Motorola Energy Systems Group, Harvard, IL; Notice of Termination of Certification

This notice terminates the Certification Regarding Eligibility to Apply For Worker Adjustment Assistance issued by the Department on March 12, 2001, applicable to workers of the subject firm. The notice will soon be published in the **Federal Register**.

The Department, on its own motion, reviewed the worker certification. Findings show that on August 2, 2000, the Department issued a determination applicable to all workers of Motorola, Inc., Energy Systems Group, Harvard, Illinois (TA-W-37,850). Workers who became totally or partially separated from employment on or after June 10, 1999, through August 2, 2002, are eligible to apply for worker adjustment assistance program benefits.

Based on this new information, the Department is terminating the certification for petition number TA-W-38,850. Further coverage for workers under this certification would serve no purpose, and the certification has been terminated.

Paper, Calmenson & Company, Blades Division, Bucyrus, OH; Notice of Revised Determination on Reconsideration

On February 20, 2001, the Department issued a Notice of Affirmative Determination Regarding Application for Reconsideration applicable to workers and former workers of the subject firm. The notice was published in the **Federal Register** on March 2, 2001 (66 FR 13088).

The initial investigation for workers producing ground engaging tools at Paper, Calmenson & Company, Blades Division, Bucyrus, Ohio, revealed that sales, production and employment all increased prior to the August 2000, sale of the firm to Bucyrus Blades, Inc. The plant ceased production in October 2000.

On reconsideration, the import data submitted to the Department show that a portion of the plant production was replaced by imports of articles like or directly competitive with those produced at the subject firm.

Conclusion

After careful review of the additional facts obtained on reconsideration, I conclude that increased imports of articles like or directly competitive with ground engaging tools, contributed importantly to the declines in sales or production and to the total or partial separation of workers of Paper, Calmenson & Company, Blades Division, Bucyrus, Ohio. In accordance with the provisions of the Act, I make the following certification:

All workers of Paper, Calmenson & Company, Blades Division, Bucyrus, Ohio, who became totally or partially separated from employment on or after September 22, 1999, through two years from the date of certification, are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

The Employment and Training Administration interprets Federal law requirements pertaining to foreign labor certification as part of its role in the administration of the H-2A temporary alien agricultural labor certification program. These interpretations are issued in General Administration Letters (GAL's) to the State Employment Security Agencies. The GAL described below is published in the **Federal Register** in order to inform the public.

GAL No. 1-01

GAL No. 1-01, provides policy clarification and procedural guidance for the notification process between employers and the State Employment Security Agency (SESA) regarding worker rejection and termination from H-2A temporary agricultural employment. It also provides answers to questions raised by State Employment Security Agencies and other interested parties.
