

Arnold is approved, subject to the following conditions:

(1) Prior to completion of the transfer of the license, FPLE Duane Arnold shall provide the Director of the Office of Nuclear Reactor Regulation satisfactory documentary evidence that it has obtained the appropriate amount of insurance required of licensees under 10 CFR Part 140 of the Commission's regulations.

(2) At the time of the closing of the transfer of the license from Interstate Power and Light Company (IPL) to FPLE Duane Arnold, IPL shall transfer to FPLE Duane Arnold IPL's decommissioning funds accumulated as of such time, with an aggregate minimum value of at least \$186 million, and FPLE Duane Arnold shall deposit such funds in an external decommissioning trust fund established by FPLE Duane Arnold for DAEC. FPLE Duane Arnold shall take all necessary steps to ensure that this external trust fund is maintained in accordance with the requirements of this order approving the license transfer, NRC regulations, and consistent with the safety evaluation supporting this order. The trust agreement shall be in a form acceptable to the NRC.

(3) By the date of closing of the transfer of the 70 percent ownership interest in DAEC from IPL to FPLE Duane Arnold, FPLE Duane Arnold shall obtain a parent company guarantee from FPL Group Capital in an initial amount of at least \$75 million (in 2005 dollars) to provide additional decommissioning funding assurance regarding such ownership interest, which guarantee must be in accordance with NRC regulations regarding such documents. Required funding levels shall be recalculated annually and, as necessary, FPLE Duane Arnold shall either obtain appropriate adjustments to the parent guarantee or otherwise provide any additional decommissioning funding assurance necessary for FPLE Duane Arnold to meet NRC requirements under 10 CFR 50.75.

(4) FPLE Duane Arnold shall take no action to cause FPL Group Capital, or its successors and assigns, to void, cancel, or modify its \$50 million contingency commitment to FPLE Duane Arnold, as represented in the application, or cause it to fail to perform or impair its performance under the commitment, without the prior written consent from the NRC. An executed copy of the Support Agreement shall be submitted to the NRC no later than 30 days after completion of the license transfer. Also, FPLE Duane Arnold shall inform the NRC in writing any time that it draws upon the \$50 million commitment.

It is further ordered that, consistent with 10 CFR 2.1315(b), a license amendment that makes changes, as indicated in Enclosure 2 to the cover letter forwarding this Order, to conform the license to reflect the subject license transfer is approved. The amendment shall be issued and made effective at the time the proposed license transfer is completed.

It is further ordered that FPLE Duane Arnold shall inform the Director of the

Office of Nuclear Reactor Regulation in writing of the date of closing of the transfer of the IPL 70-percent interest in DAEC no later than 5 business days prior to closing. Should the transfer of the license not be completed by December 31, 2006, this Order shall become null and void, provided however, that upon written application and for good cause shown, such date may be extended by order.

This Order is effective upon issuance.

RAILROAD RETIREMENT BOARD

Proposed Collection; Comment Request

SUMMARY: In accordance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 which provides opportunity for public comment on new or revised data collections, the Railroad Retirement Board (RRB) will publish periodic summaries of proposed data collections.

Comments are invited on: (a) Whether the proposed information collection is necessary for the proper performance of the functions of the agency, including whether the information has practical utility; (b) the accuracy of the RRB's estimate of the burden of the collection of the information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden related to the collection of information on

respondents, including the use of automated collection techniques or other forms of information technology.

Title and purpose of information collection:

Pension Plan Reports: OMB 3220-0089.

Under section 2(b) of the Railroad Retirement Act (RRA), the Railroad Retirement Board (RRB) pays supplemental annuities to qualified RRB employee annuitants. A supplemental annuity, which is computed according to section 3(e) of the RRA, can be paid at age 60 if the employee has at least 30 years of creditable railroad service or at age 65 if the employee has 25-29 years of railroad service. In addition to 25 years of service, a "current connection" with the railroad industry is required. Eligibility is further limited to employees who had at least one month of rail service before October 1981 and were awarded regular annuities after June 1966. Further, if an employee's 65th birthday was prior to September 2, 1981, he or she must not have worked in rail service after certain closing dates (generally the last day of the month following the month in which age 65 is

attained). Under section 2(h)(2) of the RRA, the amount of the supplemental annuity is reduced if the employees receive monthly pension payments, or lump-sum pension payments, from their former railroad employer, which are based in whole or in part on contributions from that railroad employer. The employees' own contributions to their pension accounts do not cause a reduction. An employer private pension is described in 20 CFR 216.40-216.42.

The RRB requires the following information from railroad employers to calculate supplemental annuities: (a) The current status of railroad employer pension plans and whether such employer pension plans cause reductions to the RRB supplemental annuity; (b) the amount of the employer private pension being paid to the employee; (c) whether or not the employer made contributions to the pension; (d) whether or not the employee was cashed out before attaining retirement age under the employer pension plan or received the pension in a lump-sum payment in lieu

of monthly pension payments; and (e) whether the employer pension plan continues when the employer status under the RRA changes. The requirement that railroad employers furnish pension information to the RRB is contained in 20 CFR 209.2.

The RRB currently utilizes Form(s) G-88p (Employer's Supplemental Pension Report), G-88r (Request for Information About New or Revised Pension Plan), and G-88r.1 (Request for Additional Information about Employer Pension Plan in Case of Change of Employer Status or Termination of Pension Plan), to obtain the necessary information from railroad employers. One response is requested of each respondent. Completion is mandatory.

The RRB proposes the addition of several new items to Form G-88p which include "skip patterns" intended to allow employers to bypass items when no response is needed. The RRB also proposes editorial and reformatting changes for clarification purposes to several existing items on G-88p. The RRB proposes no changes to Forms G-88r and G-88r.1.

ESTIMATE OF ANNUAL RESPONDENT BURDEN

[The estimated annual respondent burden is as follows]

Form #(s)	Annual responses	Time (min)	Burden (hrs)
G-88p	750	8	100
G-88r	10	10	2
G-88r.1	5	7	1
Total	765	103
