

more than 10 percent greater than the baseline length overall of the transferor vessel. For the purposes of this program, the baseline horsepower and length overall are those associated with the permit as of January 29, 2004. Upon approval of the transfer, the baseline of the transferee vessel would be the smaller baseline of the two vessels or the vessel owner could choose to adopt the larger baseline of the two vessels provided such an upgrade is consistent with provisions of this paragraph (l)(1)(ii). A vessel that has executed a one-time downgrade of a DAS Leasing Program baseline in accordance with paragraph (k)(4)(xi) of this section is subject to the restrictions of paragraph (k)(4)(xi)(C) of this section.

(iii) The transferor vessel must transfer all of its Federal limited access permits for which it is eligible to the transferee vessel in accordance with the vessel replacement restrictions under § 648.4, or permanently cancel such permits. When duplicate permits exist, *i.e.*, those permits for which both the transferor and transferee vessel are eligible, one of the duplicate permits must be permanently cancelled.

### National Oceanic and Atmospheric Administration

#### 50 CFR Part 679

[Docket No. 141021887-5172-02]

RIN 0648-XE139

#### Fisheries of the Exclusive Economic Zone Off Alaska; Reallocation of Pacific Cod in the Bering Sea and Aleutian Islands Management Area

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Temporary rule; reallocation.

**SUMMARY:** NMFS is reallocating the projected unused amount of Pacific cod from vessels using jig gear and catcher vessels greater than or equal to 60 feet (18.3 meters) length overall (LOA) using hook-and-line gear to catcher vessels less than 60 feet (18.3 meters) LOA using hook-and-line or pot gear in the Bering Sea and Aleutian Islands management area. This action is necessary to allow the 2015 total allowable catch of Pacific cod to be harvested.

**DATES:** Effective August 21, 2015 through 2400 hours, Alaska local time (A.l.t.), December 31, 2015.

**FOR FURTHER INFORMATION CONTACT:** Obren Davis, 907-586-7228.

**SUPPLEMENTARY INFORMATION:** NMFS manages the groundfish fishery in the Bering Sea and Aleutian Islands (BSAI) according to the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The 2015 Pacific cod total allowable catch (TAC) specified for vessels using jig gear in the BSAI is 1,418 metric tons (mt) as established by the final 2015 and 2016 harvest specifications for groundfish in the BSAI (80 FR 11919, March 5, 2015) and one inseason adjustment (80 FR 3496, January 23, 2015).

The Administrator, Alaska Region, NMFS, (Regional Administrator) has determined that jig vessels will not be able to harvest 1,318 mt of the remaining 2015 Pacific cod TAC allocated to those vessels under § 679.20(a)(7)(ii)(A)(1). Therefore, in accordance with § 679.20(a)(7)(iii)(A), NMFS apportions 1,318 mt of Pacific cod to the annual amount specified for catcher vessels less than 60 feet LOA using hook-and-line or pot gear.

The 2015 Pacific cod TAC specified for catcher vessels greater than or equal to 60 feet LOA using hook-and-line gear in the BSAI is 444 mt as established by the final 2015 and 2016 harvest specifications for groundfish in the BSAI (80 FR 11919, March 5, 2015). The Regional Administrator has determined that catcher vessels greater than or equal to 60 feet LOA using hook-and-line gear will not be able to harvest 424 mt of the remaining 2015 Pacific cod TAC allocated to those vessels under § 679.20(a)(7)(ii)(A)(3). Therefore, in accordance with § 679.20(a)(7)(iii)(A), NMFS apportions 424 mt of Pacific cod to catcher vessels less than 60 feet LOA using hook-and-line or pot gear.

The harvest specifications for Pacific cod included in the final 2015 harvest specifications for groundfish in the BSAI (80 FR 11919, March 5, 2015) and inseason adjustment (80 FR 3496, January 23, 2015) are revised as follows: 100 mt for vessels using jig gear, 20 mt for catcher vessels greater than or equal to 60 feet LOA using hook-and-line gear, and 7,880 mt to catcher vessels less than

60 feet LOA using hook-and-line or pot gear.

#### Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such requirement is impracticable and contrary to the public interest. This requirement is impracticable and contrary to the public interest as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay the reallocation of Pacific cod specified from other sectors to catcher vessels less than 60 feet LOA using hook-and-line or pot gear. Since the fishery is currently open, it is important to immediately inform the industry as to the revised allocations. Immediate notification is necessary to allow for the orderly conduct and efficient operation of this fishery, to allow the industry to plan for the fishing season, and to avoid potential disruption to the fishing fleet as well as processors. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of August 20, 2015.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

This action is required by § 679.20 and is exempt from review under Executive Order 12866.

**Authority:** 16 U.S.C. 1801 *et seq.*

Dated: August 21, 2015.

**Alan D. Risenhoover,**

*Director, Office of Sustainable Fisheries,  
National Marine Fisheries Service.*
