Title: Certification: Mechanics, Repairman, Parachute Riggers FAR-65.

Form Numbers: FAA Form 8610-1, FAA Form 8610-2, FAA Form 8610-3.

Type of Review: Renewal of an information collection.

Background: 14 CFR part 65 prescribes, among other things, rules governing the issuance of certificates

and associated ratings for mechanics, repairmen, parachute riggers, and the issuance and renewal of inspection authorizations. The information is collected on forms submitted by applicants for mechanic, repairman, or parachute rigger certificates, or applicants for an inspection authorization. The information is used for evaluation by the FAA, and is necessary for determining eligibility for issuance of a certificate, rating, or authorization.

Applicants for a light-sport repairman certificate must complete a prescribed number of training hours, based on the repairman rating and class of aircraft being applied for. Parachute riggers must maintain records of the packing, maintenance, and alteration of parachutes performed or supervised by the parachute rigger. Applicants who fail a required certification test, and who test within 30 days of that test failure, must present a signed statement certifying that the applicant has received additional instruction in each of the subjects failed.

A new FAA form is being proposed for repairman applications. In lieu of repairman applicant information being collected on FAA Form 8610-2 as currently required, it will be collected on a new FAA Form 8610-3.

Respondents: 37,350 mechanic, parachute rigger, and repairmen applicants.

Frequency: On occasion.

Estimated Average Burden per Response: 20 Minutes.

Estimated Total Annual Burden: 40,000 Hours.
