**SUPPLEMENTARY INFORMATION:**

*Title:* Regulations Governing the Voluntary Grading of Shell Eggs—7 CFR part 56.

*OMB Number:* 0581-0128.

*Expiration Date, as approved by OMB:* July 31, 2011.

*Type of Request:* Extension and revision of a currently approved information collection.

*Abstract:* The Agricultural Marketing Act of 1946 (7 U.S.C. 1621-1627) (AMA) directs and authorizes the Department of Agriculture (USDA) to develop standards of quality, grades, grading programs, and services which facilitate trading of agricultural products and assure consumers of quality products that are graded and identified under USDA programs.

To provide programs and services, section 203(h) of the AMA (7 U.S.C. 1622(h)) directs and authorizes the Secretary of Agriculture to inspect, certify, and identify the grade, class, quality, quantity, and condition of agricultural products under such rules and regulations as the Secretary may prescribe, including assessment and collection of fees for the cost of service.

The regulations in 7 CFR part 56 provide a voluntary program for grading shell eggs on the basis of U.S. standards, grades and weight classes. In addition, the shell egg industry and users of the products have requested development and provision of other types of voluntary services under these regulations; e.g., contract and specification acceptance services and certification of quantity. Voluntary grading service is available on a resident basis or on an as-needed basis. The AMA requires Agency costs be assessed and collected from respondents who request voluntary program services. Information provided during the request is used by the Agency to determine cost assessments.

The information collection requirements in this request are essential to carry out the intent of the AMA, to provide the respondents the type of service they request, and to administer the program. The information request requires personal data, such as name, type of business, address and description of service requested.

The information collected is used only by authorized representatives of USDA (AMS, Poultry Programs' national staff; regional directors and their staffs; Federal-State supervisors and their staffs; and resident Federal-State graders, which include State agencies). The information is used to administer and conduct grading services requested by respondents. The Agency is the primary user of the information.

Information is also used by authorized State agencies under a cooperative agreement with AMS.

*Estimate of Burden:* Public reporting burden for this collection of information is estimated to average 0.227 hours per response.

*Respondents:* State or local governments, businesses or other for-profits, Federal agencies or employees, small businesses or organizations.

*Estimated Number of Respondents:* 658.

*Estimated Number of Responses:* 23,145.50.

*Estimated Number of Responses per Respondent:* 35.18.

*Estimated Total Annual Burden on Respondents:* 5,254.20 hours.

Send comments regarding, but not limited to, the following: (a) Whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (b) the accuracy of the Agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; or (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques.

Dated: December 15, 2010.
