

Fox River) (Eligible Chugach Communities: Port Graham, Nanwalek):

(i) Season: April 2–May 31 and July 1–August 31.

(ii) Closure: June 1–30.

(k) *Cook Inlet* (Harvest area: portions of Unit 16[B] as specified below)

(Eligible communities: Tyonek only):

(1) Season: April 2–May 31—That portion of Unit 16(B) south of the Skwentna River and west of the Yentna River, and August 1–31—That portion of Unit 16(B) south of the Beluga River, Beluga Lake, and the Triumvirate Glacier.

(2) Closure: June 1–July 31.

(l) *Southeast Alaska*.

(1) Community of Hoonah (Harvest area: National Forest lands in Icy Strait and Cross Sound, including Middle Pass Rock near the Inian Islands, Table Rock in Cross Sound, and other traditional locations on the coast of Yakobi Island. The land and waters of Glacier Bay National Park remain closed to all subsistence harvesting (50 CFR Part 100.3(a)):

(i) Season: glaucous-winged gull egg gathering only: May 15–June 30.

(ii) Closure: July 1–August 31.

(2) Communities of Craig and Hydaburg (Harvest area: small islands and adjacent shoreline of western Prince of Wales Island from Point Baker to Cape Chacon, but also including Coronation and Warren islands):

(i) Season: glaucous-winged gull egg gathering only: May 15–June 30.

(ii) Closure: July 1–August 31.

(3) Community of Yakutat (Harvest area: Icy Bay (Icy Cape to Point Riou), and coastal lands and islands bordering the Gulf of Alaska from Point Manby southeast to Dry Bay):

(i) Season: glaucous-winged gull egg gathering only: May 15–June 30.

(ii) Closure: July 1–August 31.

■ 4. Amend subpart D by adding § 92.32 to read as follows:

#### **§ 92.32 Emergency regulations to protect Steller's eiders.**

Upon finding that continuation of these subsistence regulations would pose an imminent threat to the conservation of threatened Steller's eiders (*Polysticta stelleri*), the U.S. Fish and Wildlife Service Alaska Regional Director, in consultation with the Co-management Council, will immediately under § 92.21 take action as is necessary to prevent further take. Regulation changes implemented could range from a temporary closure of duck hunting in a small geographic area to large-scale regional or Statewide long-term closures of all subsistence migratory bird hunting. These closures or temporary suspensions will remain in effect until

the Regional Director, in consultation with the Co-management Council, determines that the potential for additional Steller's eiders to be taken no longer exists.

Dated: November 22, 2013.

**Michael J. Bean,**

*Acting Principal Deputy Assistant Secretary for Fish and Wildlife and Parks.*

#### **50 CFR Part 635**

[Docket No. 120328229–3656–01]

**RIN 0648–BC09**

#### **Atlantic Highly Migratory Species; 2006 Consolidated Highly Migratory Species Fishery Management Plan; Amendment 7; Reopening of Comment Period**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Proposed rule; Reopening of comment period.

**SUMMARY:** On August 21, 2013, NMFS published the proposed rule for Draft Amendment 7 to the 2006 Consolidated Highly Migratory Species (HMS) Fishery Management Plan (FMP) to control bluefin incidental catch (landings and dead discards) in the pelagic longline fishery, enhance reporting in all categories, and ensure U.S. compliance with the ICCAT-recommended quota. As described in the proposed rule, the proposed measures include Allocation measures, Area-Based measures, Bluefin Quota Controls, Enhanced Reporting measures, and other measures that modify rules with respect to how the various quota categories utilize quota. In the proposed rule, NMFS announced the end of the comment period as October 23, 2013, which would allow an approximately 60-day comment period. On September 18, 2013, NMFS extended the comment period through December 10, 2013, in order to provide additional opportunities for the public and other interested parties to comment on the proposed rule, and to provide adequate time for constituents to consider potential changes to the regulatory environment resulting from any new recommendations by the International Commission for the Conservation of Atlantic Tunas at its

November 2013 meeting. However, due to the government shutdown and NMFS' inability to respond to constituents on this complex rule during that time frame and based on the comments received to date requesting an extension due to the complexity and interplay of the measures covered in the DEIS, NMFS is reopening the comment period for this action until January 10, 2014, to provide additional opportunity for informed public comment.

**DATES:** The deadline for comments on the proposed rule published at 78 FR 52032 has been reopened from December 10, 2013 to January 10, 2014.

**ADDRESSES:** You may submit comments on the proposed rule, as published on August 21, 2013 (78 FR 52032), identified by “NOAA–NMFS–2013–0101,” by any of the following methods:

- **Electronic Submissions:** Submit all electronic public comments via the Federal eRulemaking Portal. Go to [www.regulations.gov/#/docketDetail;D=NOAA-NMFS-2013-0101](http://www.regulations.gov/#/docketDetail;D=NOAA-NMFS-2013-0101), click the “Comment Now!” icon, complete the required fields, and enter or attach your comments. Do not submit electronic comments to individual NMFS staff.

