

result from the installation of the on farm conservation measures, no other alternatives, other than the no action alternative, were considered.

Consultation—Public Participation

On June 17, 1996, the North Platte Valley Conservation District, and the Lingle-Fort Laramie Conservation District Boards of Supervisors, filed an application for Pub. L. 83-566 assistance in developing a plan for the Goshen County, Lingle-Ft. Laramie Water Quality Project. The State of Wyoming Governor's Office referred the application to the Wyoming Board of Agriculture for ranking and approval. On September 18, 2000, the board gave the project a ranking of high and approved the request to be submitted to the NRCS. Acceptance was acknowledged by the State Conservationist, and appropriate agencies and Sponsors were notified. The town of Torrington and the Goshen County Commissioners were later added to the list of Sponsors.

The Sponsors held two interagency and two public meetings to determine the extent of the problem. The Sponsors requested that NRCS analyze alternative solutions and prepare a preliminary investigation report. In September 2000, a preliminary investigation report was completed for the Lingle-Ft. Laramie Water Quality Project.

Numerous newspaper articles, newsletters, and radio public service announcements have been aired in order to provide public information. Public meetings, with the news media in attendance, were held to gain public input and inform the public.

On October 24, 1996, an interagency meeting was held to determine concerns of the other agencies.

June 14, 2000, a public scoping meeting was held to determine public concerns and opinions. A public response analysis was completed on the responses.

On October 18, 2000, another public meeting was held to review the alternatives developed and obtain further public input.

On June 11, 2001, the Sponsors met to review the Draft Plan-EA.

On July 25, 2002, the Sponsors held a public meeting to begin the Public/Interagency review of the Draft Plan-EA. Written comments were requested from agencies, organizations, and groups identified in the planning process as interested. The comments were reviewed and responses prepared on each comment. The comments and responses are contained in the Final Plan Environmental Assessment.

Written comments were requested from 70 agencies, organizations, and groups identified in the planning process.

Agency consultation and public participation to date have shown no unresolved conflicts with the implementation of the selected plan. Section 7(a)(2) of the Endangered Species Act of 1973, as amended (50 CFR 402.13) consultation has been completed and incorporated.

Conclusion

The Environmental Assessment summarized above indicates that this federal action will not cause significant local, regional, or national impacts on the environment. Therefore, based on the above findings, I have determined that an environmental impact statement for the Lingle-Ft. Laramie Water Quality Project Plan is not required.
