

comments (identified as such) should be included. Any comments not marked as privileged or confidential business information will be deemed to be nonconfidential.

An original and five (5) copies, plus two (2) copies of the nonconfidential version, should be submitted no later than 20 days after the date of this notice to: Export Trading Company Affairs, International Trade Administration, U.S. Department of Commerce, Room 7025, Washington, DC 20230.

Information submitted by any person is exempt from disclosure under the Freedom of Information Act (5 U.S.C. 552). However, nonconfidential versions of the comments will be made available to the applicant if necessary for determining whether or not to issue the Certificate. Comments should refer to this application as "Export Trade Certificate of Review, application number 84-23A12."

The Northwest Fruit Exporters' ("NWF") original Certificate was issued on June 11, 1984 (49 FR 24581, June 14, 1984), and last amended on August 12, 2011 (76 FR 55010). A summary of the current application for an amendment follows.

Summary of the Application

Applicant: Northwest Fruit Exporters, 105 South 18th Street, Suite 227, Yakima, WA 98901. Contact: James R. Archer, Manager, (509) 576-8004.

Application No.: 84-23A12.

Date Deemed Submitted: October 3, 2012.

Proposed Amendment: NWF seeks to amend its Certificate to:

1. Add the following companies as new Members of the Certificate within the meaning of section 325.2(l) of the Regulations (15 CFR 325.2(l)): Crown Packing, LLC (Wenatchee, WA); HoneyBear Growers, Inc. (Brewster, WA); and Jenks Bros Cold Storage & Packing (Royal City, WA); and

2. Remove the following companies as Members of NWF's Certificate: J & D Packing, LLC (Outlook, WA); Oregon Cherry Growers (Salem, OR); and Prentice Packing & Storage (Yakima, WA); and

3. Change the name of the following member: Conrad & Adams Fruit LLC of Grandview, WA is now Conrad & Adams Fruit L.L.C.

Dated: October 5, 2012.

Praveen Dixit,

Deputy Assistant Secretary for Industry Analysis.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XC058

Endangered Species; File No. 16803

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Issuance of permit.

SUMMARY: Notice is hereby given that NMFS Southwest Fisheries Science Center (SWFSC), 8901 La Jolla Shores Drive, La Jolla, CA 92037, [Responsible Party: Lisa Ballance, Ph.D.] has been issued a permit to take green (*Chelonia mydas*), loggerhead (*Caretta caretta*), and olive ridley (*Lepidochelys olivacea*) sea turtles for purposes of scientific research.

ADDRESSES: The permit and related documents are available for review upon written request or by appointment in the following offices:

Permits and Conservation Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301) 427-8401; fax (301) 713-0376; and

Southwest Region, NMFS, 501 West Ocean Blvd., Suite 4200, Long Beach, CA 90802-4213; phone (562) 980-4001; fax (562) 980-4018.

FOR FURTHER INFORMATION CONTACT:

Amy Hapeman or Colette Cairns, (301) 427-8401.

SUPPLEMENTARY INFORMATION: On June 11, 2012, notice was published in the **Federal Register** (77 FR 34349) that a request for a scientific research permit to take loggerhead, green, and olive ridley sea turtles had been submitted by the above-named organization. The requested permit has been issued under the authority of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226).

The SWFSC has been issued a 5-year permit to take sea turtles in San Diego Bay, California. The purpose of the work is to determine their abundance, size ranges, growth, sex ratio, health status, diving behavior, local movements, habitat use, and migration routes. Up to 50 green, five olive ridley, and five loggerhead sea turtles may be captured annually by entanglement or seine netting and have the following procedures performed before release: Photography/video; carapace marking; flipper tagging and passive integrated

transponder tagging; ultrasound; morphometrics; tetracycline injection; fecal, scute, blood and tissue sampling; cloacal and oral swabbing; lavage; and attachment of up to two transmitters. Animals with transmitters may be tracked by vessel after release.

Issuance of this permit, as required by the ESA, was based on a finding that such permit (1) Was applied for in good faith, (2) will not operate to the disadvantage of such endangered or threatened species, and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.

Dated: October 5, 2012.

P. Michael Payne,

Chief, Permits and Conservation Division, Office of Protected Resources, National Marine Fisheries Service.

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

United States Patent and Trademark Office

Submission for OMB Review; Comment Request

The United States Patent and Trademark Office (USPTO) will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. 35).

Agency: United States Patent and Trademark Office (USPTO).

Title: Patents External Quality Survey (formerly Customer Panel Quality Survey).

Form Number(s): None.

Agency Approval Number: 0651-0057.

Type of Request: Extension of a currently approved collection.

Burden: 527 hours annually.

Number of Respondents: 3,100 responses per year, with an estimated 75 surveys submitted by small entities. Out of a sample size of 3,100 for each wave of data collection, the USPTO estimates that 1,550 completed surveys will be received, for a response rate of 50%. This estimate was based on the response rates of the previous survey waves that the USPTO has conducted. Each year of the survey will include two waves of data collection with an estimated 3,100 completed surveys received annually (1,550 completed surveys × 2 waves of the survey). Of this total, the USPTO estimates that 15% (465) of the surveys will be returned by mail and that 85% (2,635) of the surveys will be completed using the online option.

Avg. Hours per Response: The USPTO estimates that it takes the public approximately ten minutes (0.17 hours) to complete either the paper or online version of this survey. This estimated time includes gathering the necessary information, completing the survey, and submitting the completed survey to the USPTO.

