SUPPLEMENTARY INFORMATION:

I. Abstract

The Foreign Trade Zones Application is the vehicle by which individual firms or organizations apply for foreign-trade zone (FTZ) status, for subzone status, or for expansion of an existing zone. The FTZ Act and Regulations require that an application with a description of the

proposed project be made to the FTZ Board (19 U.S.C. 81b and 81f; 15 CFR 400.24–26) before a license can be issued or a zone can be expanded. The Act and Regulations require that applications contain detailed information on facilities, financing, operational plans, proposed manufacturing operations, need, and economic impact. Manufacturing activity in zones, which is primarily conducted in subzones, can involve issues related to domestic industry and trade policy impact. Such applications must include specific information on the Customs-tariff related savings that result from zone procedures and the economic consequences of permitting such savings. The FTZ Board needs complete and accurate information on the proposed operation and its economic effects because the Act and Regulations authorize the Board to restrict or prohibit operations that are detrimental to the public interest.

II. Method of Collection

U.S. firms or organizations submit applications to the Foreign-Trade Zones Board.

I. Abstract

The Foreign-Trade Zone Annual Report is the vehicle by which Foreign Trade Zone (FTZ) grantees report annually to the Foreign Trade Zones Board, pursuant to the requirements of the Foreign Trade Zones Act (19 U.S.C. 81a–81u). The annual reports submitted by grantees are the only complete source of compiled information on FTZ's. The

data and information contained in the reports relates to international trade activity in FTZ's. The reports are used by the Congress and the Department to determine the economic effect of the FTZ program. The reports are also used by the FTZ Board and other trade policy officials to determine whether zone activity is consistent with U.S. international trade policy, and whether it is in the public interest. The public uses the information regarding activities carried on in FTZ's to evaluate their effect on industry sectors. The information contained in annual reports also helps zone grantees in their marketing efforts.
