Federal Register

Vol. 89, No. 121

Monday, June 24, 2024

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

## DEPARTMENT OF AGRICULTURE

### Animal and Plant Health Inspection Service

[Docket No. APHIS–2023–0023]

#### Importation of Fresh Ginseng Roots (*Panax ginseng* C.A. Mey.) From the Republic of Korea Into the United States

**AGENCY:** Animal and Plant Health Inspection Service, USDA.

**ACTION:** Notice.

**SUMMARY:** We are advising the public of our decision to authorize the importation of fresh ginseng roots (*Panax ginseng* C.A. Mey.) from the Republic of Korea into the United States. Based on the findings of a pest risk analysis, which we made available to the public for review and comment through a previous notice, we have determined that the application of one or more designated phytosanitary measures will be sufficient to mitigate the risks of introducing or disseminating plant pests or noxious weeds via the importation of fresh ginseng roots from the Republic of Korea.

**DATES:** Imports may be authorized beginning June 24, 2024.

**FOR FURTHER INFORMATION CONTACT:** Mr. Hesham Abuelnaga, Senior Regulatory Policy Specialist, Regulatory Coordination and Compliance, PPQ, APHIS, 4700 River Road Unit 133, Riverdale, MD 20737–1231; (301) 851–2010; email: [Hesham.A.Abuelnaga@usda.gov](mailto:Hesham.A.Abuelnaga@usda.gov).

#### SUPPLEMENTARY INFORMATION:

##### Background

Under the regulations in “Subpart L—Fruits and Vegetables” (7 CFR 319.56–1 through 319.56–12, referred to below as the regulations), the Animal and Plant Health Inspection Service (APHIS) prohibits or restricts the importation of fruits and vegetables into the United

States from certain parts of the world to prevent plant pests from being introduced into or disseminated within the United States.

Section 319.56–4 contains a performance-based process for approving the importation of fruits and vegetables that, based on the findings of a pest risk analysis, can be safely imported subject to one or more of the five designated phytosanitary measures listed in paragraph (b) of that section. Under that process, APHIS proposes to authorize the importation of a fruit or vegetable into the United States if, based on findings of a pest risk analysis, we determine that the measures can mitigate the plant pest risk associated with the importation of that fruit or vegetable. APHIS then publishes a notice in the **Federal Register** announcing the availability of the pest risk analysis that evaluates the risks associated with the importation of a particular fruit or vegetable. Following the close of the 60-day comment period, APHIS will issue a subsequent **Federal Register** notice announcing whether or not we will authorize the importation of the fruit or vegetable subject to the phytosanitary measures specified in the notice.

In accordance with that process, we published a notice<sup>1</sup> in the **Federal Register** on May 1, 2023 (88 FR 26517, Docket No. APHIS–2023–0023), in which we announced the availability, for review and comment, of a pest risk analysis that evaluated the risks associated with the importation of fresh ginseng roots (*Panax ginseng* C.A. Mey.) from the Republic of Korea into the United States. The pest risk analysis consisted of a pest risk assessment identifying pests of quarantine significance that could follow the pathway of importation of fresh ginseng roots (*Panax ginseng* C.A. Mey.) from the Republic of Korea into the United States and a risk management document (RMD) identifying phytosanitary measures to be applied to that commodity to mitigate the pest risk.

We solicited comments on the notice for 60 days ending on June 30, 2023. We received no comments.

Therefore, in accordance with the regulations in § 319.56–4(c)(3)(iii), we are announcing our decision to

authorize the importation of fresh ginseng roots (*Panax ginseng* C.A. Mey.) from the Republic of Korea into the United States subject to the phytosanitary measures specified in the RMD that accompanied the initial notice.

These conditions will be listed in the U.S. Department of Agriculture’s, APHIS Agricultural Commodity Import Requirements (ACIR) database (<https://acir.aphis.usda.gov/s/>).<sup>2</sup> In addition to these specific measures, each shipment will be subject to the general requirements listed in § 319.56–3 that are applicable to the importation of all fruits and vegetables.

#### Paperwork Reduction Act

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the recordkeeping and burden requirements associated with this action are included under the Office of Management and Budget control number 0579–0049.

#### E-Government Act Compliance

The Animal and Plant Health Inspection Service is committed to compliance with the E-Government Act to promote the use of the internet and other information technologies, to provide increased opportunities for citizen access to Government information and services, and for other purposes. For information pertinent to E-Government Act compliance related to this notice, please contact Mr. Joseph Moxey, APHIS’ Paperwork Reduction Act Coordinator, at (301) 851–2533.

*Authority:* 7 U.S.C. 1633, 7701–7772, and 7781–7786; 21 U.S.C. 136 and 136a; 7 CFR 2.22, 2.80, and 371.3.

Done in Washington, DC, this 13th day of June 2024.

**Michael Watson,**

*Administrator, Animal and Plant Health Inspection Service.*