- **Mail:** Submit written comments to: Thomas Warren, Highly Migratory Species Management Division, NMFS, 55 Great Republic Drive, Gloucester, MA 01930. Please mark the outside of the envelope “Comments on Amendment 7 to the HMS FMP.”

- **Fax:** 978–281–9347, Attn: Thomas Warren.

**Instructions:** Comments must be submitted by one of the above methods to ensure that the comments are received, documented, and considered by NMFS. Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered. All comments received are a part of the public record and generally will be posted for public viewing on [www.regulations.gov](http://www.regulations.gov) without change. All Personal Identifying Information (for example, name, address, etc.), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. Do not submit Confidential Business Information or otherwise sensitive or protected information. NMFS will accept anonymous comments (enter “N/A” in the required fields, if you wish to remain anonymous). You may submit attachments to electronic comments in Microsoft Word or Excel, WordPerfect, or Adobe PDF file formats only.

Supporting documents including the draft Environmental Impact Statement (EIS), Regulatory Impact Review (RIR), and Initial Regulatory Flexibility Analysis (IRFA) for this action are available from the Highly Migratory Species Management Division Web site at <http://www.nmfs.noaa.gov/sfa/hms/FMP/AM7.htm> or by sending your request to Thomas Warren at the mailing address or phone numbers specified above.

**FOR FURTHER INFORMATION CONTACT:**

Thomas Warren or Brad McHale at 978–281–9260; Craig Cockrell or Jennifer Cudney at 301–427–8503.

**SUPPLEMENTARY INFORMATION:**

The North Atlantic tuna fisheries are managed under the dual authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) and the Atlantic Tunas Convention Act (ATCA). Under the Magnuson-Stevens Act, NMFS must manage fisheries to maintain optimum yield on a continuing basis while preventing overfishing. ATCA authorizes the Secretary of Commerce (Secretary) to promulgate regulations, as may be necessary and appropriate to carry out recommendations of the International Commission for the Conservation of Atlantic Tunas (ICCAT). The authority to issue regulations under the Magnuson-Stevens Act and ATCA has been delegated from the Secretary to the Assistant Administrator for Fisheries, NMFS. Management of these species is described in the 2006 Consolidated HMS FMP, which is implemented by regulations at 50 CFR part 635. Copies of the 2006 Consolidated HMS FMP and previous amendments are available from the Highly Migratory Species Management Division Web page at

<http://www.nmfs.noaa.gov/sfa/hms/FMP/AM7.htm> or from NMFS on request (see **FOR FURTHER INFORMATION CONTACT**).

NMFS is amending the 2006 Consolidated HMS FMP to address bluefin tuna (BFT) management due to recent trends and characteristics of the bluefin fishery (78 FR 52032). This action is necessary to meet domestic management objectives of the Magnuson-Stevens Fishery Management Act including preventing overfishing, achieving optimum yield, and minimizing bycatch to the extent practicable, as well as the objectives of the ATCA and obligations pursuant to binding recommendations of ICCAT. NMFS takes these actions to reduce bluefin dead discards and account for dead discards in all categories; optimize fishing opportunities in all categories; enhance reporting and monitoring; and adjust other aspects of the 2006 Consolidated HMS FMP as necessary. As described in the proposed rule, the proposed management measures include: (1) Allocation measures that would make modifications to how the U.S. bluefin quota is allocated among the quota categories; (2) area-based measures that would implement restrictions on the use of pelagic longline gear in various time and area combinations, modify gear restrictions, or provide conditional access to current pelagic longline closed areas; (3) bluefin Quota Controls that would strictly limit the total catch (landings and dead discards) of bluefin in the Longline category using different strategies; (4) enhanced reporting measures that would implement a variety of new bluefin reporting requirements; and (5) other measures that would make modifications to the rules that control how the various quota categories utilize

quota, and implement a northern albacore tuna quota.

**Public Comment Reopening**

In the proposed rule, NMFS announced the end of the comment period as October 23, 2013, which allowed an approximate 60-day comment period. On September 18, 2013 (78 FR 57340) NMFS extended the comment period through December 10, 2013, to provide constituents additional time to consider the proposed rule in light of any new recommendations by International Commission for the Conservation of Atlantic Tunas at the November 2013 meeting. However, due to the government shut down and NMFS' inability to respond to constituents on this complex rule during that time frame and based on the comments received to date requesting an extension due to the complexity and interplay of the measures covered in the DEIS, NMFS is reopening the comment period for this action until January 10, 2014, to provide additional opportunity for informed public comment.

These comments will assist NMFS in determining final management measures to conserve and manage the BFT resource and fisheries, consistent with the Magnuson-Stevens Act, ATCA, and the 2006 Consolidated HMS FMP.
