

vegetation species; invasive vegetation species; native wildlife; sensitive wildlife species; invasive wildlife species; and the United Nations Education, Scientific, and Cultural Organization (UNESCO) Biosphere Reserve near La Palma, Canary Islands (Alternative 3). Geological resources will be analyzed for potential impacts on geology, soils, and topography, including slope stability. Water resources will be evaluated for potential impacts on surface water, groundwater, and stormwater. The public services and utilities evaluation will include an analysis of potential impacts on power, communications, potable water, wastewater, and solid waste. Traffic and transportation will be analyzed for potential impacts on traffic and roadway conditions. Additional resources analyzed for potential impacts will include hazardous materials and waste, climate change, air quality, and noise. The level of review in the EIS will be proportionate with the anticipated level of effects on each resource from the Proposed Action and Action Alternatives. The EIS will analyze measures that would avoid, minimize, or mitigate potential environmental effects. Based on a preliminary evaluation of these resources, NSF expects the EIS to identify adverse effects on cultural/archaeological resources, biological resources, visual resources, and geological resources. Adverse effects to additional resources, as well as potential beneficial effects (e.g., on socioeconomics), will likely be identified based on public input and the result of any new studies or analyses.

NSF may conduct additional studies to inform the environmental review process, including a cultural resources study, archaeology survey, and ethnographic research; updated visual modeling; economic modeling; an environmental justice assessment (Hawaiian homeland locations); updated species/habitat surveys; a geology survey; a surface water/groundwater study; migratory bird study; and a contamination assessment.

In addition to NEPA, federal permits and other federal authorizations will be required. These processes, as well as consultation under Section 106 of the NHPA and Section 7 of the Endangered Species Act, as appropriate, will occur concurrently with the NEPA process. Other authorizations may be required pursuant to the Coastal Zone Management Act, the Migratory Bird Treaty Act, the Clean Water Act, the Rivers and Harbors Act, and the Clean Air Act. Because of the international location of Alternative 3, NSF would apply the provisions of Executive Order

12114, *Environmental Effects Abroad of Major Federal Actions* in analyzing that Alternative.

NSF Environmental Review Timeline

The following is a list of milestones and anticipated timeframes for the EIS and Section 106 processes:

- Scoping period will occur from July 19, 2022 through September 17, 2022.
- A draft plan for any needed resource studies/analyses will be posted to the NSF web page (<https://beta.nsf.gov/tmt>) for additional public comment in Fall/Winter 2022.
- NSF will finalize the CEP based on public input (target late 2022) and implement the measures identified therein throughout the remainder of the process.
- NSF will host a workshop to help inform Alternative 2 and the Section 106 process in Winter 2022/2023.
- Section 106 consulting parties will meet to consult on the Area of Potential Effects and identify historic properties during Winter 2022/2023.
- NSF will conduct any necessary studies and analyses and prepare the Draft EIS between Winter 2022 and Summer 2023.
- The Draft EIS and accompanying public comment period, including public meetings, are anticipated in Summer 2023; NSF will continue to meet with consulting parties, pursuant to Section 106, to identify and resolve adverse effects to historic properties between Summer 2023 and Spring/Summer 2024.
- Final EIS is anticipated in Spring/Summer 2024.
- Record of Decision is anticipated in Fall 2024.

NSF will not make a funding decision until after it considers the following:

- Public input.
- Environmental review of the telescope.
- Project's technical readiness.
- Project proponent's management capabilities.
- Availability of federal funding.
- Telescope's alignment with other NSF priorities.

(Please note that a decision by NSF not to go forward with an investment in the construction and operations of TMT could be made at any time, including before the EIS process has concluded.)

Proposal Information: Information will be posted throughout the EIS process at <https://beta.nsf.gov/tmt>.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-95270; File No. SR-FINRA-2022-013]

Self-Regulatory Organizations; Financial Industry Regulatory Authority, Inc.; Notice of Designation of a Longer Period for Commission Action on a Proposed Rule Change To Amend FINRA Rule 6730 To Enhance TRACE Reporting Obligations for U.S. Treasury Securities

July 13, 2022.

On May 23, 2022, the Financial Industry Regulatory Authority, Inc. ("FINRA") filed with the Securities and Exchange Commission ("Commission"), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² a proposed rule change to amend FINRA Rule 6730 to enhance Trade Reporting and Compliance Engine (TRACE) reporting obligations for U.S. Treasury Securities. The proposed rule change was published for comment in the **Federal Register** on June 3, 2022.³

Section 19(b)(2) of the Act⁴ provides that, within 45 days of the publication of notice of the filing of a proposed rule change, or within such longer period up to 90 days as the Commission may designate if it finds such longer period to be appropriate and publishes its reasons for so finding or as to which the self-regulatory organization consents, the Commission shall either approve the proposed rule change, disapprove the proposed rule change, or institute proceedings to determine whether the proposed rule change should be disapproved. The 45th day after publication of the notice for this proposed rule change is July 18, 2022.

The Commission is extending this 45-day time period. The Commission finds that it is appropriate to designate a longer period within which to take action on the proposed rule change in order to consider the proposed rule change and the comments received. Accordingly, pursuant to Section 19(b)(2) of the Act,⁵ the Commission designates September 1, 2022, as the date by which the Commission shall approve or disapprove, or institute proceedings to determine whether to

disapprove, the proposed rule change (File No. SR-FINRA-2022-013).

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.⁶

J. Matthew DeLesDernier,
Assistant Secretary.
