ecological and economic integrity of the area.

The SMAC's Public Lands Access Subcommittee was established in 2015 and serves to research, discuss, and evaluate any access issue in the Steens Mountain CMPA. Issues could relate to parking, hiking, motorized or non-motorized use, public to private land inholding routes and methods of travel, private to public land access by way of easement or other agreement, or purchase or exchange of public and private land for improved access and contiguous landscape. The Subcommittee reviews all aspects of any access issue, formulates suggestions for remedy, and proposes those solutions to the entire SMAC for further discussion and possible recommendation to the BLM.

Sessions may end early if all business items are accomplished ahead of schedule or may be extended if discussions warrant more time.
