FOR FURTHER INFORMATION CONTACT: Ellen Russell (Program Office) 202-586-9624 or Michael Skinner (Program Attorney) 202-586-2793.

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated and require authorization under section 202(e) of the Federal Power Act (FPA) (16 U.S.C. 824a(e)).

On October 17, 1994, the Office of Fossil Energy (FE) of the Department of Energy (DOE) issued Order No. EA-101 authorizing Avista (formerly Washington Water Power Company) to transmit electric energy from the United States to Canada using the international electric transmission facilities owned and operated by Bonneville Power Administration (BPA). That Order authorized Avista to export firm capacity and associated energy only for the months of November, December, January, and February, and at a maximum rate of transmission of 100 megawatts (MW). On October 23, 1995, in Order No. EA-101-A, FE amended the previous electricity export authorization by authorizing exports during each month of the calendar year and at a maximum rate of transmission of 400 MW.

On November 8, 2000, Avista filed an application with FE to amend Order No. EA-101-A by increasing the maximum rate of transmission to 1,000 MW. Notice of receipt of that application appeared in the **Federal Register** on November 20, 2000. No comments were received during the 30-day comment period. On February 12, 2003, Avista submitted an amended application. In the amended application, Avista changed its request for a 1,000-MW export limit and, instead, requests that the authorized export limit be changed from 400 MW to an amount not to exceed the reliability and physical limits of the international transmission facilities presently owned by BPA. In its amended application, Avista clarified that the electric energy to be exported will be sold on an "as available" basis as system conditions dictate and as surpluses are available.

Procedural Matters: Any person desiring to become a party to this proceeding or to be heard by filing comments or protests to this application should file a petition to intervene, comment or protest at the address provided above in accordance with

§§ 385.211 or 385.214 of the Federal Energy Regulatory Commission's Rules of Practice and Procedures (18 CFR 385.211, 385.214). Fifteen copies of each petition and protest should be filed with DOE on or before the date listed above.

Comments on the Avista application to export electric energy to Canada should be clearly marked with Docket EA-101-B. Additional copies are to be filed directly with Richard L. Storro, Manager, Wholesale Power, Avista Corporation, P.O. Box 3727, Spokane, Washington 99220-3727 AND R. Blair Strong, Paine, Hamblen, Coffin, Brooke and Miller, 717 W. Sprague, Suite 1200, Spokane, WA 99201-3505.

DOE notes that the circumstances described in this application are virtually identical to those for which export authority had previously been granted in FE Order Nos. EA-101 and EA-101-A. Consequently, DOE believes that it has adequately satisfied its responsibilities under the National Environmental Policy Act of 1969 through the documentation of a categorical exclusion in the previous proceedings.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above or by accessing the FE Home Page at <http://www.fe.de.gov>. Upon reaching the FE Home page, select "Electricity Regulation" and then "Pending Proceedings" from the options menus.

Issued in Washington, DC, on March 31, 2003.

Anthony J. Como,

Deputy Director, Electric Power Regulation, Office of Coal & Power Import/Export, Office of Coal & Power Systems, Office of Fossil Energy.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY**Western Area Power Administration****Loveland Area Projects—Extension of Transmission and Ancillary Service Rates—Rate Order No. WAPA-101**

AGENCY: Western Area Power Administration, DOE.

ACTION: Notice of rate order.

SUMMARY: This action is being taken to extend the existing Loveland Area Projects (LAP) Transmission and Ancillary Service rates, Rate Order No. WAPA-80, and Energy Imbalance Service rate, Rate Order No. WAPA-97, through March 31, 2004. The existing LAP Transmission and Ancillary Service rates and the Energy Imbalance Service rate will expire March 31, 2003.

FOR FURTHER INFORMATION CONTACT: Mr. Daniel T. Payton, Rates Manager, Rocky Mountain Customer Service Region, Western Area Power Administration, P.O. Box 3700, Loveland, CO 80539-3003, (970) 461-7442, or e-mail dpayton@wapa.gov.

SUPPLEMENTARY INFORMATION: By Delegation Order No. 00-0037.00 approved December 6, 2001, the Secretary delegated: (1) The authority to develop long-term power and transmission rates on a non-exclusive basis to Western's Administrator; (2) the authority to confirm, approve, and place

such rates into effect on an interim basis to the Deputy Secretary; and (3) the authority to confirm, approve, and place into effect on a final basis, to remand, or to disapprove such rates to the Federal Energy Regulatory Commission (FERC).

The Deputy Secretary approved the existing Rate Schedules L-NT1, L-FPT1, L-NFPT1, L-AS1, L-AS2, L-AS3, L-AS4, L-AS5, and L-AS6 on March 23, 1998 (Rate Order No. WAPA-80, 63 FR 16778, April 6, 1998). FERC confirmed and approved the formula rate schedules for Rate Order No. WAPA-80 on July 21, 1998, under FERC Docket No. EF98-5181-000 (at 84 FERC ¶ 61,066). The existing formula rates became effective on April 1, 1998, and are approved through March 31, 2003.

Subsequently, Rate Schedule L-AS4, Energy Imbalance Service, was revised and approved by the Secretary on May 30, 2002 (Rate Order No. WAPA-97, 67 FR 39970, June 11, 2002). Rate Order No. WAPA-97 became effective July 1, 2002, and is approved through March 31, 2003. FERC confirmed and approved the formula rate schedule for Energy Imbalance Service on February 3, 2003 (Docket No. EF02-5181-000).

Western's existing formula rate schedules, which are recalculated annually, will sufficiently recover project expenses (including interest) and capital requirements through the extension period. Western is seeking this extension to provide more time for the evaluation of new rates for ancillary services, particularly energy imbalance and regulation, and to provide a concurrent public process and rate approval period for new rates for firm electric service, transmission service, and ancillary services. For these reasons, Western is extending the existing rates for transmission and ancillary services through March 31, 2004, under 10 CFR part 903.23(b).

I approved Rate Order No. WAPA-101 after DOE reviewed Western's proposal. My approval extends the existing LAP transmission and ancillary services rate schedules L-NT1, L-FPT1, L-NFPT1, L-AS1, L-AS2, L-AS3, L-AS4, L-AS5, and L-AS6 through March 31, 2004.

Dated: March 20, 2003.

Kyle E. McSlarrow,
Deputy Secretary.

Order Confirming and Approving an Extension of the Loveland Area Projects Transmission and Ancillary Service Rates

The Loveland Area Projects (LAP) Transmission and Ancillary Service rates were established following section
