final rule to remove this citation from the regulations.

For production through January 31, 2006, reporters used Form MMS-4377, Stripper Royalty Rate Reduction Notification, to notify MMS of royalty rate changes. Although the benefits were terminated, MMS continues to verify previously submitted notifications and may require the operator to submit an amended Form MMS-4377.

OMB Approval

We are requesting OMB approval to continue to collect this information. Not collecting this information would limit the Secretary's ability to discharge his/her duties and may also result in loss of royalty payments. Proprietary information submitted to MMS under this collection is protected, and no items of a sensitive nature are included in this information collection.

For information collections relating to valuation requirements, responses are mandatory. For the remaining information collections in this ICR, responses are required to obtain benefits.

Frequency: Annually and on occasion.

Estimated Number and Description of Respondents: 120 Federal lessees/designees and 7 states for Federal oil and gas valuation; and 150 lessees/lessors for the Stripper Oil Program.

Estimated Annual Reporting and Recordkeeping "Hour" Burden: 9,378 hours.

We have not included in our estimates certain requirements performed in the normal course of business and considered usual and customary. The following chart shows the estimated burden hours by CFR section and paragraph:

Estimated Annual Reporting and Recordkeeping “Non-Hour Cost” Burden: We have identified no “non-Hour cost” burden associated with the collection of information.

Public Disclosure Statement: The PRA (44 U.S.C. 3501 *et seq.*) provides that an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it

displays a currently valid OMB control number.

Comments: Before submitting an ICR to OMB, PRA Section 3506(c)(2)(A) requires each agency to “* * * provide 60-day notice in the **Federal Register**

* * * and otherwise consult with members of the public and affected agencies concerning each proposed collection of information * * *. Agencies must specifically solicit comments to: (a) Evaluate whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

The PRA also requires agencies to estimate the total annual reporting "non-hour cost" burden to respondents or recordkeepers resulting from the collection of information. If you have costs to generate, maintain, and disclose this information, you should comment and provide your total capital and startup cost components or annual operation, maintenance, and purchase of service components. You should describe the methods you use to estimate major cost factors, including system and technology acquisition, expected useful life of capital equipment, discount rate(s), and the period over which you incur costs. Capital and startup costs include, among other items, computers and software you purchase to prepare for collecting information; monitoring, sampling, and testing equipment; and record storage facilities. Generally, your estimates should not include equipment or services purchased: (i) Before October 1, 1995; (ii) to comply with requirements not associated with the information collection; (iii) for reasons other than to provide information or keep records for the Government; or (iv) as part of customary and usual business or private practices.

We will summarize written responses to this notice and address them in our ICR submission for OMB approval, including appropriate adjustments to the estimated burden. We will provide a copy of the ICR to you without charge upon request. We also will post the ICR at http://www.mrm.mms.gov/Laws_R_D/FRNotices/FRInfColl.htm.

Public Comment Policy: We will post all comments, including names and addresses of respondents, at <http://www.regulations.gov>. Abstract: The Secretary of the U.S. Department of the Interior is responsible for collecting royalties from lessees who produce minerals from leased Federal and Indian lands. The Secretary is required by various laws to manage mineral resources production on Federal and Indian lands, collect the royalties due, and distribute the funds in accordance with those laws. The Secretary also has a trust responsibility to manage Indian lands and seek advice and information from Indian beneficiaries. The MMS performs the royalty management functions and assists the Secretary in carrying out the Department's trust responsibility for Indian lands.

Public laws pertaining to mineral leases on Federal and Indian lands are posted at http://www.mrm.mms.gov/Laws_R_D/PublicLawsAMR.htm.

When a company or an individual enters into a lease to explore, develop, produce, and dispose of minerals from Federal or Indian lands, that company or individual agrees to pay the lessor a share (royalty) of the value received from production from the leased lands. The lease creates a business relationship between the lessor and the lessee. The lessee is required to report various kinds of information to the lessor relative to the disposition of the leased minerals. The information collected includes data necessary to assure that royalties are accurately valued and appropriately paid.

The MMS, acting for the Secretary, uses all of the collected information to support the Minerals Revenue
