SUMMARY: The U.S. Environmental Protection Agency (EPA) is planning to submit an information collection request (ICR), “Water Quality Standards Regulation (Renewal)” (EPA ICR No. 0988.14, OMB Control No. 2040–0049) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. Before doing so, EPA is soliciting public comments on specific aspects of the proposed information collection as described below. This ICR renews the Water Quality Standards Regulation ICR, which is currently approved through December 31, 2021. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

EPA’s policy is that all comments received will be included in the public docket without change including any personal information provided unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT: Menchu Martinez, Office of Water, Office of Science and Technology, Standards and Health Protection Division, (4305T), Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: 202–566–1218; email address: martinez.menchu-c@epa.gov.

SUPPLEMENTARY INFORMATION:

Pursuant to section 3506(c)(2)(A) of the Paperwork Reduction Act (PRA), EPA is soliciting comments and information to enable it to: (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and, (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology,

e.g., permitting electronic submission of responses. EPA will consider the comments received and amend the proposed ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: Water quality standards (WQS) under the Clean Water Act (hereafter referred to as “the Act”) are provisions of state,¹ tribal,² or federal law which consist of designated uses for waters of the United States, water quality criteria to protect those uses, and antidegradation requirements. WQS are established to protect public health or welfare, protect and enhance the quality of water, and serve the purposes of the Act. Such standards serve the dual purposes of establishing the water quality goals for water bodies and serving as the regulatory basis for the establishment of water quality-based treatment controls and strategies beyond technology-based levels of treatment required by sections 301(b) and 306 of the Act. The WQS regulation, consisting of 40 CFR part 131, establishes the framework for states and authorized tribes to adopt standards, and for EPA to review and approve or disapprove them. This ICR is for information collections needed to implement the WQS regulation, required to obtain or retain benefits (e.g., relaxed regulatory requirements) under the WQS regulation, and requested on a voluntary basis to gather technical program information.

This ICR renews the WQS Regulation ICR, OMB control no. 2040–0049, expiration date 12/31/2021. This ICR renewal describes the estimated burden for states and authorized tribes associated with the information collections related to implementation of the requirements of 40 CFR part 131 (Water Quality Standards). This ICR also covers periodic requests for voluntary WQS information from states and tribes to ensure efficient and effective administration of the WQS program and further cooperative federalism.

Form Numbers: None.

Respondents/affected entities: Potential respondents to this ICR

¹ “States” in EPA’s WQS Regulation and in this document includes the 50 states, the District of Columbia, Guam, the Commonwealth of Puerto Rico, the Virgin Islands, American Samoa, and the Commonwealth of the Northern Mariana Islands.

² “Tribes” in this document refers to federally recognized tribes and “authorized tribes” refers to those federally recognized Indian tribes with authority to administer a CWA WQS program.
