

*Antidumping Duty Administrative Review*, 73 FR 18749 (April 7, 2008). The current deadline for the final results of this review is August 5, 2008.

#### **Extension of Time Limit for Final Results of Review**

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), requires the Department to issue the final results in an administrative review within 120 days after the date on which the preliminary results were published. However, if it is not practicable to complete the review within this time period, section 751(a)(3)(A) of the Act allows the Department to extend the time limit for the final results up to 180 days from the date of publication of the preliminary results.

The Department finds that it is not practicable to complete the review within the original time frame due to the further analysis required in this case. In particular, the Department requested further information on Saha Thai's claim for a duty drawback adjustment, and the Department must consider Saha Thai's response, which was received after the issuance of the preliminary results. Therefore, completion of this review is not practicable by the original due date of August 5, 2008. Consequently, in accordance with section 751(a)(3)(A) of the Act and section 351.213(h)(2) of the Department's regulations, the Department is extending the time limit for the completion of the final results of the review for an additional 60 days. Since the 60-day extension would result in the deadline for the final results falling on October 4, 2008, which is a Saturday, the new deadline for the final results will be the next business day, October 6, 2008. *See Notice of Clarification: Application of "Next Business Day" Rule for Administrative Determination Deadlines Pursuant to the Tariff Act of 1930, As Amended*, 70 FR 24533 (May 10, 2005).

This notice is issued and published in accordance with sections 751(a)(3)(A) and 777(i)(1) of the Act.

Dated: July 16, 2008.

**SUPPLEMENTARY INFORMATION:** On October 10, 2007, notice was published in the **Federal Register** (72 FR 57523) that a request for a permit to conduct research on the species identified above had been submitted by the above-named applicant. The requested permit has been issued under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226).

The permit authorizes the permit holder to closely approach and collect fecal samples from southern resident killer whales. The purpose of the research is to investigate the impacts of prey availability, toxins, and vessel traffic on killer whales using hormone fecal analysis.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an environmental assessment (EA) was prepared analyzing the effects of the permitted activities on the human environment. Based on the analyses in the EA, NMFS determined

that issuance of the permit would not significantly impact the quality of the human environment and that preparation of an environmental impact statement was not required. That determination is documented in a Finding of No Significant Impact (FONSI), signed on July 8, 2008.

Issuance of this permit, as required by the ESA, was based on a finding that such permit: (1) Was applied for in good faith; (2) will not operate to the disadvantage of such endangered species; and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.