Needs and Uses: Individuals who work at firms that file more than six patent applications a year use the Patents External Quality Survey to provide the USPTO with their perceptions of examination quality. The USPTO uses the feedback gathered from the survey to assist them in targeting key areas for examination quality improvement and to identify important areas for examiner training.

Affected Public: Individuals or households; businesses or other for-profits; and non-profit institutions.

Frequency: Semi-annually.

Respondent's Obligation: Voluntary.

OMB Desk Officer: Nicholas A. Fraser, email:

Nicholas_A_Fraser@omb.eop.gov.

Once submitted, the request will be publicly available in electronic format through the Information Collection Review page at www.reginfo.gov.

Paper copies can be obtained by:

- *Email:*

InformationCollection@uspto.gov. Include "0651-0057 copy request" in the subject line of the message.

- *Mail:* Susan K. Fawcett, Records Officer, Office of the Chief Information Officer, United States Patent and Trademark Office, P.O. Box 1450, Alexandria, VA 22313-1450.

Written comments and recommendations for the proposed information collection should be sent on or before November 13, 2012 to Nicholas A. Fraser, OMB Desk Officer, via email to *Nicholas_A_Fraser@omb.eop.gov*, or by fax to 202-395-5167, marked to the attention of Nicholas A. Fraser.

Dated: October 5, 2012.

Susan K. Fawcett,

Records Officer, USPTO, Office of the Chief Information Officer.

BILLING CODE 3510-16-P

DEPARTMENT OF DEFENSE

Department of the Navy

Notice of Intent To Prepare a Supplemental Environmental Impact Statement for the Guam and Commonwealth of the Northern Mariana Islands Military Relocation (2012 Roadmap Adjustments) and Notice of Public Scoping Meetings

AGENCY: Department of the Navy, DoD.

ACTION: Notice.

SUMMARY: Pursuant to Section 102(2)(c) of the National Environmental Policy Act (NEPA) of 1969, as implemented by the Council on Environmental Quality Regulations (40 CFR parts 1500-1508), the Department of the Navy (DoN) announces its intent to expand the scope of the ongoing Supplemental Environmental Impact Statement (SEIS) for a live-fire training range complex on Guam to evaluate the potential environmental consequences from construction and operation of a main cantonment area, including family housing, and associated infrastructure on Guam to support the relocation of a substantially reduced number of Marines than previously analyzed. This SEIS will supplement the Final EIS for the "Guam and Commonwealth of the Northern Mariana Islands Military Relocation; Relocating Marines from Okinawa, Visiting Aircraft Carrier Berthing, and Army Air and Missile Defense Task Force" dated July 2010.

Pursuant to 40 CFR 1502.9(c), the SEIS is being prepared for the limited purpose of supplementing the 2010 Final EIS regarding the establishment of a live-fire training range complex, a main cantonment area, including family housing, and associated infrastructure on Guam.

The purpose and need for the proposed action is to ensure that the relocated Marines are organized, trained, and equipped as mandated in Section 5063 of Title 10 of the U.S. Code, to satisfy individual live-fire training requirements as described in the Final EIS and associated Record of Decision (ROD), and to establish an operational U.S. Marine Corps (USMC) presence in Guam in accordance with April 2012 adjustments to the May 2006 United States-Japan Roadmap for Realignment Implementation (Roadmap).

The proposed action that will be analyzed in the SEIS is to construct and operate a live-fire training range complex on Guam that allows for simultaneous use of all firing ranges to support training and operations of the

relocated Marines, and a main cantonment area of sufficient size and layout to provide military support functions, including family housing. The proposed action also includes the construction of utilities and infrastructure to support the range complex, main cantonment, and housing.

The live-fire training range complex will consist of a Known Distance (KD) rifle range, a KD pistol range, a Modified Record of Fire Range, a nonstandard small arms range, a Multipurpose Machine Gun (MPMG) range, and a hand grenade range. The main cantonment area will provide military support functions (also known as base operations and support) to the relocated Marines. Such functions include, but are not limited to, headquarters and administrative support, bachelor housing, family housing, supply, maintenance, open storage, community support (e.g., retail, education, recreation, medical, and day care), some site-specific training, and open space (e.g., parade grounds, open training areas, and open green space in communities). The proposed action also includes the utilities and infrastructure required to support the range, cantonment, and housing areas.

The DoN has identified seven (7) preliminary alternative locations for the live-fire training range complex: Two are adjacent to Route 15 in northeastern Guam, three are located at or immediately adjacent to the Naval Magazine (NAVMAG), also known as the Naval Munitions Site, one is located at Andersen Air Force Base (AAFB) Northwest Field in northern Guam, and one is located at Naval Computer and Telecommunications Station (NCTS) Finegayan on the northwest coast of Guam. The DoN has identified five (5) preliminary alternatives for the main cantonment/family housing: AAFB, NCTS Finegayan, NCTS Finegayan (main cantonment)/South Finegayan Navy Housing (family housing), Navy and Air Force Barrigada in the central area of Guam, and Naval Base Guam in the Apra Harbor area.

The preliminary alternatives may continue to evolve as the DoN considers public and regulatory agency input through the NEPA process. For example, the DoN is currently working with the Federal Aviation Administration (FAA) to determine whether airspace impacts would render an otherwise preliminary alternative untenable. Should the FAA conclude that an alternative's conflicts with existing airspace are unmitigatable, that preliminary alternative would not be carried forward for evaluation in the SEIS.
