

FOIA appeals are time-consuming because they cannot be decided generically. Each appeal can involve numerous documents that must be analyzed individually on the basis of the standards provided in the FOIA. The Commission believes that this redelegation authority would be in the public interest because it would enable the administrative review process to be carried out more expeditiously. The Commission is therefore revising paragraph (a)(3)(iii)(B) of the rule to authorize the General Counsel to redelegate any FOIA appeal function to a Deputy General Counsel because it is primarily a legal review to assure compliance with existing law and to assure implementation of existing Commission policy. Decisions of a Deputy General Counsel on appeal shall constitute final agency action. In unusual or difficult cases, such as those that present novel policy issues, the General Counsel, in his/her discretion, may make the determination himself or refer an appeal to the Commission for determination.

As noted above, the Commission is also adding a new Rule 4.11(a)(3)(i)(A)(3), which is currently reserved in the CFR, to provide FOIA requesters with the explicit right to appeal fee waiver and reduction determinations and to include a clear deadline for filing such appeals.

The Commission believes that the proposed rule amendments do not require an initial or final regulatory analysis under the Regulatory Flexibility Act because the amendments will not have a significant economic impact on a substantial number of small entities. See 5 U.S.C. 605(b). Most requests for access to FTC records are filed by individuals, who are not "small entities" within the meaning of that Act, 5 U.S.C. 601(6), and, in any event, the economic impact of the rule changes on all requesters is expected to be minimal, if any. Moreover, these proposed rule amendments are matters of agency practice and procedure that are exempt from notice-and-comment requirements of the Administrative Procedure Act, 5 U.S.C. 553(b), which also exempts the proposed amendments from the analysis requirements of the Regulatory Flexibility Act, 5 U.S.C. 601(2). Likewise, the amendments do not contain information collection requirements within the meaning of the Paperwork Reduction Act, 44 U.S.C. 3501–3520. The Commission nonetheless solicited comments regarding the new Rule

4.11(a)(3)(i)(A)(3),¹ but that proposed addition did not elicit any comments.

[Docket No. USCG-2013-0828]

Drawbridge Operation Regulation; Upper Mississippi River, Hannibal, MO

AGENCY: Coast Guard, DHS.

ACTION: Notice of deviation from drawbridge regulation.

SUMMARY: The Coast Guard has issued a temporary deviation from the operating schedule that governs the Hannibal Railroad Drawbridge across the Upper Mississippi River, mile 309.9, at Hannibal, Missouri. The deviation is necessary to allow the bridge owner time to replace critical control components that are essential to the continued safe operation of the drawbridge. The work is scheduled in the winter, when the impact on navigation is minimal, instead of scheduling the work at other times in the year, when river traffic is prevalent. This deviation allows the bridge to remain in the closed-to-navigation position for 39 days.

DATES: This deviation is effective from 7 a.m., January 7, 2014 to 5 p.m., February 14, 2014.

ADDRESSES: The docket for this deviation, [USCG-2013-0828], is available at <http://www.regulations.gov>. Type the docket number in the "SEARCH" box and click "SEARCH." SUPPLEMENTARY INFORMATION: The Norfolk Southern Railroad requested a temporary deviation for the Hannibal Railroad Drawbridge, mile 309.9, at Hannibal, Missouri across the Upper Mississippi River. It has a vertical clearance of 21.1 feet above normal pool in the closed position. The Hannibal Railroad Drawbridge currently operates in accordance with 33 CFR 117.5, which states the general requirement that drawbridges shall open promptly and fully for the passage of vessels when a request to open is given in accordance with the subpart.

The deviation period is from 7 a.m., January 7, 2014 to 5 p.m., February 14, 2014 when the draw span will remain in the closed-to-navigation position. During this time the bridge owner will replace critical control components that are essential to the continued safe operation of the drawbridge. The bridge will not be able to open for emergencies and there is no immediate alternate route for vessels to pass this section of the Upper Mississippi River. The Coast Guard will also inform the users of the waterway through our Local and Broadcast Notices to Mariners of the change in operating schedule for the bridge so that vessels can arrange their transits to minimize any impact caused by the temporary deviation.

Winter conditions on the Upper Mississippi River coupled with the closure of Army Corps of Engineer's Lock No. 18 (Mile 410.5 UMR) and Lock No. 22 (Mile 301.2 UMR) till 11 a.m., March 4, 2014 will preclude any significant navigation demands for the drawspan opening.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.
